

Thank you for supporting Spark of Faith!

Each piece is handmade with love and care, and we want it to last as long as possible. Here's how to keep it looking its best:

1 Wash with care

Turn your garment inside out and wash it on a delicate cycle with cold water. Skip the bleach and fabric softeners—gentle is the way to go!

2 Handle wrinkles gently

Fine HTV (Heat Transfer Vinyl) on cotton may develop small wrinkles if washed in hot water. Don't worry—just iron it inside out on a low-heat setting, and it'll look great again.

3 Hang to dry

Avoid the dryer to help your garment stay beautiful for longer. Hanging it up is always the best option.

4 Special care for puff vinyl

Puff vinyl needs extra love to keep its unique, raised texture. Avoid ironing directly on puff designs. If ironing is necessary, turn the piece inside out and use a low-heat setting with a protective layer, like a towel.
