The background of the entire page is a grayscale image. It depicts a hand, likely of Indigenous descent, holding a large, round, woven basket. The basket is filled with various types of woven materials, including what appears to be dried plant matter or reeds, creating a complex, textured pattern. The hand is positioned at the top, with fingers gently gripping the rim of the basket. The overall tone is respectful and cultural.

We are honored to present the **California Indian Basketweavers' Resource Directory- *Native Weave Finder***, a collection of profiles featuring active CIBA Voting Members who have generously offered to be publicly listed and contacted for their expertise in traditional basketweaving.

The Native Weave Finder is intended to support respectful cultural connection and access to California Indian weavers for purposes such as basket purchases, teaching opportunities, demonstrations, presentations, identification, and repair. Each participant has chosen to share their information voluntarily in support of CIBA's mission to preserve, promote, and perpetuate California Indian basketweaving traditions.

Please note:

- **Digital versions** of this directory will be updated regularly to reflect current, active members who provided their consent to be showcased within this document.
- CIBA is **not liable** for any communications or business transactions made using this directory.
- Members may request to be removed from the digital version at any time by contacting CIBA@ciba.org.

We thank the weavers featured in this directory for their willingness to share their cultural knowledge, and we invite you to use this resource with respect and care.
