The easy way to
DRAW YOUR OWN GIRAFFE

1

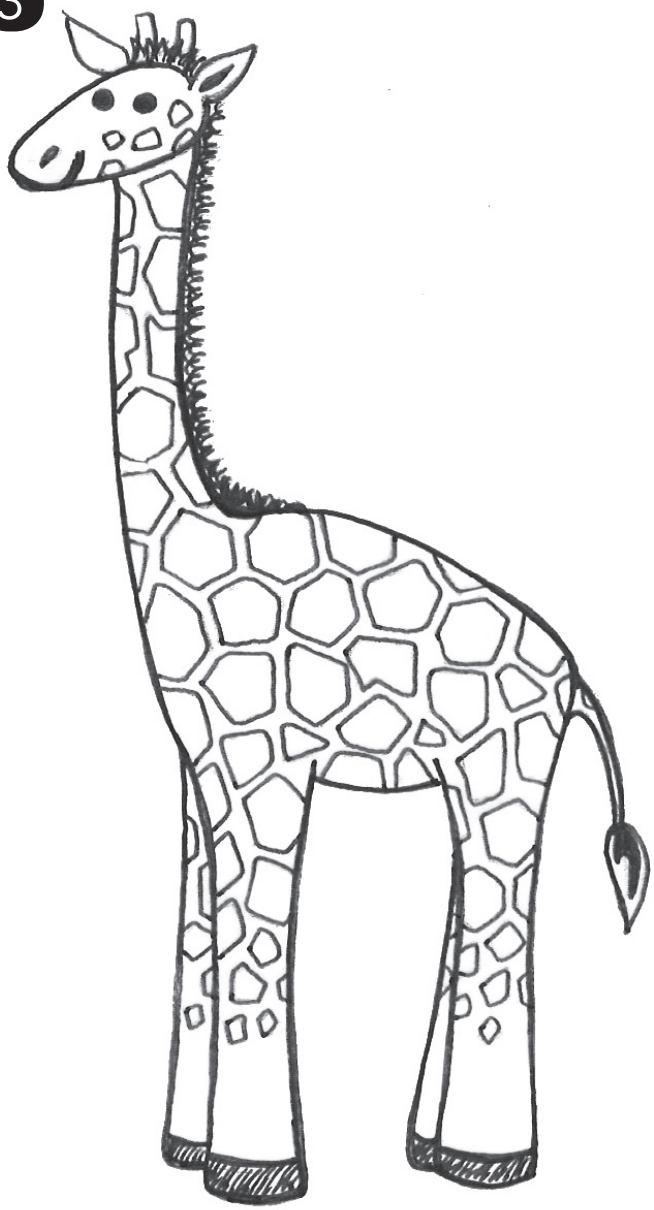

First we need our shape. Remember to do these lines softly in pencil so you can rub them out later. Can you see a giraffe yet?

2

Now let's draw around the shapes to get the outline of our giraffe. Take your time, there's no rush! Right, nearly done! Let's add some spots and give it a tail!

3

Well done, you drew a giraffe! Gosh, doesn't it look happy. Now you can colour it in!
