PRIZED FOR CENTURIES, FOREVER IN BLOOM

Theophrastus, a student of Aristotle, loved them. Confucius, the great philosopher, wrote poems for them. For centuries, orchids have found their way into the hearts of many, and today they find their way into yours. While other orchids require the highest levels of attention, the LEGO® Orchid will thrive even in low light, does not require extreme humidity and is probably the easiest to get to bloom again and again.

APPRÉCIÉES DEPUIS DES SIÈCLES, TOUJOURS DANS LA FLEUR DE L'ÂGE

Théophraste, un étudiant d'Aristote, les adorait. Confucius, le grand philosophe, a écrit des poèmes à leur sujet. Depuis des siècles, les orchidées trouvent leur place dans le cœur de nombreuses personnes, et aujourd'hui, elles trouveront leur place dans le vôtre. Alors que d'autres orchidées nécessitent une attention particulière, l'orchidée LEGO® s'épanouit même en faible lumière, ne nécessite pas d'humidité extrême et est probablement la plus facile à faire fleurir encore et encore.

APRECIADAS DURANTE SIGLOS, SIEMPRE EN FLOR

A Teofrasto, un alumno de Aristóteles, le encantaban. Confucio, el gran filósofo, les dedicó algunos poemas. Las orquídeas se han ganado el corazón de muchos durante siglos, y es probable que hoy también se ganen el tuyo. Mientras que otras orquídeas requieren toda la atención de sus cuidadores, las Orquídeas LEGO® resisten la falta de luz, no requieren humedad extrema y pueden florecer una y otra vez con muy poco esfuerzo.

The three models cannot be built simultaneously.
Les trois modèles ne peuvent pas être construits simultanément.
No es posible construir simultáneamente los tres modelos.

FLOWERS JUST THE WAY YOU LIKE IT

Featuring six full blossoms and two smaller buds, you can trim stems to different lengths, rotate roots and leaves to keep them healthy, and get new arrangements simply by moving blossoms around any way you like.

DES FLEURS COMME VOUS LES AIMEZ

Avec six fleurs épanouies et deux bourgeons plus petits, vous pouvez tailler les tiges à différentes longueurs, faire tourner les racines et les feuilles pour les garder en bonne santé, et créer de nouveaux arrangements en plaçant les fleurs à votre gré.

FLORES TAL COMO TE GUSTAN

El set incluye seis flores abiertas en plenitud y dos botones más pequeños. Puedes modificar la longitud de los tallos y rotar las raíces y hojas para mantenerlas sanas, así como cambiar la imagen del conjunto simplemente reubicando las flores a tu antojo.

FROM THE DESIGN TEAM

Mike has been designing LEGO® products for well over 9 years now. Creating the geometry of the pot was one of his favorite challenges in this model. *"Designing orchids that sit in a sand-blue fluted pot, that are not only fun to build but also beautiful to look at, was an exciting challenge for me. While real orchids were brought in to inspire me, I must admit that the LEGO Orchid is far easier to care for and is certainly a lot more enjoyable to be around."*

Michael Psiaki, Design Master

UN MOT DE L'ÉQUIPE DE CONCEPTION

Mike conçoit des produits LEGO® depuis maintenant plus de 9 ans. Dans ce modèle, l'un de ses défis préférés a été de créer la géométrie du pot. *« Concevoir des orchidées qui reposent dans un pot cannelé bleu sable, qui sont non seulement amusantes à construire mais aussi belles à regarder, a été un défi passionnant pour moi. Bien qu'on m'ait apporté de vraies orchidées pour m'inspirer, je dois admettre que l'orchidée LEGO est beaucoup plus facile à entretenir et agréable à côtoyer. »*

Michael Psiaki, maître de la conception

IMPRESIONES DEL EQUIPO DE DISEÑO

Mike ha diseñado productos LEGO® por más de 9 años. Crear la geometría de la maceta fue uno de sus desafíos favoritos al trabajar con este modelo. *"Diseñar orquídeas plantadas en una maceta estriada de color azul tenue que fueran hermosas a la vista, además de divertidas de construir, significó un emocionante desafío para mí. Tuve algunas orquídeas en mi oficina para inspirarme, y debo admitir que las Orquídeas LEGO son mucho más fáciles de cuidar; definitivamente, te permiten disfrutar más de tu espacio".*

Michael Psiaki, maestro de diseño

The core of the pot is a modified version of the core used in the large tower of the LEGO® Hogwarts™ Castle set – Professor Sprout would be tickled with this.

La base du pot est une version modifiée de la base utilisée dans la grande tour de l'ensemble LEGO® Le château de Poudlard. Professeure Chourave serait ravie.

El centro de la maceta es una versión modificada del núcleo de la torre más grande del set LEGO® Castillo de Hogwarts™. ¡A la Profesora Sprout le encantaría este modelo!

The orchid's stems are built from LEGO® Technic™ elements, making your orchid fully customizable to bloom all year round.

Les tiges des orchidées sont construites à partir d'éléments LEGO® Technic™, ce qui vous permet de personnaliser les orchidées pour qu'elles puissent fleurir toute l'année.

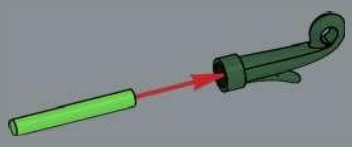

Los tallos de las Orquídeas se construyen a partir de piezas LEGO® Technic™, lo que te da libertad para personalizar la floración de tus ejemplares en cualquier época del año.

The center of the blossoms feature LEGO® frog elements – an homage to the pink frogs used as blossoms in the LEGO Bonsai Tree set.

Le centre des fleurs présente des éléments de grenouille LEGO®, un hommage aux grenouilles roses utilisées comme fleurs dans l'ensemble Le bonsaï LEGO.

En el centro de las flores hay ranas LEGO® como un homenaje al uso de ranas de color rosa a modo de flores en el set LEGO Bonsái.

94

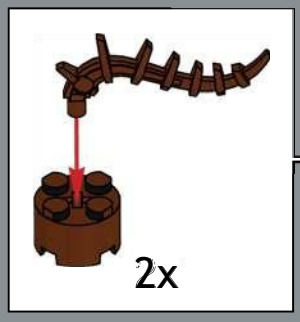

95

Minifigure shields originally developed for the 1995 LEGO® Castle Line make up the sepals of the orchid.

Les boucliers de figurines développés à l'origine pour la série LEGO® Castle de 1995 forment les sépales de l'orchidée.

Los sépalos de la orquídea están conformados por escudos de minifiguras originalmente desarrollados para la serie LEGO® Castle de 1995.

96

Orchids are often potted with mulch to allow air flow and drainage for healthy roots. Here, the mulch is built from claw elements from LEGO® NEXO KNIGHTS sets.

Les orchidées sont souvent mises en pot avec du paillis pour permettre la circulation de l'air et le drainage pour des racines saines. Ici, le paillis est fait à partir d'éléments de griffes des ensembles LEGO® NEXO KNIGHTS.

A veces se coloca un lecho orgánico en las macetas antes de plantar las orquídeas con el fin de que exista una buena circulación de aire y un drenaje adecuado que mantengan sanas las raíces. Aquí, se usaron piezas de los sets LEGO® NEXO KNIGHTS que representan garras para recrear el lecho orgánico.
