Chairman's Foreword

May I welcome you to the 2022 edition of the Newmarket Stud Farmers Directory. It is a publication that now has worldwide circulation bringing to the attention of international breeders the outstanding stallions and facilities of the Newmarket area.

At the time of publication we welcome to the stallion ranks for the 2022 Covering Season the World Champion **PALACE PIER** (Kingman) a 9 race winner of the Haras de Fresnay-le-Bufard Jacques le Marois (twice) Gr I, Queen Anne Stakes Gr I, Al Shaqab Lockinge Stakes Gr I, St James Palace Stakes Gr I who joins the outstanding stallions standing at Darley.

The National Stud's exciting young stallions are joined by **LOPE Y FERNANDEZ** a beautifully bred son of Lope de Vega from a Dansili mare.

The above stallion's Fees are due to be announced shortly and can be found on our website nsfa.org.uk or on Twitter@NewmarketSFA

Requirements for mares visiting Newmarket Stallions can also be found in this publication and on our Website together with the International Code of Practice.

We were greatly saddened to hear of the passing of three of the most prominent Newmarket breeders.

Prince Khalid Abdullah
Sheikh Hamdan al Maktoum
Mr David Thompson

Professor 'Twink' Allen was a world renowned Equine Veterinary Surgeon whose outstanding work in the field of Equine reproduction enabled the fertility of stallions to increase very considerably. Many of his procedures are now routine in the Stud world.

May I conclude by wishing all breeders a very successful 2022 breeding Season.

NEWMARKET STUD FARMERS' ASSOCIATION 2022 BREEDING REGULATIONS

The Thoroughbred Breeders' Association Covid-19 Guidelines will be strictly adhered to for the 2022 breeding season. These can be found on their website. <https://www.tbba.co.uk>

The Horserace Betting Levy Board (HBLB) International Codes of Practice will be strictly applied to all Mares and Stallions for breeding purposes with respect to the control of Equine Viral Arteritis (EVA), Equine Herpesvirus (EHV-1), Equine Infectious Anaemia (EIA), Dourine, Contagious Equine Metritis (CEMO) and other Equine Bacterial Venereal Diseases, as well as additional precautions that are considered necessary by the Newmarket Stud Farmers' Association. The HBLB International Codes of Practice can be found online at <http://codes.hblb.org.uk> or on free HBLB App: EquiBioSafe.

Please note: - Mares arriving from outside the United Kingdom and Ireland should not be travelled with non-thoroughbreds, or any other Equidae, unless these meet the same disease screening requirements for CEMO, EVA, EIA and other equine infectious diseases as are laid down in these regulations. All correctly completed international travel documents should accompany the mare's.

All mares must be correctly vaccinated for EQUINE INFLUENZA. (Primary vaccinations, booster and annual booster). The latest vaccination must have been given within 6 months of each covering as recommended in the HBLB International Codes of Practice. All vaccinations must be entered in the mare's passport.

- A. **CONTAGIOUS EQUINE METRITIS (CEMO) - HIGH RISK MARES** - those who have had previous contact with CEMO or who originate from countries outside France, Germany, Ireland, Italy and the United Kingdom (a full definition of high/low risk status can be found at Appendix 2 of the HBLB International Codes of Practice <http://codes.hblb.org.uk>) require:
- Before first time of covering:
Two negative clitoral swabs taken after 1st January 2022 and at least seven days apart at the home premises or the boarding stud.
One negative endometrial swab taken after 1st January 2022 at the home premises or the boarding stud during the oestrus prior to service.

Clitoral and endometrial swab test results must certify negative culture or PCR results for Taylorella equigenitalis (CEMO), Klebsiella pneumoniae (capsule types 1, 2, & 5) and Pseudomonas aeruginosa by a British Equine Veterinary Association (BEVA) Approved Laboratory or other National Approved Laboratory in Ireland or France. Swab certificates from laboratories in other countries will not be accepted and tests will need to be repeated at the boarding stud, unless the Laboratory is accredited by BEVA Laboratory Approval Scheme, following quality assurance testing. See note c) at the end of these regulations. Immunofluorescence test (IFT) results will not be accepted.

Subsequent walkings-in:
Repeat negative endometrial swab, to be cultured or PCR tested as above, for each subsequent oestrus period.

CONTAGIOUS EQUINE METRITIS (CEMO) - LOW RISK MARES require:

Before first time of covering:
One negative clitoral swab test and one negative endometrial swab test taken after 1st January 2022 with the latter taken during oestrus. Swab test results must certify negative culture or PCR results for Taylorella equigenitalis (CEMO), Klebsiella pneumoniae (capsule types 1, 2, & 5) and Pseudomonas aeruginosa by a British Equine Veterinary Association (BEVA) Approved Laboratory or other National Approved Laboratory in Ireland or France. Swab certificates from laboratories in other countries will not be accepted, unless the Laboratory is accredited by BEVA Laboratory Approval Scheme, following quality assurance testing. See note c) at the end of these regulations. Immunofluorescence test (IFT) results will not be accepted.
The Stallion Stud Manager may, at his or her discretion, on veterinary advice, allow mating to proceed on the basis of satisfactory results from aerobic culture of endometrial swabs if adequate clitoral swabbing has already been carried out. However, the microaerophilic culture or PCR endometrial swab results should be sent to the stallion stud as soon as they are available.

Subsequent walkings-in:
Repeat endometrial swab tests during all subsequent oestrus periods must be cultured aerobically or PCR tested for Klebsiella pneumoniae & Pseudomonas aeruginosa, and results certified before the mare is covered. Microaerophilic cultures or PCR testing for CEMO are still recommended and full results should follow afterwards if covering has already taken place.

CONTAGIOUS EQUINE METRITIS (CEMO) - ALL MARES

In the case of pregnant mares who have had difficult foalings requiring veterinary attention and antibiotic treatments, an additional clitoral swab should be taken after foaling and more than 7 days after antibiotic treatment has finished, in addition to routine endometrial swabs, in order to rule out acquired Pseudomonas aeruginosa and Klebsiella pneumoniae infections. Providing the pre-foaling clitoral swab was certified negative for Taylorella equigenitalis, the additional post-foaling clitoral swab may be cultured aerobically or PCR tested only.

B. EQUINE VIRAL ARTERITIS (EVA) tests to be taken after 1st January 2022

1. All mares that have NOT been outside the United Kingdom and Ireland within the last 12 months will require one negative blood test to be taken after 1st January 2022 and before service. Seropositive mares will require two blood-tests to be taken a minimum of 14 days apart; these should demonstrate a stable or declining titre.
2. All mares originating from outside the UK and Ireland will require two negative blood tests, the first to be taken within a 28-day period prior to arrival in the UK, with the second to be taken at the boarding stud, a minimum of 14 days after arrival. Similarly, animals that are seropositive for EVA will require two tests to be taken in the UK. These should be taken a minimum of 14 days apart and demonstrate a stable or declining titre.
3. NB. If a mare should leave the boarding stud after service or scanning in foal and thereafter wish to return during further oestrus, it may be necessary to provide a second negative EVA test.

These test results must confirm no significant rise in antibody titres (seroconversion).

C. EQUINE INFECTIOUS ANAEMIA (EIA)

1. All mares that have NOT been outside the United Kingdom and Ireland within the last 12 months will require one negative blood test for EIA to be taken after 1st January 2022.
2. All mares originating from OUTSIDE the United Kingdom and Ireland will require a negative blood test for EIA taken no more than 14 days prior to arrival in this country. A second blood test must be taken at the boarding stud, prior to covering, a minimum of 14 days after arrival. Further blood tests must be taken as required to ensure that the mare is tested within 21 days prior to, and as close as possible to, EACH COVERING until a final blood test has been taken a minimum 60 days after the mare's arrival in this country.
3. Any mare arriving from GERMANY or ITALY with a foal at foot will require a blood test for EIA to be taken from the foal a minimum of 14 days after arrival in this country.

D. STRANGLES

Owners and managers are required to declare any possible contact or exposure their mares or stud might have had to strangles, over the last two years. The current Code of Practice guidelines on prevention and control will be observed.

PLEASE NOTE

- a) Additional swabbing and/or other tests may be required in certain circumstances at the Stallion Stud Manager's discretion.
- b) If a mare is changed from one stallion to another during the course of the breeding season a new clitoral swab, endometrial swab and EVA test will be required. These should be taken no sooner than 7 days after the mare was last covered by the original stallion.
- c) BEVA may give approval to Laboratories outside the United Kingdom if the Laboratories have successfully completed BEVA's quality assurance tests. A list of Laboratories will be published on their website: www.beva.org.uk. Mares with swab results from these Laboratories may be accepted for covering by stallion studs provided results are CERTIFIED ON THE CORRECT BEVA MARE CERTIFICATES. Mare owners and boarding studs must establish with the relevant stallion stud that these results are acceptable well in advance of covering.

New state-of-the-art facilities for Rossdale's Laboratories

After more than 50 years in the existing laboratory, a £1.9 million investment has enabled the upgrading and expansion of Rossdale's Newmarket site to accommodate a new, state-of-the-art laboratory and staff facilities.

Work began in September 2019 and the Rossdale's Laboratories team transferred into the new facilities in early 2020, providing a brand new reception and sample drop-off point, an additional newly refurbished building with an upgraded laboratory and air-handling facilities, a number of new cutting-edge analysers, and improved staff and client parking.

The laboratory has also introduced a range of new diagnostic and surveillance tests and, additionally, during the height of the pandemic, the lab team provided some Covid-19 PCR testing. Following the move, the laboratory had its busiest year

PCR testing at Rossdale's Laboratories

to date, processing more than 100,000 tests.

The new laboratory was designed with future expansion in mind, but this began far sooner than had been anticipated.

Following the sad closure of the Animal Health Trust (AHT) in July 2020, Rossdale's Laboratories was selected by The Horserace Betting Levy Board (HBLB) to provide diagnostic laboratory services for essential equine infectious disease surveillance, services that were previously performed at the AHT.

As a result, in September 2021, the development of new cell culture and virus isolation facilities was completed, a project that was supported by New Anglia Local Enterprise Partnership through the Growing Business Fund. This additional expansion has included the employment of three former AHT laboratory technical staff, who have recently joined the Rossdale's Laboratories team.

New cell culture and virus isolation facilities were completed in 2021

Former AHT technical staff, Emma Osman, Liz Medcalf and Toni-ann Hammond, have joined the Rossdale's Laboratories team

Rossdale's Laboratories will now be working closely with the Equine Infectious Disease Surveillance team. After the closure of the AHT, the surveillance services had been provided by the former AHT team headed by Dr Richard Newton on a temporary basis under contract to the British Horseracing Authority (BHA). That team is now employed by Cambridge University under the new agreement and they will continue to respond to disease outbreak incidents and to produce daily updates on infectious disease reports worldwide for the benefit of the health of all horses, Thoroughbred and non-Thoroughbred.

Dr Alastair Foote, director of

Rossdale's Laboratories, said: "We are delighted to have been awarded the HBLB contract, and to be able to provide continuity of the former AHT services that were critical to the equine industry, maintaining essential diagnostic testing and surveillance work."

Our recent major investment in new laboratory facilities at our Newmarket site has meant we have been able to rapidly accommodate the necessary testing requirements, with new tissue culture and virus isolation facilities, and we look forward to working alongside the surveillance and research team at Cambridge."

JOIN TODAY thetba.co.uk

The Thoroughbred Breeders' Association strives to safeguard the health and welfare of the thoroughbred for the overall improvement of the breed. As a charity this includes delivering training and education opportunities to ensure best practice on stud farms, veterinary research to maintain highest health standards, and the encouragement of diversity within the breed for a stronger, more resilient thoroughbred.

Membership of the TBA provides breeders, large and small, with support and guidance for their thoroughbred breeding operations. The Association gives members access to events, seminars, legal advice and tax hotlines, employer support, health and safety guidance, buying group discounts, and race badge offers.

More broadly, the TBA also represents the interests of all thoroughbred breeders both within the industry and with Government.

All of this couldn't be possible without your support. The TBA would like to thank all of those who contribute to the charity and its work. Whether through membership, sales levy, foal levy, event sponsorship, or grants and donations, the TBA is indebted to the kind generosity of the breeding and racing community. Your funds have enabled veterinary research to continue, such as studies on early pregnancy loss and parasitic worms, and the development of new training pathways to recruit and retain more people in the industry. The TBA is working towards a stronger future for the breed and breeders.

Thank you.

CARGATE
engineering

Cargate Engineering Ltd, Priory Barns, Drinkstone Road, Geddling, Bury St Edmunds, Suffolk IP30 0QE
 T 01284 386538 E info@cargateweb.co.uk www.cargate-engineering.co.uk

In 1998 Robert Furchgott and Louis Ignarro along with Ferid Murad won the Nobel prize for their work discovering the Nitric Oxide Pathways Technology.

Our CEO Founder and Formulator, Bob Fogli, was persuaded by numerous equine friends (after steroids were banned in the racing industry) to change from human supplements to equine supplements.

Bob established a laboratory in California 23 years ago and, after great success in racing, he branched into other disciplines. Following this he decided to open a laboratory here in Newmarket in 2016 - T.H.E. Equine Edge Limited in Victoria Way.

Our ethos is that in providing the horse's body with essential nutrients from these ingredients, the normal biological functions of the horse will have the right fuel to work most

efficiently. If you give the body the best input, you'll get the best output!

All of our formulas are created using the highest quality ingredients, carefully formulated to use the Nitric Oxide pathways.

Cookie Making

All of our products are made from natural ingredients, by hand, in our laboratory in Newmarket.

Depending on the individual stresses your horse will undergo, in addition to their own unique physical condition, your horse is likely to need extra help to stay fit and healthy.

All of our products are 100% natural, we have BETA NOPS/UFAS accreditations and are a member of BETA Trade.

We have supplements for joints, lung function (including a product for bleeders), itching, hoof and coat, anti-inflammatory and general gastric products (including our famous GastroPLUS supporting all gastric issues). Plus a fantastic range of products to calm and focus your horse.

Our most versatile product is T.H.E. Super Daily, which supports blood flow, hoof, coat and skin, digestion, joints, muscle strength, bone density, immune system plus addresses mineral and vitamin deficiencies.

The Laboratory Storeroom – storing high quality amino acids, herbs and vitamins for our formulas

All ingredients in T.H.E. Super Daily are carefully selected to help supplement proper nutrition to all areas in the equine body, making this a super all over general health formula). An excellent product for young horses and horses in training, performance horses and any horse needing a boost.

We cover the whole equestrian range from racing to children's ponies, with customers who keep becoming our friends.

Testimonial

I first came across The Equine Edge when I was working in America, California (santa Anita) and noticed that many of the top trainers used the products, I was going to have it shipped over to England at what ever the cost, but was delighted when I found out they had opened a branch

in Newmarket up the road from me.

I use multiple products from Equine Edge and find that they all work very well, muscle mass, super daily, gastro plus, pulmonEZ and the cookies to calm and focus.

Since using The Equine Edge I have found a few of our older horses eat better, and the condition of all the horses coats stand out but what stands out to me the most is the horses I have running are recovering from their races at a much quicker rate and coming out of the races in good form!

S. Pearce Racing

Testimonial

"We are Racehorse Retraining & Rehoming Stables and the supplements we use from T.H.E. Equine Edge are invaluable in the work we do with ex Racehorses.

Our own favourite products are definitely the Gastro and Calmer range. We have seen huge changes for the better in a lot of horses that have come to us when we have put them on the Gastro PLUS and SFM. They don't have to have had ulcers for us to use these products but it has also helped a few that did have them.

The Gastro PLUS & SFM certainly helps them relax into their change of

environment whilst keeping their guts healthy.

An example was one horse who we were told by the Trainers we possibly wouldn't be able to retrain him and a lot of his issues started from the fact that he was a nightmare to even leg a jockey up on to and apparently riding him out wasn't much better when they were on board! We started him straight onto the GastroPLUS and after a month we started his retraining. He stopped weaving and stressing within the first week and bloomed into a lovely boy. We mounted him a couple of times in the stable and then tried him outside in the school from a mounting block and he has been perfect all the way through his retraining with us. I honestly believe that without the GastroPLUS and calmer we would probably not have achieved such success with this horse!

Over the years we have tried many different products from different companies but the products from T.H.E Equine Edge are definitely the best ones we have found on the market and they are of course all competition legal so we can safely feed them to all of our horses out competing or any we have with us that may be on holiday and going back into training"

CHEVELEY PARK STUD

Brief history of the Stud:

Cheveley Park Stud was bought by Mr and Mrs Thompson in 1975, since which time it has undergone an extensive renovation programme to bring it up to be one of the most modern and respected studs in England. In 1986 Sandwich Stud was purchased as a private facility, where most of the Thompson's yearlings are accommodated and also where the yearlings for public auction are prepared. In 1997, a further expansion of the Stud took place with the purchase of Warren Hill and Ashley Heath Studs, where horses such as PEBBLES, CARROLL HOUSE and BISHOP OF CASHIEL were bred and raised.

The total acreage of the Stud presently stands at approximately 970 acres. (455 acres at Cheveley Park Stud, 215 acres at Sandwich Stud and 300 acres at Warren Hill & Ashley Heath Studs). CHEVELEY PARK STUD is a private stud, which takes walking in mares only.

CHILDWICKBURY
STUD

Stud Owners: Mr and Mrs Flatt

Stud Manager: Max Weston (Mobile: 07817 661464)

A Brief History: The Stud was originally built in 1888 by Sir John Blundell Maple as part of his Childwickbury estate, he bred and raced Thoroughbreds and built Childwickbury Stud into a very successful horse breeding operation.

Another prominent racehorse owner, Jack Joel then bought the estate including the Stud in 1906. In 1940 his son Jim Joel took over the operation.

He too became a successful racehorse owner and breeder and maintained the property until 1993 when the Stud was sold to the Marquesa de Moratella.

She also ran a successful horse breeding operation as well as being a successful racehorse owner. Mr & Mrs Flatt then took over ownership of the stud in 2011.

They have worked with Heritage and the Planners to continue the modernisation of the Stud for the next generation of winners.

Our facilities include:

230 acres of large post and rail paddocks which have been permanent grass since the mid 19th century.

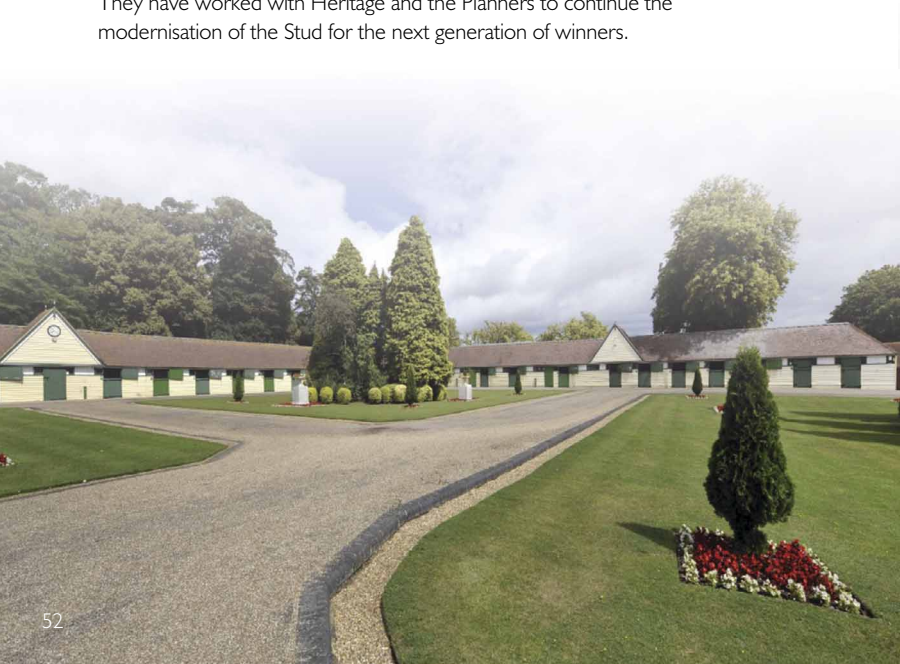

- 35 broodmare stables
- 32 yearling stables
- Foaling unit equipped with CCTV
- 2 lunge rings and a covered horse walker
- 4 indoor loose barns and 5 all weather nursery paddocks.

We use Rosssdales Veterinary Surgeons.

We are located just 50 miles south of Newmarket, making us an ideal location for walking in mares during the stud season. We are also only 27 miles from central London and 35 miles from Heathrow Airport.

We offer a bespoke service to owners of thoroughbred bloodstock, utilising the best veterinary and nutritional services available.

12 classic winners have been bred/raised at Childwickbury Stud including: SUNSTAR (2000 Guineas and Derby), JEST (1000 Guineas and Oaks), HUMORIST (Derby), ROYAL PALACE (2000 Guineas and Derby), FAIRY FOOTSTEPS (1000 Guineas) and TIN HORSE (French 2000 Guineas).

Brief history:

Dalham Hall Stud

Dalham Hall Stud was purchased from the Phillips family in 1981 and was the first of the 12 studs in Newmarket which now form part of a global organisation. Among the 10 mares that came with Dalham Hall's purchase was Oh So Fair, at the time carrying Oh So Sharp, winner of the fillies Triple Crown in 1985. The stud is used as a private stud for company mares and their progeny.

Best horses bred: AFRICAN STORY, DILSHAAN, DUBAI MILLENNIUM, KING OF CHANGE, NEDAWI, POET'S VOICE, NICHOLS CANYON (NH), DARNAY, KABOOL, MAIDEN TOWER, NAYYIR, REBELLION, UNFORGETTABLE FILLY, WHITEHAVEN, BLUE MONDAY, BUSHMAN, DEARLY, FRENCH NAVY, GRAIKOS, IBN AL HAITHAM, LAAHEB, LADY CATHERINE, MILITARY MARCH, MISTLE SONG, MKUZI, VINCENNES, WHISPERING GALLERY.

Rutland Stud

Rutland Stud was purchased in 1984 and was originally part of the Duke of Rutland's Cheveley Estate. It is the largest of the 12 individual company studs in Newmarket, which form the UK group. It is used as a private stud for company mares and their progeny.

Fox Farm had been put down to grass for 16 years and had only been grazed by sheep prior to purchase. Brand new Keep safe and post and rail fencing feature on all the paddocks, which are also surrounded by mature hedgerows.

Accommodation available for 100 horses.

The stud specialises in walking-in mares to Newmarket stallions, permanent boarders and first-class sales preparation.

In 2012 two horses raised at Fox Farm – Mayson and Belle Royale – both won Group One races. Mayson stands at stud at Cheveley Park Stud and is now the sire of July Cup Winner Oxted.

Latest Black Type Winners include Arizona winning Coventry Stakes Gr. 2 race at Royal Ascot, Under The Stars winning Princess Margaret Keeneland Stakes Gr.3 race at Ascot and Mighty Gurkha winning the Sirenia Stakes Gr. 3 at Kempton.

Excellent Sales results for 2020 topped by Kingman X Galicux with an amazing 2.7 million bred by Pantile Stud and Kingman X Lustrous 310,000.

We also topped Goffs UK Premier Sale 2021 for the second time with Harry Angel X Red Box £220,000.

Houghton Bloodstock once again became one of the top consignors in the Country.

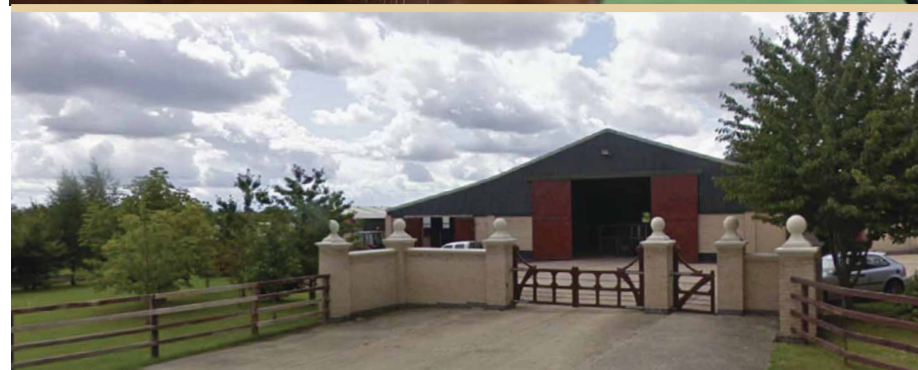

Directions: (from Newmarket):) follow signs to Dullingham, Burrough Green, Great Bradley, Thurlow and Great Wratting. At the Great Wratting-Kedington staggered crossroads (by the pork factory), turn left. Proceed for a mile and a half and turn right at the Barnardiston and Hundon sign to the right. Follow the road through Barnardiston and proceed for another mile and a half and Fox Farm is on the right just before the turning to Chimney Street.

c. 1040 acres

Lanwades Stud was acquired by the present owner in 1980.

It comprises 267 acres with 85 boxes, including 6 separate isolation units and is home to the resident stallions.

St Simon Stud was purchased in 1982 at which time it was an arable farm. It has been developed into a 300-acre stud with 65 boxes.

Staffordstown Stud, a 473-acre farm in Co Meath, was added in 1990 and is used for weanlings and yearlings.

Many of Europe's leading breeders have chosen to entrust their mares to be boarded at the Stud. A small number of permanently boarding mares can be accommodated on the Stud and their offspring can be raised here in Newmarket or in Ireland.

Visitors to the Stud are welcome.

Appointments should be made through the Stud Office.

In the last twenty-three years (1999-2021)
LANWADES, ST SIMON & STAFFORDSTOWN

15 acres

Stabling for 11 horses

Brief history: We are a small family run stud who are one of the only studs in the country that specialise in hand-rearing orphan foals.

To date there is a widely held belief that hand-rearing horses makes them become too 'humanised'. However we are proving this theory wrong time and time again.

We do fosterings as well as hand-rearing, either here or we come to you.

We do also provide our own fostermares including Summer our first fostermare that started all this for us back in 2006.

All normal stud services are offered including AI.

We use NEH and Rossdales vets.

120 Acres of paddocks which are either post and rail or keep safe and has 82 boxes.

Brief history: NORTHMORE STUD, which also incorporates the nearby Middle Stud, is one of the few remaining private studs in Newmarket. The Stud has been in the same ownership since 1991 and has excellent facilities for both the breeding season and sales preparation and prides itself on the personal and professional service provided to each client. Special concessions are offered for permanent boarders and Rosssdales Veterinary Scheme is accepted.

The Stud welcomes both Full-time boarders and walking in Mares and has an outstanding reputation for getting Mares in foal. It also welcomes foals and yearlings for turn out or sales preparation.

The facilities include Foaling unit with CCTV and veterinary room with stocks. During the season the stud has daily attendance from Rosssdales and is backed by a 24-hour veterinary service, if needed. The stud has its own teaser, horsebox, horse walker and lunge ring. There are 3 separate yards, one of which consists of an American barn, which also has its own stocks. As well as the main paddocks, the stud has 10 nursery paddocks, thus allowing young foals to be turned out without danger or, they are used for resting Mares or horses that may need to recuperate.

A STUD where peace and tranquillity reigns, situated on the edge of Exning village, only two miles from Newmarket and located within a few minutes of Rosssdales Equine Hospital.

Directions: Follow the signs to Exning from either Newmarket Town Centre or the A14. Go through the village of Exning, heading towards Burwell. Take the road on right named North End. Northmore Stud is 400 yards along on the left the entrance being through electric double wrought-iron green gates.

Visitors are always welcome. Feel free to contact us to arrange a visit.

Brief history and best winners bred: Established in the 1880's as a department of The Royal Studs which were founded at Hampton Court in the 16th Century. The history of The Royal Studs is closely linked with the development of the Thoroughbred, with ECLIPSE and KING HEROD being the most notable horses bred in the 18th Century. Since then The Royal Studs have bred the winner of the 1,000 Guineas seven times, the 2,000 Guineas six times, the Derby six times, the Oaks five times and the St. Leger six times. Other major wins include the King George VI and Queen Elizabeth Stakes and the Prix de Diane. Notable horses bred at The Royal Studs include SAINFOIN, MEMOIR LA FLECHE, PERSIMMON, DIAMOND JUBILEE and AUREOLE. Amongst the winners of over 1,000 races bred by The Queen since 1952 are ALMERIA, CANISBAY, DUNFERMLINE, HIGHCLERE, PALL MALL, RIGHT APPROACH and UNKNOWN QUANTITY.

Stud Groom: Lee Paine – 07789594753

Brief History:

Originally established as a training base, two Grand National winners were sent out from the Elms Stud in the early 1900's. Since 2000 the Elms Stud has provided the full range of services for both Flat and NH clients and claimed the then **world record price** for a broodmare: **MAGICAL ROMANCE** sold at Tattersalls Breeding Stock Sales in 2006 for 4.6 million Guineas.

The Stud occupies 200 acres of permanent pasture surrounded by post and rail fencing and well established hedges; comprising large, well sheltered paddocks for summer turnout and a number of smaller nursery paddocks for youngstock and horses requiring tailored rest and recuperation.

The traditional main yard is a feature of the stud, with a separate isolated American barn and all weather turn out, and a further self-contained separate six box foaling unit with CCTV. Other facilities include a horse walker and lunge ring and two two-stall horse boxes.

Centrally located to take advantage of walking out to Newmarket stallion studs as well as further afield, the stud offers permanent accommodation for Flat and NH mares and youngstock and takes a limited number of mares during the season for foaling and walking out. Summer turnout with abundant pasture is also available.
