Google Classroom Read Along

Empower every reader with Read Along in Google Classroom

Read Along in Google Classroom is an AI-powered tool that helps students improve their independent reading skills while igniting a love of reading.

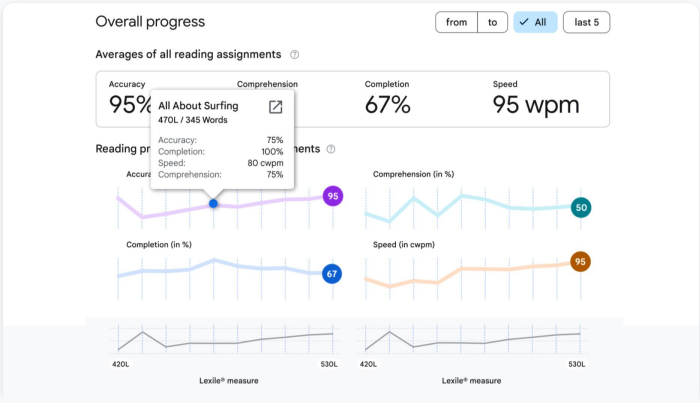
Develop independent readers

Help **educators** guide students on their reading journeys with the right content and insights.

Inform reading instruction with insights

Track what matters most

View information on accuracy, speed, comprehension, and progress for individual students and the entire class. Use these actionable insights, combined with phonics insights for decodable books, to drive student growth.



Differentiate with ease

Personalize the student experience

Assign reading activities for individual students based on **Lexile® measure**, **grade level**, or **phonics skills**, with comprehension questions for many of the books.

Access a ready-to-go library

Choose from over 800 books, including **decodable texts** from publishers like Heggerty, **leveled reads** from ReadWorks, and more.

Create and upload your own content

Upload existing materials or **generate** stories with the help of Gemini (Google AI) directly in Read Along in Classroom to create custom, interactive reading experiences.

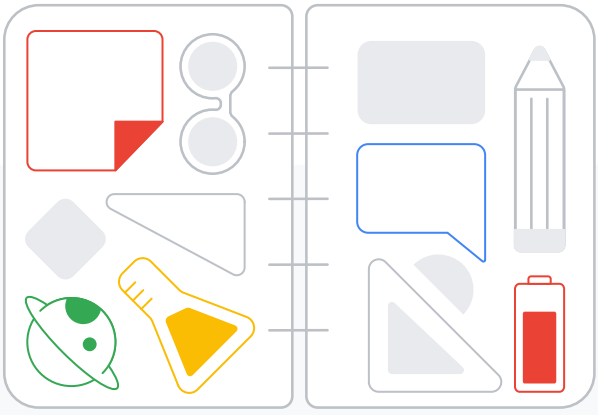
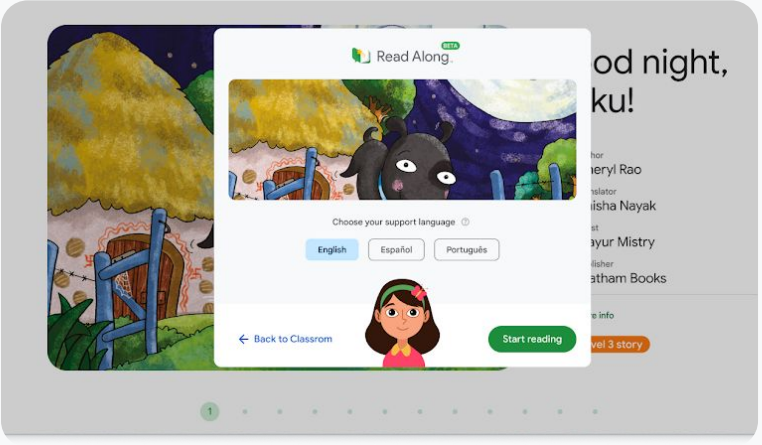
Google Classroom Read Along



Inspire a love of reading in students

Transform the way **students** learn to read, spark a passion for learning and literacy, and help boost their academic success.

Provide instant help when students need it



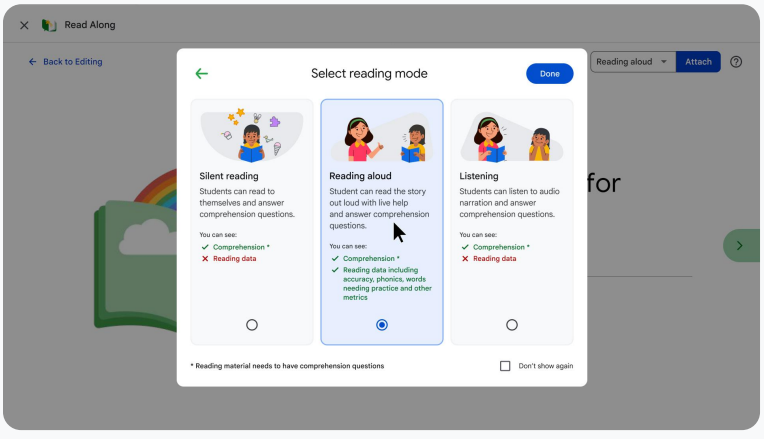
Meet the reading buddy with real-time support

The AI-powered reading buddy helps students along their reading adventure, offering in-the-moment support with pronunciation and more.

Support English language learners

Provide students with additional support in multiple languages for select books to help them deepen their comprehension and keep reading.

Uplift every reader



Promote student agency

Encourage self-directed learning by allowing students to read at their own pace, reread challenging passages, and ask for help when they need it.

Diversify reading practice with new modes

Enable **silent** or **listening modes** to offer flexible practice, supporting independent reading and accessibility needs.

Empower students in a supportive environment

Students can practice reading aloud to build their fluency and confidence. To keep them motivated, students get rewarded with stars for their achievements.
