

New Lake Steamer Launched.

DETROIT, Dec. 30.—At noon to-day there was successfully launched from the Wyandotte yards of the Detroit Shipbuilding Company what is confidently claimed to be the finest and fastest excursion steamer on either the lakes or the seacoast. The new boat was christened Tashmoo, the name of a St. Clair River resort, one of the enterprises of the White Star Company, owners of the craft. The Tashmoo is a side-wheeler, modeled largely after the most modern of the Hudson River passenger steamers.
