REDAKSIE

Voor v.l.n.r.: Mnr. J. Claassen (Laerskool), J. Venter, J. van der Linde (Redakteur), Mej. P. M. de Villiers, Mnr. R. Cilliers.

Agter: Mnr. J. Volsteadt, P. Verster, Mnr. J. Cruywagen, N. Oosthuizen, B. van den Heever, Mnr. B. van der Merwe.

our retiring principal

Mr. C. C. F. Bornman, joined the staff at Grey College in 1937, and when the Secondary and Primary sections separated in the beginning of 1950, he became the first Principal of the Primary School.

Early days:

He was born on a farm in the Senekal district and was educated in the town itself. After he had matriculated, he enrolled as a student at the Grey University College and then the Normal College — as they were then known, and in December, 1929, became a fully qualified teacher with a Primary Teacher's Certificate, which was a great achievement in those days.

Academical Qualifications:

Full of high hopes and ideals he started his teaching career at a farm school in the Ventersburg district. He was not only Principal of this school but formed the entire staff as well. Such a post can be terribly frustrating for an ambitious young teacher so he successfully applied for a post at Grey College, where he became one of the seven teachers responsible for the primary section. This step also gave him the opportunity to improve his academical qualifications. Through extramural classes at the Grey University College he obtained his B.A. degree and consequently the S.T.D.-diploma.

In time he became responsible for the organisation and administrative duties of the primary section under the guidance of the Principal, Mr. Jock Murray Meiring. When the separation of the two schools eventually took place, he became the Primary school's first Principal.

Not only did Mr. Bornman's name become synonymous with Grey Primary but also with Murray House, where he was Housemaster to hundreds and hundreds of Grey College hostel boys during that period.

His Principalship:

Grey College was vastly different in appearance in those days. Today we have the beautiful terraces in front of the Swimming Bath and K.G. Swimming Pool, the Rugby pavilions, the lawns and the necessary water supply for the grounds, and the Centenary Hall. All these improvements came about during his Principalship and for the achievement of these Mr. Bornman played a very important part. Where the Primary School itself is concerned, it grew in leaps and bounds and at present has a roll of 378 pupils and 30 members of staff. Hence the necessity of the expansion of the school buildings. Firstly new Kindergarten buildings were erected followed by a library, a projection room and a new administrative block. All this was to a very great extent due to the love, interest and endeavours of the Principal.

Besides the numerous pupils and staff members that have passed through his hands, many school Principals and Vice-Principals are thankful for his guidance while they were members of his staff.

Other Interests:

Mr. Bornman had many other interests as well in which he was very active. He was the Chairman of the local Teachers' Association and a deacon and an elder of his Church for many years. He has always been interested in musketry and was second in command of the "Bloemfonteinse Skiet Kommando" and quite successful on the shooting range but even more successful in the veld after buck. He is also a great rugby enthusiast and keenly watches the achievements of all the school teams, local, provincial and Springbok matches. But his favourite sport for years has been golf, where he has played to a handicap of 11.

There was, however, a great tragedy in Mr. Bornman's life when his wife "Babs" passed away suddenly in 1963. There were two children from this marriage, namely Neels, who is a very successful dentist in the city and Christie, who is teaching at the Commercial High School in Pretoria.

Towards the end of 1964 he found another partner in life when he married Mrs. Bunny Macaskill, who immediately became part of Grey College and is held in very high esteem by all who have come to know her. They are now very peacefully and comfortably settled near Spitskop.

Mr. Bornman retired at the end of the second term and he can look back with pride on his career here at Grey and we can understand why he was responsible in 1955 for the slogan for our Centenary Celebrations, namely: "We enrich our heritage."

Mr. Bornman and his family have the best wishes of all connected with Grey. We will surely miss him, but I think he will miss Grey more.

On behalf of Grey College we wish Mr. Bornman and family God speed.

ons nuwe laerskoolhoof

mnr. steve strydom

Nadat Steve Strydom sy laerskoolloopbaan aan Pres. Brandskool deurloop het, begewe hy hom in 1952 na Grey-kollege waar hy in die Eeufeesjaar, 1955, die Matrikulasie-eksamen met sukses aflê. Hy is een van die min seuns aan Grey wat reeds in st. 9 as prefek gekies is.

In 1957 kwalifiseer hy as onderwyser aan die Bloemfonteinse Onderwyserskollege en beklee daarna vanaf 1958 tot 1967 aan die Primêre Skool 'n permanente pos. Hy wys baie gou wat daar in hom steek en daarom word hy in 1968 vise-hoof aan die Willem Postma Primêre skool. In Januarie 1970 is hy terug by Grey as vise-hoof. Dit word baie gou duidelik dat daar groter dinge vir hom wag en daarom verras dit niemand nie as hy in Junie 1972 aangewys word as die nuwe hoof van die Primêre Skool.

In die sportwêreld trap hy diep spore. Op skool speel hy vir die eerste rugby- en krieketspanne. Hy verteenwoordig die O.V.S. vir 3 jaar op die Nuffield-Kriekettoernooi, die laaste jaar as kaptein van die span, en speel ook in die O.V.S. Skole-rugbyspan.

As senior speler verteenwoordig hy die Vrystaat 6 jaar lank op die rugbyveld en speel 8 jaar vir die O.V.S. krieket. Daarna wy hy sy dienste as skeidsregter aan Bloemfonteinse rugby en word reeds in 1971 provinsiale skeidsregter. Die S.A. rugbybase besef spoedig wat hulle in hierdie energieke jong man het en stuur hom in 1971 om 'n rugbyskursus in Frankryk by te woon. Aanstaaende jaar gaan hy na Nederland om die S.A. Rugbyraad te verteenwoordig en die Nederlandse toerspan na Suid-Afrika met afrigting en die vertolking van die rugbyreëls te help.

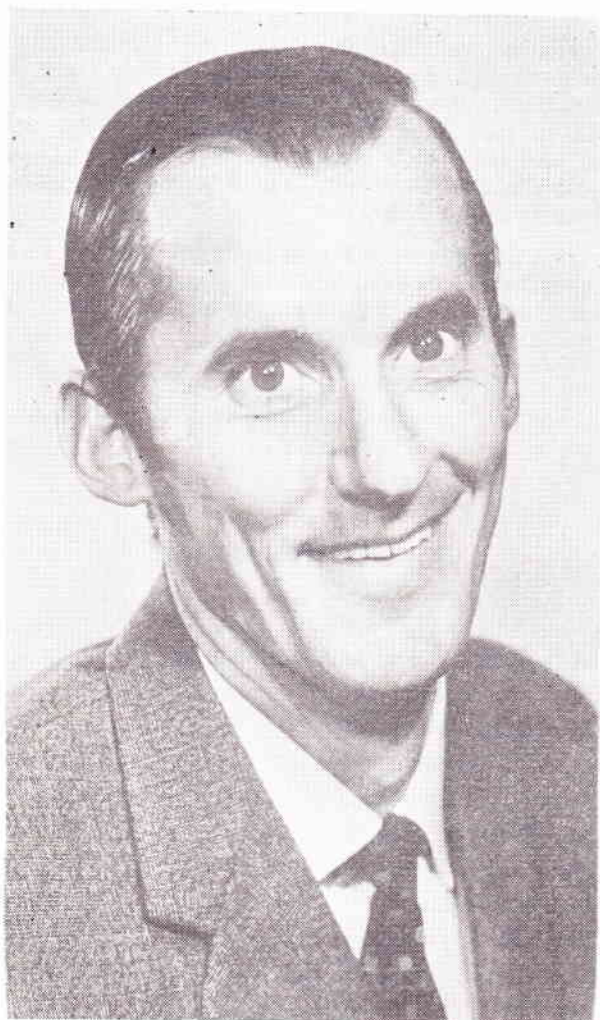

In 1961 tree hy in die huwelik met Ema Joubert. Die egpaar het 'n seun en twee dogters. In sy eggenote het hy iemand wat 'n stukrag in sy lewe is.

Hier het ons dus 'n man wat pragtig toegerus is om die veeleisende taak wat 'n groot primêre skool stel, suksesvol te onderneem. Hy het in die kort tydjie sedert Julie reeds bewys dat hy weet wat hy wil en daarom het ons volle vertroue dat Grey-kollege Primêr in die besonder en Grey in die algemeen ryker geword het met sy aanstelling.

Grey heet u welkom, mnr. Strydom, en wens u toe baie jare van suksesvolle diens aan u alma-mater.

nuwe vise-hoof van die laerskool

mnr. japie claassen

Mnr. Japie Claassen, 'n produk uit Calitzdorp se wêreld, kom in Januarie 1962 via die Kalahari op die Grey-kollege aan.

Met sy kennis van die bankwese en onderwys-opleiding te Wellington, het hy gou sy merk in die onderwys gemaak. Hy behaal die B.A.-graad aan die U.V. en stel veral baie belang in Aardrykskunde.

Sedert hy by Grey begin het, was hy verantwoordelik vir 'n verskeidenheid van standers. Hierdie ondervinding dien as ideale agtergrond vir die pos van vise-hoof wat nou deur mnr. Claassen beklee word.

Hy het sy organisasievermoë getoon gedurende verskeie skooltoere, o.m. na Rhodesië en Lourenco Marques. Gedurende die afgelope aantal jare het hy verskeie baie suksesvolle sporttoere gereël en vergesel. Hy is ook sekretaris van die S.O.V.S. Skole Sokkervereniging en die Bloemfontein Primêre Krieketkomitee, asook O.V.S. Primêre skole krieketkeurder. The Soccer- and Cricketplayers will never forget the tall slim figure, with dark glasses, who spends so much time at these two activities.

Onmiddellik na sy benoeming as vise-hoof van die Primêre skool het hy sy nuwe pligte en verantwoordelikhede aanvaar en sover alles met die grootste nougesetheid en deeglikheid afgehandel.

Waar hy vir die organisasie van 'n groot deel van ons finansies verantwoordelik is, het hy homself bewys as 'n kenner van geldsake.

Ons vertrou dat Grey nog lank van mnr. Claassen se gewaardeerde dienste gebruik sal kan maak. In sy eie woorde. „Ek is beslis baie gelukkig in die onderwys en sal Grey-kollege vir geen ander werkplek verruil nie.”

S. STRYDOM.

hulde aan mnr. c. c. f. bornman

Watter aangename ondervinding was dit nie om vir bykans 25 jaar met mnr. Bornman te verkeer het, eers as kollega op onderwysersvlak en daarna as skoolhoof.

Wat my van hom altyd getref het, was sy besondere gawe om met die jonger seuns om te gaan en by hulle vertroue in te boesem. Dit was hoofsaaklik so omdat hy 'n gesonde en aansteeklike humorsin besit.

Nog 'n kenmerkende eienskap wat my altyd beïndruk het, was die gevoel van lojaliteit wat sy personeel teenoor hom en sy skool gekoester het. Dit kon ook nie anders nie, want hy was in alle opsigte lojaal teenoor Grey-kollege, sy personeel en die seuns.

Sy raad, bystand en vriendskap was deur al die jare vir my goud werd. Ek saluer 'n getroue vriend en groot onderwyser wie se grootste nalatenskap die besieling is wat van hom uitgegaan het.

A. K. Volsteedt.

mev. b. nortjé

Dit was met leedwese dat ons verneem het van die afsterwe na 'n lang siekbed, van mev. B. Nortjé.

Hierdie waardige dame met haar vriendelike en hulpvaardige gesindheid was vir 11 jaar lank as matrone in die eetsaal 'n moeder vir elke personeel-lid en elke seun. Vir haar was geen moeite ooit te veel nie — sy was te alle tye, selfs toe haar gesondheid al swak was, met 'n vriendelike glimlag bereid om te help.

Ons sal hierdie ware dame altyd onthou. Haar opregtheid, bekwaamheid en opgeruimdheid was vir ons altyd 'n inspirasie. Al mis ons haar, gun ons haar haar soete rus.

in memoriam

Mnr. Juric W. Fourie (Onderwyser).
Adv. Sam Berman (61).
Mnr. Reg. Krohn (53).
Mnr. P. M. Dixon (76).
Prof. C. H. Derksen (55).
Mr. C. Cruttenden (Ex-master).
Hugo Harris (19).
Mr. Harold Eason (75).
Mnr. W. F. Groenewald (63).
Mnr. Louis Edmeades (62).
Mr. Cecil Kaplan (63).
Mr. Bill McCormick (59).
Mnr. M. Blignaut (82).
Mnr. J. C. Brink (52).
Mnr. Barry Reitz (62).
Mnr. J. C. (Oom Jaap) Rousseau (72).
Dr. S. J. du Toit. (81).
Mr. Ivan Leviser (90).
Mnr. E. J. Holtzhuizen (92).
Mr. R. Thorpe (33).
Mnr. P. A. Venter (Voormalige Kassier).
Dries Jooste (22).
Mr. K. W. Jelliman (86 years).

Graag wil ons die naasbestaendes van hierdie oud-Greys verseker van ons innige meegevoel. Enkele van hierdie lang lys oud-Greys het baie naby aan die skool gestaan.

skoolkaptein

school captain

bruce van den heever

When Bruce v. d. Heever came to Grey in 1969 it soon became evident that he was a very versatile scholar and a quiet but strong leader. His election as school captain for 1972 did not come as a surprise — both staff and boys regarded him as a potential captain as early as 1970 when he was in std. 8.

Bruce hails from the small town of Fouriesburg where he was born on the 4th April, 1954. He spent his Primary School years at Fouriesburg and at St Andrews from where he came to Grey.

Academically he has maintained a very high standard, always obtaining above 70% in every examination. He has also set a high standard as regards his positive healthy influence, his sense of responsibility and fine gentlemanly conduct. Although he has not achieved high honours in sport he has participated in hockey, rugby, cricket and golf (handicap 11), and has at all times displayed real sportmanship. His versatility is furthermore emphasized by the following positions he occupied in our school life: sub-editor of the Stabilis Editorial Staff, chairman of the S.C.A., chairman of the Entertainment Committee and chairman of the Debating Society.

Bruce intends studying medicine either at Stellenbosch or at the Free State University next year. Grey College wishes him every success in his future career.

grey bring hulde

grey pays tribute

mr. p. m. dixon

Toe Mnr. P. M. Dixon op 26 November 1971 na 'n lang siekbed oorlede is, het die Vrystaat 'n groot sportman en Grey-kollege 'n kleurvolle oud-onderwyser verloor.

Reeds as skoolseun op Grey het hy diep spore in die sportwêreld getrap. Ook op akademiese gebied het hy sodanig presteer dat hy 'n Oxford-beurs verower het, die eerste Vrystater om die beurs te verower. Op Oxford het hy o.a. uitgeblink in tennis en rugby en hy is destyds bestempel as een van die knapste senters in Engeland.

Terug in Suid-Afrika het hy 'n wiskundepos by sy ou skool aanvaar, 'n pos wat hy vir meer as 40 jaar beklee het. Hy was nie alleen 'n knap onderwyser nie maar ook 'n begaafde organiseerder en afrihter.

Nadat hy die Vrystaat vir baie jare lank in tennis en rugby verteenwoordig het, het hy sy kragte veral aan tennis- en atletiekadministrasie gewy. Hy het o.a. die O.V.S. Amateur Atletiekvereniging 20 jaar lank as voorsitter gedien en in daardie hoedanigheid 'n reuse aandeel gehad in die ontwikkeling van die bekende Tussenskoolse Atletiekbyeenkoms of „Inter High.”

Duisende oud-Greys huldig sy nagedagtenis en dink met aangename herinneringe aan wat hy vir hulle op die sportvelde, in die klaskamer en vir 25 jaar lank in die senior koshuis as huisvader beteken het.

mr. cecil kaplan

Every sportsman in the Free State will probably remember Mr. Cecil Kaplan as an outstanding sportsman and the only man who has captained the province in three branches of sport: rugby, cricket and hockey. One doubts whether any other sportsman will have the distinction of having been capped 80 times for the Free State at cricket, 70 times for hockey and 20 times for rugby.

Grey College will also remember him for his loyal support of all sporting activities, especially the annual Past vs. Present cricket match during Founder's Day celebrations. His love for Grey is clearly proved by the fact that he left Grey College R1 000 in his will. This bequest will be used to award an annual bursary on which a final decision will be taken shortly.

In years to come everybody who had the privilege of knowing him will remember "Kappie" as the perfect gentleman who at all times displayed the fine qualities of real sportsmanship: loyalty and kindness.

mr. j. c. de w. rousseau

Vir 13 jaar lank na die Tweede Wêreldoorlog het Suid-Afrika elke Saterdagand om agtuur sy stem oor die radio gehoor wanneer hy en sy mede-riders van die Mielieblaarklub landsprobleme „opgelos” het. Oom Mèrtin was in haas elke huis ’n bekende figuur en sy segswyses het deel van die volkstaal geword.

By Grey-kollege was oom Mèrtin ook bekend, maar ons sal hom as oom Jaap onthou! Ons sal hom met sy bokbaardjie, sy kromsteelpyp en die pet onthou. Ons hoor sy helder lag, ons hoor hom sê: „Poppie, bring jou stert!”

Vir 40 jaar lank het mr. J. C. Rousseau, nee, oom Jaap, ’n unieke plek op die personeel van Grey-kollege beklee. Hy was ’n besielende onderwyser (Afrikaans en Latyn), ’n lojale vriend van oud en jonk maar ook ’n gedugte teenstander as hy ’n saak bepleit het of as die belange van Grey-kollege op die spel was.

In sy jeug was hy ’n knap tennis- en rugbyspeler en skut, en tydens sy onderwysjare ’n geesdriftige rugby- en atletiekafrigter. In laasgenoemde hoedanigheid het hy buitengewone sukses met hekkiesatlete behaal. Die volgende voorbeeld is bewys hiervan: Tydens die S.A. Junior-Atletiekkampioenskappe etlike jare gelede het vyf atlete in ’n hekkiesnommer vir die finaal gekwalifiseer, al vyf seuns wat hy afgerig het.

Grey-kollege treur oor sy heengaan op 6 Julie toe ons ’n lojale vriend en ’n vurige kampvegter verloor het, maar die herinneringe aan Jaap Rousseau sal vir almal wat hom geken het ’n ryke erfenis bly.

mr. jurie w. fourie

Alhoewel daar in die Maart-uitgawe van „Stabilis” reeds hulde aan mr. Jurie Fourie gebring is, wil ons ook deur middel van ons Jaarblad sy familie weereens verseker van ons meegevoel.

Vanaf 1953 was hy een van ons energieke, toegewyde en voorbeeldige personeellede, ’n geesdriftige kultuurmens en sportman wat te alle tye ’n mooi voorbeeld gestel en ’n gesonde invloed uitgeoefen het.

Selfs nou, sewe maande na sy skielike afsterwe, is daar daaglikse dinge wat ons aan hom herinner, en elke keer mis ons hom. Ons dink veral aan sy hulp met ons buitemuurse bedrywighede, die hoë peil wat sy skoolkore bereik het en die toonsetting van ons pragtige skoollied.

Grey-kollege salueer ’n ware heer.

mnr. p. a. venter

Mnr. P. A. Venter was vanaf 1949 tot 1964 sekretaris-kassier van Grey-kollege. Hy was 'n geëerde en bekwame amptenaar wat sy beste kragte aan die skool gewy het. Hy het altyd 'n simpatieke oor gehad vir die koshuispersoneel en die seuns se probleme. Dit het hom 'n besondere plek op die terreinpersoneel besorg.

Ons dink onwillekeurig terug aan die wrede slag wat sy familie getref het toe Retha, sy jongste dogter, 'n aantal jare gelede so onverwags in 'n motorongeluk gesterf het. Verlede jaar het oom Piet ook sy eggenote in 'n motorongeluk verloor. Hierdie slae het hom swaar getref en sy hart 'n knou gegee. Nogtans het sy afsterwe gedurende die Julievakansie vir Grey as 'n skok gekom.

mnr. reg krohn

Mnr. Reg Krohn was nie alleen 'n bekende figuur in die sakewêreld van Bloemfontein nie, maar vir Grey was hy veral die lojale ondersteuner en vurige kampvegter vir die oud-Greys.

As lid van die Reünie-bestuur het hy beïndruk met sy helder denke en besadigde benadering van enige aangelentheid wat die aandag van die bestuur geverg het. Hy was die amptelike verteenwoordiger van die Suid-Transvaalse tak van die Reünie.

Ons het met verontrusting opgemerk dat sy kragte hom stadigaan verlaat het, veral na die groot operasie wat hy verlede jaar ondergaan het. Ten spyte van sy ernstige lyding was hy nooit opstandig nie, maar blymoedig en tevrede — 'n voorbeeld in elke opsig! Met sy afsterwe op 10 November 1971 het hy 'n groot leemte gelaat in sy familiekring en onder die oud-Greys.

hugo harrís

Hugo was verlede jaar nog op skool, 'n fris en gesonde maat wat die agting en respek van elke skolier en onderwyser geniet het. Sy lewe is veral gekenmerk deur sy mooi maniere, hulpvaardigheid en lojaliteit.

Hy was slegs 'n paar dae in die militêre kamp op Tempe toe hy na roetine-liggaamsoefeninge in-mekaargesak en kort daarna gesterf het. Deur middel van die Jaarblad bring ons hulde aan die nagedagtenis van 'n maat en skolier en verseker ons sy familie weereens van ons meegevoel.

oud-greys

old greys

Oud-leerlinge van Grey lewer voortdurend prestasies waarop die skool baie trots is. Ongelukkig hoor ons nie al die nuus by die skool nie en moet ons maar van tyd tot tyd nuusbrokkies uit die twee plaaslike dagblaie kry.

May we appeal to Old Greys and other friends to keep us informed of any achievements and any other news which we could use in our magazine.

Trevor Musgrave is aangestel as bestuurder van Nimrod, die verspreidings- en bemakingsorganisasie van wapens wat in die Republiek vervaardig word.

Hein van der Merwe is aangestel as Suid-Afrikaanse wetenskaplike attaché in London. Op 27-jarige ouderdom was hy seker een van die jongste Suid-Afrikaners wat nog so 'n posisie beklee het.

Richard Morris has won the Free State Open Chess Championship for the fifth time. Why not challenge Bobby Fischer?

Ernst Kuschke is aangestel as Inspekteur van Onderwys in Suidwes-Afrika.

Connie Bukes managed to pass the elementary, intermediate and advanced examinations in ballet in only eleven months. He passed with honours and was accepted by the Royal School of Ballet in London. This is an exceptional achievement.

Laurens v. d. Post is not only a famous author, but he exposed another facet of his versatile personality when he filmed a three-part tribute to the great Swiss psychologist, Carl Gustav Jung. He was also responsible for the whole narration.

Louis Taljaard is in die Hooggeregshof as advokaat toegelaat deur regter J. N. C. de Villiers, ook 'n oud-Grey.

Regter J. N. C. de Villiers wat 'n tydlank waargeneem het as Regter-president van die Vrystaatse Hooggeregshof is aangestel as waarnemende hoofregter van Lesotho.

J. B. S. Franklin has been elected chairman of the Free State and Northern Cape area of the Automobile Association.

Prosser en Frederick Neethling is albei vanjaar in die Hooggeregshof toegelaat as prokureurs.

Joe v. d. Merwe has been appointed sales manager in Bloemfontein of Louis Luyt Breweries Ltd.

Vic Peaning has been appointed managing director of Liberty Electronics (Pty.) Ltd.

John Marquard is gekies as een van die vier S.A. manshokkieurders. Raoul de Villiers is gekies as ondervoorsitter van die S.A. Fietsryfederasie.

Ken Olwage het in Pretoria 'n Pionierverkenningvereniging vir serebraalverlamde kinders gestig. Vir hierdie onbaatsugtige naastediens het hy vanjaar die Junior Sakekamer (Jaycee) se Distinguished Citizen-toekenning ontvang.

Abraham Brink het vanjaar die D.Sc.-graad aan die U.O.V.S. behaal. Hy is tans aan die W.N.N.R. verbonde.

Colin Cilliers has obtained the LL.B. degree and has been appointed lecturer at the U.O.F.S.

Mnr. Rene de Villiers, voormalige redakteur van The Friend en The Star, is aangestel as redakteur van Optima, 'n kwartaallikse tydskrif van die Anglo American-maatskappy.

Albie van Schalkwyk is uitgenooi om aan die konsertfees in Johannesburg deel te neem. Hy is vinnig besig om as pianis naam te maak en het al as solis saam met die Johannesburgse Simfonie-orkes opgetree.

Vier U.V.-studente het vanjaar Roderick-beurse vir sport- en akademiese prestasies ontvang. Die twee wat die akademiese beurse ontvang het, is albei oud-Greys, Hein Ferreira en Guiseppie Vlotman.

Hennie Prinsloo has been elected president of the Free State branch of the National Wool Growers' Association.

Freddie van Aswegen is bevorder tot hoofvoorligtingsbeampste van die Hoëveldstreek.

Corrie van Zyl is aangestel as verkoopsman van Louis Luyt-Brouerye in Bloemfontein en omgewing.

Regter G. P. van Rhyn is aangestel as waarnemende Regter-president van die Noord-Kaaplandse afdeling van die Hooggeregshof.

'n Besondere eer het Steve Strydom te beurt geval toe hy vanjaar as hoof van Grey-Kollege Primêr aangestel is. Ons glo dat hy die verantwoordelike pos met onderskeiding sal beklee.

Talle oud-Greys het vanjaar weer die O.V.S. op sportgebied verteenwoordig:

Tennis — Ewie Cronje, Johan Botha en Nico Brink.

Krieket — Ewie Cronje, Alan Andre, Raymond le Roux, Piet Strydom. Allen van der Merwe.

Rugby — Piet Strydom, Willie Strydom, Koot Steenkamp. Tewie Wessels, Johan Kleingeld, Basie Verster, Jackie Snyman, Hennie van Zyl.

Hokkie — C. D'Oliviera (onderwyser), Peter Harpur, Alan van der Merwe, Jimmy Orchison.

Polo — Joe Mandy.

Sokker — John Lockhart-Barker.

Tafeltennis — Francois Theunissen en Raymond le Roux.

Baie geluk aan die vier Oud-Greys wat gekies is as lede van die Gassele-rugbyspan wat binnekort na Argentinië vertrek. Ons is trots op Jackie en Dawie Snyman, Morné du Plessis en Basie Verster. Het enige skool in Suid-Afrika al ooit vier oud-seuns in een verteenwoordigende span gehad? Het enige skool al ooit twee broers gehad wat hulle land op een toer in dieselfde posisie verteenwoordig?

grey sê totsíens

grey bids farewell

l. t. shepstone

Grey College said goodbye to L.T. Shepstone three years ago when he officially retired, but since then he has taught music at Grey ever since. He will, however, be saying goodbye to the school he cherished at the end of 1972.

Leonard T. Shepstone was a scholar at Grey College from 1920—1923. He then went to London where, for five years, he studied music at the Royal Academy of Music. He spent another five years in London teaching music. During this period he met his wife and they were married. They have two daughters, both married today — one a Latin teacher, the other a music teacher.

Mr. Shepstone came back to Bloemfontein in 1934 and was appointed music teacher at Grey as from 1st January, 1935. Apart from teaching singing in the Primary classes, he also introduced a percussion Band here at Grey. For 22 years he has been examiner for Matric Music as well as for the University of South Africa. He was also examiner in Singing for Native School Teachers. Years ago when men like the late Messrs P. Jooste and D. C. de Bruyn were Inspectors of Schools in the O.F.S., he used to accompany them to schools, acting as the first unofficial Music Inspector in the Province.

For 25 years he was in charge of the Grey Cadet Band.

And now Sheppie (as we all know him) is to leave us, but he will leave behind an image that will linger in the history of our school. We will miss him as the man who took sole responsibility for our annual Prize-giving function — one function that always went off without a hitch because at the helm was a man who could be entrusted with all the arrangements of such a function. Whenever we hear the strains of Auld Lang Syne we see Sheppie in the hall playing this tune for the Matrics.

We will miss this man whose great love and loyalty in life was Grey College. We wish him God speed and all the happiness in the world, because he is a man who richly deserves it.

mnr. f. j. gouws

Mnr. Gouws het in die kort tydjie wat hy sedert January 1970 aan die personeel van Grey verbonde was, bewys dat hy die soort man is wat ons in die onderwys nodig het. Hy is 'n hardwerkende en netjiese mens wat sterk beginsels huldig en 'n positief-Christelike lewe lei. Hy kon dus altyd vir sy leerlinge 'n mooi voorbeeld stel. Sy optrede in die klaskamer was ook sterk en gemotiveerd en sy standaard hoog. Daarby besit hy die gawe om sy vakke, Wiskunde en Rekenkunde, met insig en deeglikheid aan te bied. Ook buite die klaskamer het hy sy plek volgestaan, op die sportveld en in die verenigingslewe.

Baie dankie, mnr. Gouws, vir u bydrae in belang van ons skool en sy seuns. Ook ons hartlike dank aan mev. Gouws vir haar hulp, veral in die C.S.V. Ons wens u alle sukses en geluk toe in u nuwe werkkring op Bethlehem. Witteberg Hoërskool se wins is ons verlies!

extra-mural activities

rugby - eerstespan

Met slegs vier spelers oor moes daar van vooraf span gebou word. Alle verwagtinge is egter oortref danksy die skitterende spel van een van die beste slotpare wat Grey seker in baie jare gehad het. Met die besit van die balle in die lynstane verseker, kon menige aanvalle beplan word. Selfs in die los het hierdie twee spelers (Chris Brink en Theuns Stoffberg) reusewerk verrig. Hulle drieë (Brink 9 en Stoffberg 6) getuig van die menige pragtige lopies wat daar was.

Vir die eerste keer in baie jare beskik die eerstespan egter nie oor 'n betroubare stelskopper nie. Uit 'n rekordtotaal van 516 punte word daar slegs 100 punte met die skoen aangeteken teenoor 10½ drieë. Van hierdie drieë is nie minder as 40 deur die twee vleuels (Awe 22 en Smit 18) behaal nie. Dit onderstreep die soort rugby wat die span deur die jaar gespeel het.

Die sukses van die span wil ek hoofsaaklik aan twee faktore toeskryf. In die eerste plek vir die skitterende spangees wat daar geheers het. Elke speler was gewillig om alles op te offer om sukses te verseker. In die tweede plek was Grey gelukkig dat hy beskik het oor 'n kaptein wat alles uit sy span kon haal. My hartlike dank en gelukwensing aan Chris Brink vir sy skitterende spel en vir die besielende wyse waarop hy as kaptein opgetree het.

Weereens ook my gelukwensing aan die volgende spelers wat die O.V.S.-skolespan gehaal het: J. Smit, J. de Villiers, D. Prinsloo, L. Coetzee, S. Klopper, C. Brink (kaptein), T. Stoffberg, D. de Hart en A. Blake. Die volgende spelers het vir die B-span gespeel: P. Smit en S. de Wet.

My opregte dank ook aan mnr. J. Labuschagne vir sy bystand. Die afgeronde spel van die voorspelers getuig van die goeie afrigting wat hulle van hom ontvang het. Aan mnr. Cronjé en die personeel my opregte dank en waardering vir die belangstelling gedurende die jaar. Aan mnr. C. Marais is ons baie dank verskuldig vir die bekwame wyse waarop hy al die organisasie behartig het.

Vir rekorddoeleindes is die uitslae as volg:

Hoër Landbouskool, Kroonstad		22—20
Jim Fouché		28—0
J.B.M. Hertzog		22—13
Wolmaransstad H.T.S.		25—9
H.T.S. Bloemfontein		37—7
Dr. Viljoen		16—6
Sentrale Hoërskool		22—6
Queens College, Queenstown		10—12
Gobabis Hoërskool		28—15
Ermelo Hoërskool		32—4
Jan van Riebeeck, Kaapstad		39—12
Umtali Boys' High		24—13
Churchill High, Salisbury		24—6

Chaplin High, Gwelo		54—0
Gifford High, Bulawayo		30—15
Grey High Port Elizabeth		19—9
Afrikaans Hoër, Pretoria		25—12
H. F. Verwoerd, Pretoria		39—8
Diamantveld Hoër, Kimberley		21—13
Gemiddelde telling per wedstryd		27—9

My beste wense vergesel die elf spelers wat ons vanjaar verlaat. Ons sal julle vordering met belangstelling volg.

S. Steenkamp.

rugby - stad

Vanjaar was seker 'n besondere jaar vir die Stadspanne en veral die A-span.

Stad-A het vanjaar, deur Koshuis te klop, uitgedraf as Grey-kollege se derde span.

Die gees en gesindheid van die spelers onder leiding van bekwame kapteins, eers Louis Klopper en toe Izan Leibrandt, het sekerlik die grondslag vir die span se welslae gelê. Baie dankie vir die goeie gesindheid en toewyding.

'n Geslaagde Stad-Koshuis-toer is ook na die Noordoos-Kaapprovinsie onderneem.

Daar is altesaam 14 wedstryde gespeel en net 2 is verloor. Stad-A het 380 punte aangeteken, teenoor die 41 teen hulle. 'n Wedstrydgemiddeld van 27—3.

Stad-B speel 9 wedstryde waarvan 5 gewen is en 4 verloor. Hierdie span het veral in die laaste helfte van die seisoen goeie rugby gespeel.

Mnre. T. Jordaan, N. Oosthuizen en J. Cruywagen sê dankie vir die goeie gesindheid van die spelers.

rugby - koshuís

Koshuis B span speel 15 wedstryde en bly die hele jaar onoorwonne. Hulle het aantreklike rugby gespeel en die gees was altyd uitstekend. Dit was veral die gees wat hulle onoorwonne laat bly het.

Koshuis A het ook 15 wedstryde gespeel en 3 verloor. Speel twee keer teen Stad en wen een, verloor een. Die A-span gaan saam met die Stad A-span op 'n toer deur die Noordoos-Kaap. Dit was 'n baie geslaagde toer en twee sterk spanne is saamgestel vir die toer. Die wedstryde op toer sal lank onthou word, veral die een teen die skoppende Ugie — eerstespan.

Die afrigters mnre. N. Humphreys en B. Cronje bedank alle spelers vir hulle goeie gesindheid deur die jaar.

shooting 1972

During this year a large number of boys took part in shooting and keen interest was shown. It is a pity that the final teams consist of only four Juniors and four Seniors. Sincere thanks are due to all shottists who practised faithfully, in spite of the fact that they were not in either of the teams.

The shooting instructors rendered invaluable service and we could not handle the large number of shottists without their help. We thank them for doing their duties faithfully.

In the matches against other schools, our teams succeeded in beating the teams from Pretoria Seuns Hoërskool as well as H. F. Verwoerd High School (Pretoria).

The highlight of the year was the O.F.S. Command competition for shottists from O.F.S. schools, held at the Hamilton Range during the September holiday. Our Seniors did very well in that they tied with Theunissen High School's seniors. In the shoot-out for the cup, our seniors, T. Dannhauser, K. Rossouw, W. van Heerden and P. Schoeman, beat Theunissen in the rapid which was fired over again, and won the cup. This cup was last won by Grey in 1960, so this year's effort was quite an achievement.

Two shottists, W. van Heerden (senior) and H. Cilliers (Junior) were chosen to represent the O.F.S. in the inter-provincial schools' competition.

rugby - tweede span

Onder die uitstekende kapteinskap van Johan Theron het die „Cherries” vanjaar hul onoorwonne rekord gehandhaaf en ook hulle tradisionele hardlooprugby tot sy volle reg laat kom. Kenmerkend vanjaar was die goeie teenstand wat hulle die eerste-span in die oefeninge gebied het en veral die wyse waarop hulle tweedefase-rugby toegepas het. Die krag van die span blyk ook uit die feit dat meer as die helfte een of ander tyd vir die eerstespan uitgedraf het en baie goed ingepas het. Baie van hulle behoort ook aanstaande jaar staatmakers in die eerstespan te wees.

Uitslae:

Grey vs. Hoër Landbou Kroonstad, wen	32—12
„ „ Dr. Viljoen, wen.....	65— 0
„ „ Sentraal, wen	23— 0
„ „ Weston Landboukool 1e span, wen	19— 3

„ „ Jim Fouché, wen	14— 3
„ „ Afrikaans Hoër Pretoria, wen	19— 3
„ „ H. F. Verwoerd Pretoria gelykop	13—13

atletiek

Die belangstelling in atletiek was vanjaar heelwat groter as voorheen en as dit so bly kan Grey weer die hoogtes van die verlede bereik.

Ons het aan verskeie byeenkomste deelgeneem waar die atlete besonder goed gevaar het. Na die Bloemfontein kampioenskappe is 18 van ons atlete vir die Bloemfonteinspan gekies wat in 'n byeenkoms teen Noord O.V.S. deelgeneem het. By die Inter-Hoër het ons atlete ook goed gevaar en het manne soos Toet Smit (o/19 verspring), Dolf Awe (o/19 hoogspring), Zane Oberholzer (o/19 spiesgooi), Anton Klopper (o/13 verspring) e.a. plekke behaal terwyl Dick Coetzee die o/15 paalspring gewen het. Die o/15 aflos het ook 'n eerste plek behaal. Ons het wel geen bekere gewen nie maar veral die onder vyftiens het besonder goed presteer. Zane Oberholzer is ook gekies om vir die O.V.S. teen die S.A. Weermag deel te neem.

My dank aan al die afrigters wat soveel tyd opgeoffer het om af te rig, saam met die span te reis en alles so aangenaam te maak. Ons hoop om in die jare wat kom weer die rooilroeke aan die voorspunt te sien.

J.F.L.

cricket

Nuffield Week, January 1972:

Our congratulations to the following Grey boys who represented the O.F.S. at the Nuffield Tournament: J. Cronjé, I. Ferreira, L. Coetzee, J. Smit and Kepler Wessels.

First XI:

After a few good first team players of last year left, the first team at the beginning of this year had to be re-built. There were no fewer than five boys in standard 7 or 8 and for the last match against Saints seven boys were not in standard 9 yet.

Seven matches were played during the first half of the season. We were hosts to Queens and St. Andrews and both matches proved to be very enjoyable. The match against Queens especially could have gone either way. Five enjoyable trips to Potchefstroom Springs, Johannesburg (twice) and Welkom were made, where the Grey side drew all the matches except against the strong St. John's side where we lost by 85 runs.

Our annual Inter-School match against St. Andrews was postponed to two week days because of rain. Deciding to bat first Grey declared their innings at 191 for 9. Some bright batting was seen from Kepler Wessels and Darryl le Roux. St. Andrews batted with much confidence and although slow, managed to score 100 for 4 at the end of the second afternoon. The bowling of Toet Smit

(12/165) in three matches) was sadly missed in the last four matches.

During the September holidays the first team went on a very enjoyable Nuffield-trial week to Welkom. Although the competition was not always good, the boys realised that you can never underestimate any team! During this week Len Coetzee, Kepler Wessels and Toet Smit were outstanding. Wessels was awarded the bat for the best batsman during the week, while Toet Smit received the same award as the best bowler. His 9/10 against Welkom High was the best bowling performance by a Grey boy for many many years. Len Coetzee and Kepler Wessels both made centuries for the Combined XI they were picked for at the end of the week.

Arriving back at school there was an immediate improvement in the play of the team. They outplayed Athlone from Johannesburg, with Kepler Wessels hitting a magnificent century. They also beat a fairly strong Past XI (Details of the Past vs. Present match in the Old Greys News).

The second clash between Grey and Saints was easily won by Grey by 7 wickets.

Many thanks to all masters who sacrificed valuable time for the improvement of cricket at Grey. The cricketers do really appreciate their keen endeavours in the interest of this great game. We also wish to thank Carl Smith who so willingly scored for the first team and also played one game at Welkom when Carl von Schlicht became ill.

A professional coach, Mike Buss (Sussex) has just arrived in Bloemfontein and we can be sure that cricket at Grey will only benefit.

We are grateful to the parents and old Greys for their interest shown in the game. Our headmaster, Mr. Cronjé, always gave the boys the necessary inspiration and to him we owe many thanks.

W. T. Strydom.

Summary of Matches:

vs. Potchefstroom Boys High at Potchefstroom on 29/1/1972:

Potchefstroom: 149 all out (Len Coetzee 3/26, Toet Smit 3/50, Kepler Wessels 2/35).

Grey: 99 for 5 (Len Coetzee 50).

Result: Match drawn.

vs. Springs Boys High at Springs on 5/2/1972:

Grey: 211 for 8 declared. (Kepler Wessels 94, Len Coetzee 45, Kenneth Fischer 24).

Springs: 162 for 6 (Toet Smit 5/50).

Result: Match drawn.

vs. Queens College at Grey on 12/2/1972:

Grey: 164 all out (Louis Klopper 57, Kepler Wessels 41, Len Coetzee 23).

Queens: 155 for 8 (Von Schlicht 3/21, Toet Smit 4/65).

Result: Match drawn.

vs. St. John's College at St. John's on 19/2/1972:

St. John's: 227/4 declared (Louis Klopper 2/47).

Grey: 140 all out. (Kepler Wessels 80, Stefan Klopper 22).

Result: Grey lost by 85 runs.

vs. St. Andrews at Grey on 1/2 March, 1972:

Grey: 191 for 9 declared. (Kepler Wessels 45, Darryl le Roux 40 n.o., Philip Jacobs 32).

St. Andrews: 100 for 4 (Louis Klopper 2/22).

Result: Match drawn.

vs. Roosevelt Park at Roosevelt on 4/3/1972:

Roosevelt Park: 197 all out (Carl von Schlicht 5/47, Len Coetzee 3/54).

Grey: 57 for 8 (Kenneth Fischer 12).

Result: Match drawn.

vs. Welkom at Welkom on 11/3/1972:

Grey: 170 all out (Kepler Wessels 48, Philip Jacobs 27, Len Coetzee 26, Theo Opperman 24).

Welkom High: 131 for 6 (Len Coetzee 3/27, Louis Klopper 2/37).

Result: Match drawn.

vs. Bloemfontein Combined XI at Welkom on 25/9/1972:

Grey: 176 for 5 declared. (Len Coetzee 62, Kepler Wessels 41, Theo Opperman 22 n.o.)

Bloemfontein: 23 all out (Toet Smit 7/14, Len Coetzee 2/4).

Result: Grey won by 153 runs.

vs. Goldfield Country Districts XI at Welkom on 26/9/1972:

Grey: 194 for 4 declared. (Kepler Wessels 64 n.o., Stefan Klopper 56, Louis Klopper 38).

Goldfields C.D. XI: 45 all out (Len Coetzee 5/11, Toet Smit 5/33).

Result: Grey won by 149 runs.

vs. Goldfields Combined XI at Welkom on 27/9/1972:

Goldfields Combined XI: 5 all out (Len Coetzee 5/1, Toet Smit 5/4).

Grey: 10 for 0.

Result: Grey won by 10 wickets.

vs. St. Andrews at Welkom on 28/9/1972:

Grey: 137 all out (Kepler Wessels 52, Len Coetzee 32).

Saints: 138 for 5 (Toet Smit 2/54).

Result: Grey lost by 5 wickets.

vs. Welkom High at Welkom on 29/9/1972:

Grey: 225 for 7 declared. (Kepler Wessels 64 n.o., Stefan Klopper 63, Louis Klopper 42).

Welkom High: 34 all out (Toet Smit 9/10).
Result: Grey won by 191 runs.

vs. Athlone (Johannesburg) at Grey on 7/10/1972:

Grey: 219 for 6 declared. (Kepler Wessels 105 n.o.
Len Coetzee 41, Darryl le Roux 31).
Athlone: 106 all out. (Toet Smit 4/38, Theo Opperman 2/4).
Result: Grey won by 113 runs.

vs. Past at Grey 13/10/1972:

Past: 118 all out (Len Coetzee 4/26, Toet Smit 4/41,
Louis Klopp 2/35).
Grey: 127 for 6 (Kepler Wessels 37, Stefan Kloppe 25).
Result: Present won by 4 wickets.

vs. St. Andrews at Saints on 21/10/1972:

St. Andrews: 101 all out. (Louis Kloppe 3/32, Theo Opperman 2/12, Len Coetzee 2/26).
Grey 104 for 3. (Len Coetzee 60, Kepler Wessels 32 not out).
Result: Grey won by 7 wickets.

rugby onder 14

Die onder veertiens van vanjaar het nooit werklik aan die hoë verwagtinge, wat daar van hulle geoëster is, voldoen nie en gevolglik was die seisoen nie so suksesvol nie. (3 uit elf wedstryde is verloor). Dit is egter nie net die drie verlore wedstryde wat so teleurstellend was nie, maar veel eerder die soort rugby wat vanjaar gespeel is. 'n Span met so baie potensiaal moes beslis beter vertoon het. Een van die redes waarom daar gesukkel is kan wees dat daar gedurig skakelprobleme was en gevolglik het die twee sterk senters nooit tot hul reg gekom nie.

Daar was vanjaar gereël vir spanne en die offering wat spelers gemaak het was nooit te groot nie — selfs in die Julievakansie is geoëfen — met die gevolg dat ons dan ook soms uitstekende rugby van al die spanne gesien het. Die A-span het vanjaar 196 punte in 11 wedstryde aangeteken, terwyl 58 punte teen hulle behaal is. Die twee puik senters, David Strauss en Marius Ferry het nie minder nie as 11 van die 34 drieë vanjaar gedruk. Frikkie Bruwer was 'n baie bruikbare heeler en het met 68 punte die seisoen afgesluit.

Waar die onder veertiens oor 'n paar jaar die senior spanne moet aanvul, kan ons net hoop en vertrou dat hulle alles in hul vermoë sal doen om Grey se rugby op die kruin van die golf te hou. Afrigtingswerk is vanjaar gedoen deur mnre. N. du Plessis, W. Strydom en E. Schoeman.

Uitslae (Grey eerste genoem:)

J.B.M. Hertzog Hoërskool	..	..	..	20—4
Hoër Landbouskool, Kroonstad	..	..	..	13—6
Sand du Plessis	..	..	..	18—0
Hoër Tegniese Skool, Bloemfontein	..	..	..	22—0
Jim Fouché Hoërskool	..	..	..	34—4
Queens	..	..	..	6—0
Dr. Viljoen	..	..	..	36—10
Sentraal	..	..	..	3—10
Afrikaans Hoër, Pretoria	..	..	..	6—11
H.F. Verwoerd Hoërskool	..	..	..	29—0
Diamantveld Hoërskool	..	..	..	3—10

onder 16 - rugby

Dit is weereens bewys dat Grey se beleid, om onder 16-rugbyspelers nie by onder negentiens in te skakel nie, 'n groot sukses is. Hierdie „seniors van more” ontwikkel 'n spelpatroon wat nie alleen maklik inskakel by ons eerste- en tweedespanne nie, maar wat aanskoulike en regte „Grey-rugby” tot gevolg het.

Die onder 16 A-span het vanjaar met verskeie onder 19-A spanne afgereken soos St. Andrews, en Marquard. So het hulle dan alle ander onder 16 A-spanne teen wie hulle kragte gemeet het, gewen, soos Sentraal, Diamantveld Kimberley, Afrikaans Hoër, Pretoria, en andere. Dit was slegs die tweede onder 19 span van Jim Fouché wat hierdie span vanjaar kon klop. Hierdie span het dus 12 van die 13 wedstryde vanjaar gewen en daar is slegs 88 punte teen hulle aangeteken; hulle gemiddelde telling per wedstryd was 28—7.

'n Besondere kenmerk van die span was die samestel van die voorspelers. Hier het die kaptein, F. Viljoen, 'n baie waardevolle rol gespeel. As ons in aanmerking neem dat spelers soos J. Geldenhuys, Paul Jacobsz, Phillip Jacobs slegs in St. 8 is, behoort

hulle nog vorentoe lekker rugby te speel.

Die agterlyn het besonder goed hanteer en dit is dus te verstane dat hulle 95% van die totale aantal drieë gedruk het. Hier kan ons nie anders as om die naam van Gerhard Weitz te noem nie, wat met elke wedstryd verbeter het.

Die onder 16 B-span het vanjaar as Grey se agste span gespeel. Die meeste van hulle wedstryde het hulle teen onder 19-spanne meegeding. As ons die span sal onthou sal dit wees vir die manmoed wat weerspieël was in hulle klein kaptein, Carel Smith, wat sy span, nege uit die twaalf wedstryde tot oorwinning kon lei, en dit teen fisies groter en sterker spanne.

Die onder 16 C- en D-spanne het saam ongeveer 12 wedstryde gespeel. Die belangstelling het dwarsdeur die jaar by hulle behoue gebly. Afrigtingswerk is vanjaar gedoen deur mnre. A. Ebersohn, J. Snyman, F. Gouws en H. van der Linde.

onder 15 - rugby

Beslis die suksesvolste seisoen in baie jare! Die A-span is onoorwonne in twaalf wedstryde en teken 349 punte aan met 45 punte teen hulle, en 71 drieë is gedruk. Hierdie mooi uitslae kon nooit bereik word nie, as elke man nie so toegewyd was aan hierdie wonderlike spel nie. Hiervoor, en vir die lekker gesindheid en mooi ondernemingsgees by die rugby sê ons baie dankie. 'n Span wat bereid is om te leer en dit te probeer wat hy geleer het, moet sukses behaal.

Die B-span het regtig pragrugby gespeel en in 12 wedstryde 276 punte aangeteken teenoor 28. Slegs twee wedstryde teen A-spanne is verloor. Die sukses van 'n A-span hang baie af van die teenstand wat hulle van die B-span kry en hierin het julle dan ook goed geslaag.

Die C, D en E-spanne moes meesal teen sterker spanne speel en tog is goeie rugby gespeel en het die manne hulle goed van hul taak gekwyd, veral die D-span, wat onoorwonne was in 10 wedstryde.

Aan manre Gray Peyper, Steyn en Ross ons hartlike dankvir die groot werk wat hulle as afrigters gedoen het. Aan elke speler sê ons dankie vir julle lekker gesindheid en getroue bywoning van oefeninge. Ons saam met belangstelling julle verdere rugbyloopbane volg.

tennis

Soos in die verlede het die Grey-seuns weer vanjaar aktief aan tennis deelgeneem. Met vier nuwe bane en 'n tennismuur wat in gebruik geneem is, kan die spelers ook beter geriewe benut.

Aan die einde van verlede jaar het Grey twee spanne na die Appletiser-kampioenskappe op Stellenbosch gestuur. Dié twee spanne is onderskeidelik as die tweede en vyfde beste spanne op die toernooi aangewys. Geluk julle; J. Potgieter, K. Wessels, T. Edeling en A. Schlebusch.

In die skole-ligawedstryde wat in Bloemfontein gespeel is, het Grey die meeste van die wedstryde gewen en slegs enkele verloor.

Die tussenskoolse byeenkoms tussen Grey en Afrikaans-Hoër was vanjaar weer baie aangenaam. Grey het vanjaar die bo 15 afdeling gewen, terwyl die onder 15's deur Affies geklop is.

Vier Grey-seuns het ook vanjaar in die Bloemfonteinse skolespan teen Noord-Vrystaat gespeel. A. Ross, H. Symington, J. Potgieter en K. Wessels het nie een wedstryd verloor nie. Baie geluk!

Die Vrystaatse Juniorkampioenskappe het vanjaar baie goeie spelers getrek. Afgesien van die strawwe

kompetisie het baie Grey-seuns deurgedring tot in die finale ronde. T. Edeling en sy maat het daarin geslaag om die dubbelspeltitel in te palm.

Die Vrystaatse-skolespan het ook vanjaar twee van Grey se spelers ingesluit; H. Symington en A. Ross. Baie geluk!

Ek wil ook van dié geleentheid gebruik maak om alle spelers te bedank vir die gawe gees waarin hulle gedurende die jaar aan wedstryde deelgeneem het. Die welwillendheid van die Grey-seuns was nog altyd 'n kenmerkende eienskap op alle sportvelde. Ook aan al die onderwysers wat vanjaar gehelp het met tennis — baie dankie vir u onbaatsugtige diens!

hockey

As usual we had 10 teams in the league, half of all the schoolboy hockey-players in town **U15**. They started as beginners this year on the whole and as a result we struggled. However in players like C. de Bruin, N. L. Nussey and L. Griessel, who is only in Std. 5, there is much talent. Our Thanks to Messrs Arndt and Volsteedt for their whole-hearted efforts.

3rd, 4th and 5th: Coached by Mr. Venter, who did his usual good job in keeping their enthusiasm at a high pitch. The best result of these teams was the 4—1 defeat of Queens by the 3rd team, one of the biggest defeats we have inflicted on Queens for many years.

2nds: They played in the first league as usual and acquitted themselves well, beating CBC 1st team 1—0 and drawing with Brebner 1st team 2—2, and losing narrowly (2—1) to St. Andrews 1st in the first round. Players who did yeoman service were R. Luckett, A. Lomborg and D. Carlson.

1sts: Not a successful season as far as results were concerned — played 24, won 8, drew 3, lost 13 — but very valuable as far as experience was concerned. We scored 40 goals to the 25 of our opponents, and our opponents this year, for the first year in the

history of Grey hockey, were nothing but the very best from each province (eg. Grey High, Queens College, Churchill High, Rhodesia; Jeppe Boys High, Johannesburg). of the 13 losses 10 were by the odd goal, and in fact, three of the losses, Grey High 1—0, Churchill High 3—2 and Jeppe High 3—1 were the highlights of the year. We had a very enjoyable tour to Rhodesia, where schoolboy hockey is of a higher standard than in South Africa, winning 2 and losing 5 of our games. More notable among our successes were the 4—0 defeat of St. Andrews in the second round, the 2—0 defeat of Welkom High, and the 6—0 defeat of Brebner.

We were unfortunate in having only one boy, Martin de Bruin, in the O.F.S. Schools side, but others who came close and served the team well

throughout the season were Neil Goodwin, 'Mossie' Donald, the captain and Gerald Boting. Martin is to be congratulated on the signal honour of being chosen for the S.A. Schools side to tour Rhodesia. As manager, Mr. D'Oliveira reports that he acquitted himself well. Well done, Martin!

Finally thanks to the first team for giving Mr. D'Oliveira the support they did this season and never losing heart in spite of their defeats.

gholf

Alhoewel gholf nie 'n sportsoort is wat aktief op Grey beoefen word nie, heers daar besondere belangstelling by beide seuns en onderwysers.

Grey het in die tweede kwartaal 'n kompetisie gereël en dan ook in die derde kwartaal, die jaarlikse gholfkampioenskap. Beide byeenkomste is ingepalm deur Bruce Muir (voorgee van 3). Bruce Muir en Neil Goodwin is dan ook ingesluit in die Junior O.V.S.- gholfspan.

Ons kan hier ook die name noem van Andries Havenga en Trevor Wasserman wat besondere goeie gholf speel en indien hulle so toegewyd bly, hulle gholf tot groot hoogtes kan uitbou.

As ons na die toekoms kyk, behoort Grey binne die volgende jaar of wat nog 'n Vrystaat-speler op te lewer, naamlik Ian Palmer. Hy het reeds 'n brutotelling van 79 behaal en is vanjaar nog in St. 7.

Ons wil namens Grey die Schoemansparkse gholfklub baie bedank dat hulle ook vanjaar ingewillig het om Grey te huisves wanneer ons kompetisies wou aanbied.

Die jaar is afgesluit deur 'n kompetisie te hou tussen die personeel en St. 10-leerlinge. Gelukkig kon die meer ervare leermeesters eerste eindig.

Aangesien ons hoof en adjunk-hoof, Mne. Cronjé en Ferreira ook in die tweede helfte van die jaar vir hulle gholfstokke gekoop het, hou dit baie belofte in dat gholf nog lank by Grey sal leef.

Their best match was played at Queenstown. Grey batted first and was soon in trouble with the score at 33 for 4. Then Toet Marais and André van der Merwe had a face-saving partnership and were only parted with the score at 105. The tail wagged for a while and Grey was dismissed for 139. Queens started off well, but was soon in trouble against tight bowling and spirited fielding. When their last wicket fell, Queens had scored 134 runs and so Grey won a fantastic match by 5 runs.

Another magnificent feat was their score of 300 for 8 declared against Roosevelt Park. They won this match by 193 runs, and also beat St. John's by 69 runs, Potch Boys' High by 70 runs, Springs Boys' High by 190 runs and Welkom High by 69 runs. They drew against Saints in an afternoon game, scoring 128 for 2 and having Saints at 48 for 8 at the close.

I would like to thank the captain, Ian Palmer (he scored two centuries and his captaincy improved with every match), the vice captain, Colin de Bruyn and all the other team members for the unselfish way in which they played for Grey and for making it a memorable season for all concerned. If they keep in mind that "cricket is not merely a game, but a way of life," their own efforts on the cricket field will be rewarded.

The B, C, D, and Cake League teams ably coached by Messrs. D'Oliveira, Lochart-Barker, Emslie and Van der Walt also had a most enjoyable season and gave a good account of themselves against teams from other schools.

onder 13-rugby

Die onder 13-span het hierdie jaar 'n besonder suksesvolle seisoen agter die rug. Al elf hulle wedstryde het hulle gewen en 'n totaal van 199 punte aangeteken. Slegs 22 punte is teen hulle aangeteken. Dit was mooi om te sien met watter erns die spelers die spel benader, en hulle sukses kan dan ook groten-deels hieraan toegeskryf word. Ons dank aan Wouter Klopper vir sy goeie leierskap, asook Anton Klopper wat later die seisoen by hom oorgeneem het.

Van baie van hierdie jongspan kan daar nog baie verwag word in die toekoms. Vincent Hewetson was hierdie jaar die puntemasjien en het nie minder as 17 drieë vir sy span op die vleuel aangeteken nie.

under 15 cricket

After either winning or drawing all their matches during the fourth term of 1971, the A team lost most of its stars to senior sides and had to start from scratch during the first term of 1972.

They played against very strong opposition, but their wonderful team spirit and the will to win, saw them through the season undefeated, winning six matches and drawing one. They scored a total of 1 222 runs in 7 matches, while their opponents scored 544.

soccer

Despite the fact that there is limited competition in schools soccer in Bloemfontein, soccer is flourishing at Grey. We are proud to say that there were about 120 boys in the senior school turning out regularly in the different leagues. It is true to say of soccer, as it is true of many other sports activities, that it is Grey College which keeps soccer alive in Bloemfontein.

Under 14:

One side was entered in the A league, and 2 in the B league.

In the A league the A side never lost a game and they scored 32 goals to 4 goals against them. Eight players represented Southern O.F.S. during the season, namely, Stocks, Smith, Hauser, Theron, Julius, Swart, Darlington and Sofianos (captain).

The B side never lost a game in the B league and won this league with a tally of 41 goals for and 3 against. The C team did particularly well for a C team, scoring 15 goals and conceding 11.

Under 16:

Here the record is not as good, but the competition in these leagues was stronger than it has been for many years. It is true to say, however, that there was tremendous enthusiasm for soccer among under 16 players: this is especially true of the B, C, and D team players who really tried hard throughout the season.

Five boys were selected to represent Southern O.F.S. in the annual under 16 inter-provincial tournament. They were: Harris, Le Roux, Barnard, Guess and Fletcher (captain).

Under 18:

Despite the fact that our under 18 A-side did not qualify for the national high schools tournament sponsored by Pro-Nutro, this team had a very good season, winning not only the under 18 league, but also the Murray and Woolff cups.

The B-team managed to win the B league knockout trophy while the C-team — those boys who could not practice regularly — also acquitted themselves well of their task.

Thanks go to Messrs. Sabbagha Emslie, Humphreys, Lockhart-Barker, and old Grey Harry Demetriades, for their able assistance during the year.

„stabilis”

„Stabilis”, ons skoolkoerant, het 'n wye trefwydte. Naastenby 3 000 eksemplare word gedruk en versprei, ook onder die Oud-Greys, om hulle in voeling met die gebeure op Grey te hou. Dit is dus verstaanbaar dat daar gepoog word om elke uitgawe aan 'n hoë standaard te laat voldoen.

Die redaksie, wat slegs uit leerlinge bestaan met die bystand van onderwysers, was aan die begin onervare, maar algaande het hulle gekonfyt geraak sodat die hoë standaard van die verlede gehandhaaf is.

Wanneer „Stabilis” aan die einde van elke kwartaal verskyn, word 'n oorsigtelike beeld van alle skoolbedrywighede gedurende die betrokke kwartaal gegee. Vanjaar se sportredaksie was verantwoordelik vir berigte van hoë gehalte, wat die onvermydelike „ou” nuus interessant aangebied het. Deur meningsopnames is daar ook probeer om die sportbladsye kleur te gee, soos bv. 'n onderhoud met Colin Bland, die nuwe sportafrichter.

Dieselfde geld vir die sosiale en kulturele nuus, waar veral die kwartaallikse dans 'n bron van nuus was — ook vir „Schneiders se Snuffels!” In „Onder die Mikroskoop” is sake van aktuele belang knap onder die soeklig gebring en was dit een van die hoogtepunte in elke uitgawe. 'n Onderhoud wat met die hoofseuns van Grey en Sentraal, asook die hoofmeisies van Oranje en Eunice gevoer is, het vir interessante leesstof gesorg. Daar is egter ook vir afwisseling voorsiening gemaak deur 'n „Horror Scope”, „Sandman Advices”, „Schneiders se Snuffels” en ander pittige berigte.

Stabilis vergelyk reeds goed met selfs universiteitskoerante en indien die redaksie steeds daarna strewende om die standaard te verhoog, sal dit sy koste regs verdig en van groot betekenis vir Grey wees. Ondank aan die onderwysers wat die leerlinge aanmoedig en ook bystand en hulp aan die redaksie verleen.

chess

The chess club can look back on a very successful season. This was the first year in which, thanks to the initiative taken by the Bloemfontein chess club, a Bloemfontein schools' chess league was started. We entered two teams and our A team won the league, whilst the B team ended well ahead of several schools' A teams. Two of the A team players, N. Haasbroek and W. Venter were also awarded individual prizes for not having lost a game throughout the tournament.

A „blitz” afternoon arranged in the library drew 48 entrants and within 1½ hours Richard Schurr emerged as the „blitz” champion. A beautiful trophy was awarded to our chess club by the father of the late Ben Claassen — a brilliant chess player in his days. It was decided to award it to the Grey College chess champion and we would like to congratulate Richard Schurr on being the first to win this fine trophy.

Our encounters against Afrikaans Hoër and H.F. Verwoerd from Pretoria met with less success and we went down 7—13 and 4—6 respectively.

We have entered a strong team for the O.F.S. Schools' championship to be played during the September holidays and we wish them the very best of luck.

die krause - biblioteek

In 'n skool word leerlinge deeglik voorberei om hul plek volwaardig in die lewe vol te staan — maar sonder die samewerking van die skoolbiblioteek kan hierdie doelwit nie bereik word nie. Daarom kan met reg getuig word dat ons skoolbiblioteek weer eens 'n baie bedrywige jaar agter die rug het, waarin ons aktief deelgeneem het in die skoolprogram en daarna gestreef het om in die behoeftes van leerlinge en onderwysers te voorsien.

Die belangrikste funksie van 'n skoolbiblioteek bly nog die integrering daarvan in die opvoedingsprogram. Ons skoolbiblioteek het alreeds goed integreer as daar opgemerk word dat gedurende hierdie jaar alreeds 18 take in verskillende vakke in ongeveer 40 klasse uitgewerk is. Dit is sekerlik vir leerlinge 'n groot ondervinding om eerder self te soek vir belangrike feite oor sekere aspekte in die leerplan. Ons skoolbiblioteek is nie net meer 'n leessentrum nie, maar ook 'n studie- en inligtingsentrum.

Daar word gemiddeld elke maand ongeveer 1 500 boeke deur leerlinge uitgeneem en 580 van ons leerlinge is aktiewe lede van die skoolbiblioteek. Die biblioteekvoorraad staan nou op ongeveer 11 000 boeke, 40 plate en 'n hele aantal transparante in verskillende vakke.

Die Provinsialebiblioteekdiens kan met reg gedank word vir hul dienste en samewerking. Ons skoolbiblioteek is weer eens hierdie jaar gebruik vir 'n kursus in skoolbiblioteekkunde en al die kursusgangers was besonder beïndruk met ons goed ingerigte biblioteek. Ons is met reg trots daarop.

Our sincere thanks to Mr. P. J. Ferreira, our deputy principal for the untiring interest he has taken as far as the library is concerned. Had it not been for his co-operation we would not already have achieved such success.

In order to make the library function properly it is necessary to make use of library prefects. Our thanks to these pupils who always go about their task and perform it in their own quiet way.

In die geheel gesien, is ons skoolbiblioteek die faset van die skool waarop onderwysers en leerlinge trots kan wees.

ons kunsklub

Waar die Kunsklub reeds in die verlede aan Grey-kollege Hoër bestaan het, het dit tog vanjaar 'n nuwe gedaante aangeneem! In die verlede is daar hoofsaaklik net werk bespreek wat tuis deur die studente gedoen is. Van vanjaar af is die skeppende werk gedurende ons klubbyeenkomste by die skool self gedoen.

Ons oogmerk, behalwe om skeppende werk te doen, was om die leerlinge ook bekend te stel aan verskillende media en die hantering daarvan. So is daar behalwe gipspanele wat gemaak is, ook gewerk met kitskeramiek, batik, ens.

Die klub het ook onderneem om die borsstukke te maak om die Springboktruie van Oud-Greys in die Reünie-saal oor te monteer. Ons hoop om volgende jaar met meer media te werk, asook om meer aandag aan skilderwerk te kan bestee en om nog van die leerlinge wat op die waglys is ook by ons klub te kan betrek.

voortrekkers

Grey-kollege se Voortrekkers kan aan die einde van hierdie jaar terugkyk op 'n suksesvolle tydperk. Behalwe vir die nypende tekort aan offisiere en belangstellende ouers, het ons 'n andersins voorspoedige jaar belewe.

Behalwe vir georganiseerde byeenkomste waar ons saamgewerk het met die Voortrekkerbeweging in die wyere verband (bv. die C. R. de Wet-huldigingsfees) het ons as kommando ook baie suksesvolle ondernemings gehad. Op 31 Mei het ons 'n geslaagde inlywingsfunksie by Maselspoort gehou, asook 'n paar baie aangename kampe. Veral ons kommandokamp aan die begin van September was 'n groot sukses.

Daar was ook 'n paar suksesvolle geleenthede waartydens ons fondse vir ons kommando ingesamel het. Ons wil ook graag langs hierdie weg almal bedank vir hulle onderskeie bydraes.

Ons hoop dat ons in die nuwe jaar meer hulp van belangstellende ouers sal kry, asook van mense wat hulle dienste sal aanbied as offisiere, sodat ons ons kommando verder kan uitbou en tot nuwe hoogtes kan voer.

musiek op grey-kollege sekondêr

"The true purpose of education is to cherish the seed of immortality already sown within us — to develop to their fullest extent the capabilities with which God, who made us, has endowed us."

Bogenoemde is tog so waar in alle vertakkinge van onderrig, wat vir die kind aangebied word. 'n Besondere voorreg is dit vir die gewone begenadigde mens met hierdie besondere roeping om die kennis te kan oordra aan die lewende klei wat in sy hand gegee is.

Op Grey-kollege is dit veral 'n besondere voorreg om aan seuns musiekonderrig te kan gee. Seuns wat dit regtig doen met al die liefde van hulle harte. Hierdie seuns is nie alleen vol geesdrif vir die vak nie, maar hulle probeer om hulle beste te lewer. As daar van hulle samewerking verwag word, word dit bereidwillig gegee.

John Wessels — Rugby — 1965
 Johan Spies — Rugby — 1970
 Morné du Plessis — Rugby — 1971
 Dawie Snyman — Rugby — 1971
 Gert Cilliers (onderwyser) — Rugby — 1963
 Jurie Fourie (onderwyser) — Skiet — 1956
 Gerhardt Schmidt — Atletiek — 1950
 Strydom Smit — Atletiek — 1950
 John Irving — Skiet — 1952

Grey het egter al baie meer beroemde sportmanne opgelewer en sou graag die volgende persone ook op paslike wyse in die glaskaste wil vereer: J. Bramley — Skiet 1938; T. Musgrave — Skiet 1956; B. Musgrave Skiet 1958; G. Bramley — Skiet 1970; J. Pellissier — Skiet 1954; C. G. F. Richter — Skiet A. Marais—Sokker 1937; C. Lincoln—Sokker 1910; Poertjie Marais—Sokker 1929; E. Dick—Sokker 1929; D. Barker—Skerm 1954; P. Fox—Hokkie 1962; W. Fitchat—Krieket 1920; Shunter Coen—Krieket 1920; Hayward Kidson—Internasionale Krieketskeidsregter D. Botha — Muurbal 1965; Bomber Jackson — Sweef 1970; Leon Norgarb — Tennis 1951; Trevor Steyn — Roei 1957; W. Rivers — Fietsry 1948; H. van Broekhuysen — Rugby 1896; A. Bekker — Atletiek 1936; R. Leibrandt — Boks 1936; J. Oosterlaak — Atletiek 1920; Poena Malan — Atletiek 1958; Dok Malan — Atletiek 1963; E. Bohmer — Atletiek.

These souvenirs are important to Grey College and her boys, because, as J. Stuart Franklin put it during Grey's 75th anniversary: "The claim of the Grey College to distinction rests, then, not only upon antiquity but also upon achievement."

If the past is an inspiration, the future is a challenge. May the splendour of yesterday be outshone and eclipsed by the glory of her endless tomorrow."

wedding bells

Tommy Douglas to Hilary Wilson.
 David Gray met Anne-Marie Gray.
 Mnr. J. A. Strydom (onderwyser) met Engela Rood.
 Ashley van Aswegen to Loraine Douglas.

Maurice Ferreira met Lynn Bierman.
 Pienaar Fourie met Carine Malherbe.
 Tewie Wessels met mej. H. Swart.

We wish you all a very long and happy married life!

die beheerraad

Die Beheerraad vir 1972 was soos volg saamgestel:

Dr. J. W. v. d. Riet (Voorsitter).

Ds. J. E. Lombaard (Onder-voors.)

Dr. D. J. Louw.

Mnr. Ian Barr.

Adv. M. T. Steyn.

Mnr. W. A. Klopper.

Mnr. G. K. Buchanan.

Dr. J. B. Fichardt.

Adv. J. W. Edeling.

Mnr. C. J. Smit (Sekr./Kassier).

Mnr. J. L. Cronje (Hoof, Hoërskool).

Mnr. C. C. F. Bornman (Hoof, Laerskool tot Junie 1972).

Mnr. S. Strydom (Hoof, Laerskool vanaf Julie 1972).

Enige skool kan homself gelukkig ag as hy 'n Beheerraad het wat hom so daadwerklik beywer vir sy belange en vooruitgang. Die belangstelling van hierdie here is nie beperk tot die gereelde vergaderings nie; hulle dra die beeld van die skool na buite uit, stel en bepleit sy saak met krag en oortuiging by die Onderwysdepartement en die Administrasie en behou kontak met die Reünie en die skool. Dit is vir die twee skoolhoofde 'n riem onder die hart om te weet dat hulle te alle tye kan staatmaak op die ondersteuning, hulp en advies van die Beheerraad, o.a. ten opsigte van benoeming van personeel, finansies, instandhouding, daarstelling van geriewe en nog talle aangeleenthede. Ook in hulle privaatlewe is geen opoffering vir hulle te groot nie. Hier dink ons aan finansiële hulp, huisvesting van besoekende spanne, hulp met buitenmuurse bedrywighede soos die Sondagskool, die C.S.V., Katkisasieklasse en selfs sportafrigting. Ons wil die Beheerraad die versekering gee van ons opregte waardering vir onbaatsugtige diens aan Grey-Kollege en ons vertrou hulle sal ons skool nog lank kan dien.

Graag wys ons net daarop dat slegs Dr. Louw, Ds. Lombaard en mnr. Smit nie oud-leerlinge van Grey is nie. Hulle dra egter die belange van die skool net so op die hart soos die lojaalste oud-Grey en hulle seuns is of was almal skoliere hier. Die ander lede is almal in murg en been oud-leerlinge wie se seuns ook almal hier is of reeds die skool verlaat het. Mnr. Barr en adv. Steyn geniet selfs die onderskeiding dat hulle vaders en grootvaders skoliere van Grey was!

die grey-kollege reunie

Die volgende here het vanjaar op die bestuur van die Reunie gedien:

Mnr. J. H. Pretorius (Ere-Pres.)

Mnr. J. Steyl (Voors.)

Mnr. E. A. Fichardt (Onder-Voors.)

Mnr. A. P. Viljoen (Tesourier).

Dr. J. Pepler (Skr.)

Mnr. G. K. Buchanan.

Mnr. A. Krohn.

Dr. J. B. Fichardt.

Adv. J. W. Edeling.

Dr. C. Bornman.

Mnr. J. L. Cronjé (Hoof, Hoërskool).

Mnr. C. C. F. Bornman (Hoof, Laerskool tot Junie 1972).

Mnr. S. Strydom (Hoof, Laerskool vanaf Julie 1972).

Mnr. H. Bridger (Verteenwoordiger — Suid-Transvaal).

Deur middel van ons jaarblad wil ons graag hulde bring aan hierdie Oud-Greys wat duisende oud-leerlinge op die moederliggaam van die Reunie verteenwoordig. Hulle was inderdaad 'n skakel tussen die skool, die Beheerraad en die oud-seuns.

Ook by hulle vergaderings bly dit nie by praterie nie, — daar word gewerk. Ons dink o.a. aan die deeglike memorandum i.v.m. die behoeftes van die skool en die finansiering daarvan, die nuwe konstitusie, die versameling van adresse van Oud-Greys, die onderhandelinge en pogings i.v.m. fondsinsamelings, die finansiële hulp i.v.m. die aankoop van 'n klavier, die beurse toegeken aan leerlinge en studente, die verspreiding van die „Stabilis" en die jaarblad, besoeke aan ander takke, ens. ens. Ook dink ons aan aangename funksies wat hulle reël.

Grey sê baie dankie! Ons is trots op die Oud-Greys!

brill-huis

Die einde van 1972 is alweer in sig, en nog steeds wissel ons inwoners! Hierdie jaar sal ons onthou as die jaar waarin nuwe inwoners vir Brill-huis gedurig gekom het en ander moes gaan om Leith-huis se getalle weer aan te vul of na groener weivelde elders. Hierdie afgelope week moes ons alweer 'n nuweling verwelkom. Dit was dus dikwels moeilik om 'n gevoel van eenheid en samewerking te behou onder die inwoners, en daarom waardeur ons dit soveel dat julle dit wel kon regkry om hierdie „gevoel" vir Brill-huis ook by die nuwelinge gou aan te kweek. Hiervoor dankie aan al die Brill-huis seuns, maar in besonder aan ons prefekte, R. Jacobs, D. de Hart, M. Frewen, W. Klopper en A. Blake. Dankie ook vir goeie samewerking, seunsprefekte en huiskomitee, daar was nie ernstige probleme nie!

In hierdie jaar het nog 'n droom waar geword en ons het nuwe klerekaste gekry! Vir hierdie baie netjiese en doeltreffende kaste, baie dankie aan die owerhede. Daar is ook 'n begin gemaak met herstelwerk aan die 2 koshuise nl. Murray- en Brill-huis. Ook dit sal help om ons opnuut trots te maak op ons tweede tuiste hier op die bult.

Ons hartlike dank aan Mev. E. Steenkamp vir haar onbaatsugtige diens aan Brill-huis, baie dae met swak gesondheid. Ons was ook bevoorreg om Mnr. G. de Villiers by ons te verwelkom. Baie dankie vir jou bydrae mnr. de Villiers, dit word hoog waardeer. Net jammer dat jy so gou trouplanne gekry het! Ook aan Mnr. C. D'Oliveira ons hoogste waardering vir sy getroue ondersteuning en sy belangstelling in die seuns.

Mnr. en Mev. Johan Swart het ons verlaat, met sy sekondering na die Onderwyskollege, en ons sê dankie vir hul onbaatsugtige diens aan Brill-huis en sy inwoners. Mag dit baie goed gaan daar anderkant!

Ons is ook baie bevoorreg om Mnr. en Mev. D. Gray as assistent-huisvader te verwelkom. Mnr. Gray kon maar nie heeltemal wegkom van sy „Hotel de la Brill" nie. Mag u baie gelukkig wees in Brill-huis!!

Ook aan Mnr. Cronjé, ons skoolhoof, ons opregte dank vir sy belangstelling in Brill-huis. Hy het dikwels kom inloer, net om die seuns te leer ken, en so was hulle altyd bewus ook van sy belangstelling.

murray house

Looking back on 1972, I am absolutely sure that Father Time has discarded his sickle and bought a combine harvester, after exchanging his boots for a speedy Yamaha or Honda moped. Whatever he has done, he is certainly making time

pass very much more quickly than it used to.

Just the other day we welcomed round about 45 very new, very lost and very forlorn-looking new boys to Murray House, and now we find ourselves having had the hostel farewell function, with only Christmas still before us. Our new boys settled in very well indeed and before long the irresistible spirit of the Grey hostels had permeated them as well. They became "Grey boys" in the fullest sense of the word, taking part in all the various activities offered at the school.

This has surely been the year of transfers to other hostels. Quite a large number of the boys were moved up to Brill House as a result of vacancies occurring there and higher up. We also had a few new ones coming in during the year. Everything mentioned above fades into insignificance however, before the importance of TWO GREAT FACTS. FIRST: New cupboards throughout the hostel. Lest you take the trouble to reach for your reading glasses, let me hasten to reassure you that your eyesight is not failing. You read it correctly the first time, BRAND-NEW steel cupboards (long-awaited, sighed over, even pined for) have been installed, and the boys are thrilled. I still have my doubts sometimes, but the boys assure me that these cupboards are no figment of the imagination and they didn't vanish during their first night in the hostel. SECOND: Paint, real actual paint. It even smells like paint, so it must be paint. It also hasn't disappeared so far, so I think it is reasonable to suppose that it is real. The whole hostel is as clean as a new pin inside. Our sincere thanks to those who brought these wonders about.

I want to thank Mr. and Mrs. Viljoen and Mr. Cruywagen for their most willing services rendered during the past year. We are sorry to have to lose Mr. Cruywagen, but we wish him every happiness as he leaves us to get married. Our matron, Mrs. Prinsloo deserves a special word of thanks for her hard work and unflagging efforts to keep things running smoothly in the hostel. Our prefects for 1972, C. Grealy, S. Smith, A. Taylor and H. Visser did yeoman service and did it well. We thank them for it. They became such a part of Murray House, that the farewell was not easy, and that speaks volumes. The Study Committee, consisting of D. Coetzee, J. Gouws, S. Snyman, P. Theron, Toon Theron, A. van der Merwe and W. F. Venter, deserve our thanks for doing jobs well which are often regarded as mundane.

Mr. Cronjé popped in on so many occasions during the year and we thank him for his real and sustained interest in every hostel boy. There remains only one word of thanks. It goes to the mob who make Murray House what it is. Without them there would be the building, but no hostel. Without their co-operation our task would be impossible. We thank them for everything they have done to make this past year the success it has been.

leith -huis

'n Besonder aangename en interessante jaar is verby. 'n Jaar waarin ons ou vriende soos die Ebersohns verwelkom het en jong getroudes, die Volsteeds, ingelyf het. Nuwelinge vanaf Brill-huis is paslik welkom geheet deur middel van onder andere 'n welriekende, smaaklike heildronk. Ook 'n feitlik nuwe matrone, mev. Gordon, het die jaar saam begin en saam met ons geëindig.

My innige dank aan Bruce en sy manne vir hulle goeie werk en vir die klomp rangloses vir hulle goeie samewerking. 'n Baie groot dankie aan ons matrone vir haar onbaatsugtige dienste en aangename samewerking. Mag ons u sommer lank behou! Belangrik egter was die puik dienste van mnre. Ebersohn en Volsteedt. Met hulle onbaatsugtige samewerking het ek sonder twyfel my aangenaamste jaar in enige koshuis gehad. Baie dankie vir u openhartige en welwillende samewerking: die knape van Leith-huis waardeur dit.

Laastens 'n woord van dank aan mn. Cronjé vir sy intense belangstelling en vir die baie hulp wat ons van hom gekry het.

Alles van die beste vir die matrikulante vir die toekoms. Ons hoop nie een van hulle kom volgende jaar terug nie en dat almal in 1977 weer hier sal kom kuier!

J. F. L.

C. S. V.

Weer eens kan die C.S.V. terug kyk op 'n jaar waarin hierdie vereniging sy deel bygedra het om ook op geestelike gebied vir ons seuns veel te kon beteken. Hier kon hul Bybelstudie doen en met vrae kom wat elke jeugdige op hierdie ouderdom kwel.

Ons het gereeld ons twee algemene vergaderings per kwartaal gehad, gelei deur predikante van die verskillende Kerke wat met die C.S.V. saamwerk.

Ons het ook weer 'n besoek gehad van die reisende sekretaris, „Oom Smutsie“, waarvoor ons baie dankbaar was, veral vir sy kontak met die seuns in die koshuise.

Grey-kollege was vanjaar die gasheer vir die jaarlikse streekskonferensie. Ons dank aan Ds. Lombaard vir sy bekwame en geseënde leiding by hierdie geleentheid.

Ons kan ook terugkyk op 'n baie geseënde reeks Pinksterbidure, gehou deur Ds. Lombaard. Sy kort, maar treffende boodskappies sal lank onthou word deur die seuns, wat elke aand die byeenkomste in groter getalle bygewoon het.

Daar het ook vanjaar 'n paar van ons leerlinge na C.S.V.-kampe gegaan. Hieroor is ons baie bly, want vir 'n koshuisseun om 'n deel van sy vakansie hiervoor te gebruik, spreek boekdele.

Ons dank aan Ds. Lombaard vir sy belangstelling en hulp.

I would also like to assure the ministers from the Anglican and Methodist Churches, Rev. M. Cross and Rev. Dr. Young, of our sincere gratitude and appreciation for what they did for our two English speaking circles.

sondagskool 1972

Die Sondagskool het vanjaar weer, soos gewoonlik, sy werksaamhede voortgesit en kategetiese-onderrig in die Geloofs- en Sedeleer van die N.G. Kerk sowel as in die Woord van God is gegee.

Ons dank aan hulle, lede van die personeel, en andere, wat gewillig was om saam te werk in hierdie groot en noodsaaklike taak. Aan ons hoof, Ds. Lombaard, ons dank vir sy daadwerklike belangstelling. Hy neem nou sy belydenisklas Dinsdagaande, weens die onderbrekings met naweke, en die reëling werk uitstekend.

Mag die Sondagskool steeds dien tot die versterking van ons seuns se geloof en die verstewiging van 'n Christelike fondament in die ontwrigte tyd waarin ons leef.

SKI-BOAT CATASTROPHE

Early one morning in the summer, we took our ski-boat down to the shore for we had decided previously to go fishing that day. There were four of us, my uncle, two of his friends, and I. We put food, fishing rods and other tackle we needed into the boat and set off. About two miles off-shore, we found a school of snoek and we began to fish.

The fish were going mad and we took one at nearly every cast. We were so busy that we did not notice that the calm sea had become rather choppy and that dark clouds were gathering on the southern horizon.

By five o'clock in the afternoon we had caught so many fish, that the boat was lying dangerously low in the water, and we decided to return to shore. The waves were quite high, but we were fairly safe as the boat was equipped with two powerful motors.

My uncle pressed the starter-button and one of the motors sprang to life, but however hard we tried, we could not get the other one to go. We knew that it would be dangerous to be caught in rough water with only one motor working, so we decided to throw some of the fish overboard so that we would be able to reach the shore more quickly.

For the first mile or so, everything went well, but then the wind began blowing more strongly and gigantic waves rolled in upon us. We managed to take the first few waves, but then an extraordinary large one capsized our small boat.

By that time we were only one mile from the shore, but since it was dark nobody on shore could see us. All of us had life-jackets on and we all clung to the boat so as not to become separated. We drifted like that for a couple of hours and then, to our surprise, we saw fires burning on the shore. By that time we were very tired already but it was encouraging to know that people were looking for us. The fires appeared to be very near and one of my uncle's friends decided to swim for it.

After a few more hours of waiting we became discouraged and decided that help would never arrive. My uncle's other friend said that he could bear the strain no longer and that he was going to let go. My uncle tried to persuade him not to do such a foolish thing. He pointed out that all of us were tired but that we should not give up hope. He did not listen however. He took off his life-jacket and sank quietly beneath the water.

I was shocked at what had happened and the fear of drowning as that man had done, kept me thinking sanely for a few more hours. Just before dawn I felt I could take no more but my uncle tied me to the boat so that I would not be able to do anything foolish.

Together with the first light came our rescue. I heard a sound from above and saw a helicopter approaching. It located us and circled low over us. They lowered a rope ladder but we were too weak to climb up. When they had taken note of this fact, they flew off at high speed and half an hour later a boat reached us.

When we reached the shore, we asked whether the man who had tried to swim ashore had made it, but they said that he had unfortunately not. His corpse had been found washed up only a short time before.

We were taken to hospital and after I had been given an injection, I fell asleep. How glad I was that that night was over.

A. van Tonder, 9A.

HAPPINESS

The smoke curled out of the cigarette in the shivering hand of the man next to me. We were sitting in the old-fashioned bar at the station. I was watching the people around me when the expression on this man's face drew my attention.

There is nothing unusual about a man in an old black suit staring into the glass in front of him, but I could not keep my eyes off him. He looked overwhelmingly happy but with a deep sadness hidden behind his happiness.

It was cold, raining lightly. Suddenly he started talking to me. "The train is late again and my Rita is on it," he said. He looked at me and smiled, seeing my inexperience, my youth.

He told me about the years with his grandfather in the little fishing hamlet. How he had to work, hard work for a boy of twelve. He had been a man at sixteen, not in body but in spirit. He told me about his studies and about the lovely girl on the dirty yellow photograph he showed me. His Rita. How they had loved each other. How rich they had been, in spite of their poverty.

Rita had loved the sea as much as she had loved him. She had liked the feeling of the bubbling water gurgling on the rocks around her feet. He had often warned her not to go too near the edge of the slippery black rock but her bubbling laughter had made him feel silly.

He told me about their marriage, their savings and his ambitions. He had studied hard and late by candlelight. Then his unknown illness. He had to come to the city for treatment for three years. He had to use all their savings. She could not go with him.

"That seems a long time ago," he said, "now she is coming to me."

He smiled his sad smile.

He looked at the raindrops against the window pane, raindrops which were playing strange tricks with the yellow streetlights outside, and remarked:

"Happiness and sadness are very much alike. So much so that one can very often not distinguish between the two."

He left, because the train was coming in, leaving only his empty glass.

I saw him filling in some forms as I stood waiting to entrain. Then he walked to a plain black coffin being taken out of a coach.

He smiled happily, touched the coffin and with tears in his eyes, he whispered, "My Rita, I warned you not to go so near the edge of the rock."

Suddenly it started raining hard. Water dripped from his wet hair and spashed on the coffin. It was raining hard. As if all the sadness in the world was being poured out on him.

H. BELL 9A.

FREEDOM

The history of the world is the history of a struggle between tyranny and freedom. All the ancient peoples were governed by tyrants, with the possible exception of the Greeks and the Romans, who believed in freedom for all men (unless they happened to be slaves or poor people).

All through history, the oppressed, the slaves and the poor people, suffered their humiliation passively. They could do little else. There were always laws to guard against their having public meetings; they were allowed no education, or if they were, their books were banned (as happened in Czarist Russia). Perhaps the slaves and the poor revolted against oppressors. They then set up a dictator, who ran the government for himself, and the cycle was repeated.

The tyrants, especially those in Europe, had another advantage, namely Christianity, with its doctrine of humility and meekness, which taught people to accept suffering patiently. Of course, it was not originally meant as a plutocratic weapon, but it proved effective for over a thousand years to keep the kings and the clergy in luxury and the peasants in poverty and ignorance.

The first blow for the universal freedom of mankind was struck during the sixteenth century A.D. It was called the Renaissance. By the invention of printing, it brought books into the home of the common man. By means of books it educated him, and soon he began to realise that life could be better for him than it was.

He clamoured for freedom, the freedom to choose his own government, to live where he liked, to work for whom he liked and believe in what he liked. The kings, emperors, tyrants and dictators laughed. What could common people know about the running of a country? The people, however, wanted freedom more than anything else. If they could not get it any other way, they would fight for it. Royal heads rolled and the people had their wish.

Because their leaders were educated men, the revolutionists did not make the mistakes their forefathers would have made, had they been given a chance to rule themselves. They did not set up tyrants, but voted for leaders, and human freedom was at last assured. This took a every long time; in fact, it is not yet finished.

There are still millions of human beings who want freedom. All over the world people are still being oppressed by false governments and dictatorship. In the end however, freedom will conquer, for it is the one thing human beings want most.

A. van der Spuy, 8E1.

MODERN CIVILIZATION IS A FAILURE

Nowadays there is a great deal of talk about the values of civilization; if there are any values.

What is civilisation? Japan, for instance, was considered uncivilized when she was a quiet, rural, peace-loving country. But when she fought a war against Russia, she was considered civilized. Now Japan has changed into an urban, smog-ridden and pollution-infested country. Statistics show that Japan has one of the highest suicide rates in the world.

America, considered by many to be the world's most civilized nation, is the most uncivilized one. And, ironically, this state was caused by civilization. One just has to look at the atrocities in Vietnam, the assassinations of presidents and politicians, the mass murders, the riots, the police brutality and the gang wars, to see an example of this. If that behaviour is civilized, then civilization must be a failure.

What makes people so uncivilized? It is the striving for civilization. The modern concept of civilization is to move into a flat in the middle of a large city, to be surrounded by traffic and demolition noises, and, above all, to be surrounded by the sweat of four walls, and be swept away by the bad breath coming through the window.

Is it not strange that people should submit to such torture? They come from their farms and

from the idyllic countryside (most of it already becoming spoilt by civilization) to join in the rat-race of the cities. And to what purpose? — to be “civilized” and “with it”. and they shall most certainly be unhappy.

Today’s “civilized” adults look down with contempt at the “uncivilized” youth of today. Why? Because the youth will not accept today’s civilization. They want to return to nature. Unfortunately “civilization” has encroached upon nature to such an extent, that this is not so easily done. Some then, find no other alternative than drugs. Civilization, not they, is to be punished for this. The lucky ones are able to form a commune in an unspoilt piece of countryside. They are termed permissive and promiscuous because they do not share one partner, but many. But this is man’s nature. It was proved in Hawaii. There the missionaries forbade polygamous marriages. From then on the natives became listless and neurotic. The pure Hawaiian people are all but extinct.

What is civilization? Civilization is yearning after money. Civilization is listening to politicians’ rantings and then suffering when they blow the world up. Civilization is violence and they hang the people who indulge in it. Civilization is pollution. Civilization is a dirty word, the end of the world. Civilization is a failure.

A. Brüning, 9E1.

oujaarsaand

„Niem my saam, niem my saam op djou bicycle Lekka, lekka, dja, lekka nuwedjaar.” Dit is ’n groot gewoel en werskaf vanaand, want more is die groot dag. More slaan die stoffies onder die klopse se voete uit en vanaand oefen hulle daardie laaste stemtoon.

Skoffel, Stoffel, skoffeél . . . !”

In die agterkamertjie is Japie Bandjies besig met die laaste verstellings aan sy optogklere. Hy sal maar nie vanaand die oujaar uitjol nie, want hy wil hom geestelik voorberei vir more.

Dit kan die grootste, die mooiste dag in sy lewe word. (Kyk net hoe mooi blink die sterretjies vanaand, nes die kristalletjies in die winkelvenster). As sy spannetjie tog net die prys kan wen, as al die oefen tog net nie verniet was nie. (Daar verskiet een nou; hy wonder of dit nie dalk ’n teken is nie.) Ai tog . . . en hy stryk-stryk weer so oor die rooi satyn.

Buite raak die plesierigheid nou wild en sy hart punt so na buite, maar hy het hom voorgeneem; vanaand bearbei hy homself geestelik — vir more!

Buite slinger ’n skollie sy bierbottel teen die randsteen en die skerwe splinter oor die straat.

Nou wonder Japie Bandjies net . . . mag hy nou bid om die oorwinning. Net die één keer wen, dit is al wat hy vra.

Die skerwe in die straat glinster — blink in die lig van die maan, maar Japie Bandjies weet nie daarvan nie.

Hy het besluit. Hy gaan bid. Stadig sak hy op sy knieë. Dan begin hy saggies prewel . . .

„Laat ons spannetjie tog net dié een keer wen, se, blieftog. Net dié keer. Dankie Here.”

Hy wil opstaan, maar onthou dan.

„Dankie ok vir die nuwejaar, en ok vir die oue, dja. Dankie Here. Amen.”

’n Ster verskiet helder, blink, silwer, stralend, verliggend, verblindend en groots om een oomblik van aanbidding in die eeue in te brand.

P. Verster, 10A2.

the biography of a native child

His name was Nihabiseeng, but they called him John to find favour with the Whites. He was only fifteen when it happened, but for his black soul there was neither a great future, nor a happy past.

He had been born into his filthy, poverty-stricken world the eleventh child of his mother, but had been fortunate enough to be the son of his legal father, who most of the time was away working on the mines.

At first, John’s world had been the two rooms of the mud hut with the tin roof which leaked when it rained, the mud hut with the bed for his mother and the mats for the children, the mud hut which was their only substantial material possession.

And then his world had grown. It had grown from the hut to the fields to the school. But while his world had grown, not so his body. For his meagre daily ration of food was not enough for a growing boy, and his body became small and stunted and it was seldom that he was not hungry. He would watch sometimes with hunger and sadness in his eyes while the Whites ate their fill — and more. He would turn his back and walk away, away from the people with the warm beds and full stomachs, walk away towards the mud hut with its leaking roof and empty stomachs.

The small farm-school was his only hope — a meagre one at that. But he learnt and worked with that eagerness for work which the White men do not know, and in spite of all the odds he did well. All this time he had worked for the master — herding the sheep.

Then, after entering standard six he was promoted to herding the cattle on horseback. It was then that it happened. He had been herding the master’s, the cattle of the White man who lived in the big, warm house with plenty of food, oh! only for a taste of that food . . .

The horse did not see the snake 'till it was on top of it. Panic-stricken the horse reared, throwing its rider from the saddle. John fell with his back arched and the full weight of his body on his neck. He would be hungry no more . . .

When John's mother arrived at the farmhouse bemoaning the fate of her son, the "missus" conveyed the news to the "morena". Looking up from his newspaper he said, "Give the mother a few shillings and some tobacco and send her home — after all, he was only a boy."

M. Lurie, 7E1.

ek kyk terug

Iets het onbewustelik my hart geneem en dit aan herinnering gekoppel. Die pyn en klein vreugde van verlange het in die holte van my hart nesaak — om van my af weg te vlug, maar ook om altyd terug te keer en die wit eiers van herinnering te lê . . .

Ek is 'n kind. Iewers op die blou rante voor ons huis, wat wegvloei in die verte, het iets gewag, gewag om nou, miskien later, my te omsingel en om my weg te lei na die lewe en die vreugde én pyn (smart) van die lewenservaring. Maar die lewe is nou een groot ontdekking. Elke dag stort sy klein geluk oor my uit, waar ek stowwerig deur die stof kruip én speel. Ek huil en lag somer deurmekaar en weet dat ek more weer sal speel, sonder vrees . . .

Ek was 'n kind wat in die silwer reën van geluk elke dag deurgebring het.

Skielik 'n visioen: Ek begin leer — die lewe bestaan uit meer as elke dag se ervaring, maar ek verstaan nog nie die gevoel van verlange wat my hart wil omkeer nie.

En ons speel rugby op die grasperk. Ek wil die meeste drieë druk. Ek wil. Ek wil.

Ek begin om die eensame pad van selfhandhawing te bewandel.

Ek skop die bal hoog die lug in. Dit val oorkant die draad en . . . ek is te bang om te dink . . . ons buurman se spogblomme plat. Gou is ek oor die draad. Ek gryp die bal. Die blomme! Vinnig druk ek hul stukkende stamme in die grond. Daardie aand ervaar ek die vrees of ek reg gedoen het.

Ek moet myself handhaaf. Ek word groot al doen ek verkeerd.

Hoe lank het dit nie geneem nie, voordat ek goed en kwaad herken het én die pyn van selfhandhawing!

Ek is 'n jongeling. Ek sterf een lewe af om in die warboel van nuwe ervaringe rondgeslinger te word.

Ek ken myself nie. Ek verlang na iets waarvan ek nie weet nie. Ek soek dinge wat nie bestaan nie. Oral bekruip twyfel en vrees my. Waarvoor lewe ek? Waarom is die lewe so deurmekaar? Wat gaan van my word? Al hierdie dinge wil my hart toedruk. Die lewe word 'n nuwe ervaring.

Totdat ek soos al die ander ook na haar verlang.

Ek het toe nog nie geweet dat die loutering maar deel is van ons menswees nie. Eers later, toe die lewe weer betekenis verkry het, het ek verstaan.

Maar die vreugde en smart het nou deel van my geword — onafskeidbaar in my verenig.

Ek is op universiteit. Miskien het ek al geleer om te vergeet van selfhandhawing, miskien nie, of het my pynlike jeugjare my gelouter vir dié jare van onsekerheid vir ander? Ek weet nie. Ek weet net dat my dae weer voller geword het.

Ek behaal my graad, en dis net so, toe staan ek ewe trots met my bandjie om die skouers.

Hoe min het ek, wat geleerd wou wees, toe besef, wat ek werklik weet!

Nou weet ek dat ons maar almal aan dieselfde naelstring lê, dieselfde moét ervaar. Noudat ek uit al my dae weggestort het om mens te word, weet ek dat ek die vreugde en pyn deel van ons almal is. En . . .

Ek speel in die sand onbewus van die latere ervaring van goed en kwaad.

Ek skop die bal en is die nag beangs, oor 'n nuwe ervaring van vrees.

Ek slinger rond in die warboel van my jeugjare — later verstaan ek.

Ek is op Universiteit en vreugde en pyn word een in my hart.

En deur alles heen
het ek gestort
om mens te word.

P. Verster, St. 10A2.

ek kyk terug

„As ek eendag groot is . . . vry is!” Hoe dikwels het ek nie hierdie woorde in my hart herhaal toe ek nog jonger was nie? Hoe lank het ek nie op hierdie dag gewag nie? En nou dat ek eindelijk hier is, is daar net 'n oneindige leegheid in my hart van iets wat was, maar nou verby is. Nou lyk die toekoms so onpeilbaar donker.

Nou dat ek die lyste van name sien van hulle wat al deur hierdie skool gegaan het met eer, geslagte van groot manne, en vir oulaas die trotse skoolwapen sien pryk teen die spierwit muur, nou word daar vir my 'n venster geopen, waardeur ek terug kan kyk na dae wat vir ewig verby is: Dae van vreugde soms en dan weer dae van bittere opstandigheid, waarin die oormoed van die jeug soms ontembaar wou losbars.

Ek kyk deur die wydgeopende venster van die herinnering na my eerste dag op hierdie skool: so verlate, selfs verlore in die nuwe omstandighede. So ongewoon nog aan verandering, met geen vermoede van die pyn van mensword nie. Suiwer kind nog, met geen teken van naderende volwassenheid nie. Selfs toe het ek al besef dat hierdie skool meer as net 'n skool was, met 'n ryke tradisie wat steeds verder opgebou en uitgebou moes word. En my voornemens was goed daardie eerste dag!

Ek was gou tuis hier. Ek is opgeneem in die malende stroom van oorborrelende jeug, wat altyd maar wou vorentoe. Daar was altyd net een oneindige stroom van vreugde. Deur dit alles het die skool maar altyd probeer om my karakter verder uit te beitel en af te rond.

Eers in my derde jaar aan hierdie skool het 'n nuwe element my lewe binnegesluip en sonder dat ek daarvan bewus was, het ek verander. Ek het begin besef dat ek werklik bestaan, maar ek was nog nie groot genoeg nie, letterlik ook, om myself te laat geld nie. Ek het baie saamgepraat met die opstandiges, maar ons het nog nie geweet waarom ons in werklikheid opstandig was nie. Ons het nie besef dat dit 'n soort van natuurlike aanslag was, wat deur so baie geslagte voor ons reeds ervaar is nie. Dit was 'n natuurlike proses van opgroei en die groeipyne het ons nou vir die eerste maal gewaar. Woorde soos puberteit en adolossensie het nog nie tot ons woorde-skat behoort nie.

Hoe min die kennis ookal was, ontwikkeling het oral plaasgevind: op die sportveld, in die klaskamer, by die huis. Vanaf my vierde jaar aan hierdie skool het ek 'n individu geword met my eie voorkeure en belangstellings. Ek het nie meer saam met die stroom gedryf nie, maar van nou af my eie opinies begin vorm oor dinge wat vir my onbekend was. Toe het ek vir die eerste keer mens geword, wat dieper kon delf in dié dinge wat die lewe die moeite werd maak.

Saam met dit alles het gekom 'n gees van opstand, omdat die verantwoordelike sin nog nie daar was nie. Teen alle gesag, ja teen die lewe het ek my verset en gestreef na die sogenaamde vryheid van die jeug.

En nou, hier teen die einde van my skoolloopbaan het die stadige insypeling van verantwoordelike besef hierdie opstandigheid begin versmoor, veral nou dat ek my moet toespits op die voorbereiding vir die latere lewe, waar ek voor die keuse van 'n beroep te staan gekom het.

Ja, so het hierdie skool my stap vir stap toeberei, tot waar ek nou op die rand daarvan staan om die wye wêreld as individu binne te gaan. En nou dat ek klaar teruggekyk het en die venster wat op die verlede uitkyk, homself dig gesluit het, vra ek myself af: Kon ek help om hierdie skool se tradisie uit te bou deur my eie deel te gee? Ek hoop dat dit so is, omdat ek dit uit dankbaarheid verskuldig is.

J. du Pisani, St. 10A2.

die oseaan

Verheug kyk ek na die eindelose spel van die oseaan, so oud soos die eeue en tog altyd so roerend mooi.

My blik gly oor die blou ronding van die see, die deining van blou-groen water, die sweefgang van 'n deursigtige vlieswolkie, die kringvlug van wit meeu bo die diep-donker dreuning van die see.

Dan dwaal my blik na waar saffierblou lug saamsmelt met opaalgroen water vanwaar die bewegende massa aanwieg na die land toe. Dit kom met slappe, verplooiing van branders, al groter en breër uitgedyr tot hier naby waar die deining aanswel en 'n golf met skuimrug hoër vou en blink ombuig en met dansende sneeuvlokkie oopbreek, aanskuiwe en uitsprei teen die sandhelling dat dit skitter in die laat agtermiddagson. Dit spoel tot by die droë waaisand waar ou skulpflenters, verbleikte bamboes en verweerde stukke skeepshout die verste seerand maak. Oral in die sand blink nat seewiere met die kleure van die see daarin en flentertjies skulp daarop 'n Ligte skuimsproeiende vee huiwerig oor die donker rots.

Die sonstrale spoel oor die strand en die waaierende soutwasem van die see waai teen my vas. Die baai is net blou en wit sonder die swart van die toegespeelde rotse. Die see is vol en stil.

Die ondergaande son — soos 'n rooi vuurbal — verander die hemel in 'n glansende robyn. Die dag is besig om te sterf in die vlammende, eksotiese kleure wat fel teen die naaste wolke vasblits om dan rustig verder te vloei tot dit weer teen die verste wolkies aanspoel totdat die laaste rooi strepie uit die weste verdwyn het en net die oneindigheid van die hemel, met die sagte skoonheid van die hemelstraat daarin oorbly.

Dit is nag. Die volmaan rys oor die onrustige oppervlakte van die water, om elke golfie se gepluimde hoof silwer te kleur. Die fosforskytsel in die wit pluime van die branders begelei deur die magtige, ewige simfonie van die see, verleen 'n misterie aan die toneel.

Die omgewing het vir my die vrede van die drie-en-twintigste Psalm. As hierdie ruimte om my strek, voel ek dat niks my ontbreek nie. Geen weivelde is vir my mooier as hierdie taai duinebosse nie. Vir my is die waters waar rus is, hierdie sagte see. Hier voor God se almag in die natuur weet ek dat goedheid en guns my omring — Ja, al die dae van my lewe!

Jan Joubert, St. 9A1.

afskied

Na die lang klim sak ek verlig en pootuit op 'n plat klip neer. Ek is nie meer vandag se kind nie en vir 'n ou man soos ek is so 'n klim nie iets alledaags nie.

Onder my lê die mooiste toneel wat ek nog gesien het. Diep onder in die vallei vloei die klein riviervleeg na die klowe wat weerskante van my verbystrek. Dit lyk vir my of die hele landskap uitkruip na die sonnetjie van die sterwende somer. Die somer is nog nie verby nie, maar die tekens van die herfs is al reeds sigbaar. Daar is geen wolkie in die lug nie, en die windjie wat daar was, het lui gaan insluimer.

Voor my, 'n entjie in die vallei af, strek die koelheid van die wendams water uit en oor die moë aarde kom die aand met die rus en vrede van 'n droom — vir my soos die reis van 'n arbeider na 'n lang dag.

Ek kyk weer na die wolklose hemel, die bulte en die wydgestrekte aarde voor my. Hierdie toneel wek by my 'n gevoel van heimweë. Ja, ons — ek — is maar soos plante wat na die somergroei afsterf om plek te maak vir nuwe saad. Altyd is die afskeid maar aanwesig.

Ek sien 'n ou aalwyn hier skuins voor my raak en dit is of ek in 'n spieël kyk. Dit is mos ek wat so verdroog en ineengekrompe daar staan. Die ou blare lê dik om sy stam en die jongste blare begin reeds hul herfskleur kry. As hy kon praat, sou ek kan gevra het of die toneel vir hom ook so mooi lyk. Hy wat deel is van die kranse, die kloue en die plantegroei wat hier so 'n leidende rol speel.

Die geel blare begin oral grond toe dwarrel: die somer sing sy afskeidslied noudat die groei voltooi is. Die blare ritsel in die ligte windjie wat intussen opgesteek het. Een vir een dwarrel hulle grond toe. Ek besef hoe vinnig my lewensjare ook verbygedwarrel het. Die tyd is verby — alles moet nou tot ruste kom.

Ek besluit om nader te gaan en begin teen die berg afklim na die riviértjie daar onder. Daar aangekom, sien ek die ou maalgate en die wilgerboom waarvan die takke in die water hang.

Ek stap verder en kom by die populierbos wat ek 'n rukkie vantevore vanaf die heuwel gesien het. Daar is nog blare in die bome, maar die meeste lê al op die grond. Dit vorm 'n dik blaartapyt wat onder jou voete kraak as jy oop. Blare van alle kleure kom hier voor — amper so verskillend soos die mense in die wêreld waarin ons leef.

Die son is besig om te sak en iewers in die kranse blaf 'n bobbejaan. Die trop sal seker nou na hul slaapplek gaan. Die voëls begin al in die bome raas en by die wilgerboom staan 'n eensame reier. Ek besluit om terug te gaan huis toe en die toneel laat my dink:

„Maar toe ek opkyk, het die donkerblou
Vleuels van die nag al om die vlei gevou.

Asof hy heel sy lewe wou verdroom,
Was daar een reier wat nog roerloos staan . . .”

Moeisaam begin ek weer teen die heuwel opklim na my uitkykpos. Daar aangekom, gaan sit ek om 'n bietjie te rus.

Uit die toneel voor my en die omgewing waarin ek my nou bevind — die verkleurende gras, die kaalwordende populierbome by die dam, die hoë rotse wat nou lang skaduwees begin gooi oor die vaal gras, die bulte wat hulle skouers krom trek teen die nag wat kom en die droë biesies wat heenen weer in die ligte briesie beweeg — kom net een boodskap: afskeid. In alles wat vir my mooi is en was, is die afskeid reeds te lees.

Dan staan ek op om te loop. Wanneer ek my rug op die toneel draai, dalk vir die laaste maal, sal die son net agter die berge wat pers-blou in die verte lê.

Ettienne Horn, St. 9A1.

ek kyk terug

Rook, rumoer, lawaai, lewe — en ek; ek is 'n drywende blaartjie op die onrustige woelende stroom van die stad. Ek is net 'n nietige asempie, ingekerker in 'n vuil beknopte kamertjie. Ek wil uit, ek wil weg soos die rankplantjie in my venster, weg na die son . . . Ek wil weg na golvende, groen lusern, na mielielande wat blink op die bulte en goudbruin koring wat stadig ritsel in die noordewind. Ek wil weg na my wêreld waar die rooigras nou saadmaak . . . waar 'n mens nog 'n mens is. . . O . . . ek kyk terug na my wêreld en my mense.

Die ryp somergeur van droë lusern prikkel my neusgate — dis balery, laag buk, hoog uitstoot en opskiet. Weer en weer, die strooi vreet ons hande, die stoppels krap ons enkels, maar ons hou vol — hulle sal ons nie wen nie! 'n Baal gly en 'n baal val. En dan, wanneer die son begin vaak word en die tam spiëre foeter om te bewoed en korhane kraakeel die stilte flenters en kokkewiete sing klokhelder uit hul kaal kele — dan weet ek weer wat dankbaarheid is en dankbaarheid is mos vreugde.

Die dieseltrekker kug en koers vorentoe tussen die mieliërye deur. Skoffelskaartjies karring vlugtig deur die ryp rooi aarde. 'n Klomp sprees ploeter skellend in die koel, los grond. 'n Blink windjie druppel oor die land en laat die mielies saggies skinder. In die verte raas die rivier oor die swart klipbanke onder die brug, en onder in die vlakke kerm 'n leunek . . . en ek kyk terug . . . na my wêreld en my mense . . .

J. van Reenen, St. 10A1.

'n ou, ou vriend

Dit is druk-stil binne. My oë gly orals rond: vlieë koekend om tamatiesousbottels, lui grys waaiers om en om, in klein goue bril agter die geldlaai.

„Nogge tee asseblief.” 'n Goue brilletjie? My oë kyk weer. Flappende wange langs 'n sweetneus of neusie.

Toe sy stem: „Dit sal tien sent 'wees”. My ore dink terug en wonder . . . en dink terug, terug . . . ver. (Net na die Eerste Wêreldoorlog).

Skoolbanke. In diep swart „Lucienne” uitgekrap. Altwee na haar gevry — maar hy het haar altyd gekry, kon beter krieket speel as ek ook. John R. Richard. Maar ek het hom Richie genoem. (Ironies as ek dink aan hul hol broodblik in 'n sinkhuis onder die peperbome — toe).

My ma het eenkeer gesê: „Sy hare, so goud en mooi, hy moes 'n meisie gewees het.” Sy hare nou grouerig en muiserig — yl, soos ons sakgeld op skool.

My bene lig myself van 'n verchroomde kafeestoele (met 'n merk van baie agterstewes) en ek loop na die toonbank.

John R. Richard, maar ek het hom Richie genoem, kyk leeg na my. Vyf voet ver voor die toon-

bank word ek bang en haal flouerig 'n muntstuk uit my sak.

„'n Pakkie twintig, enigiets sommer!” My oë rus op sy pofvingers — vol goedkoop ringe met goedkoop groen en rooi blinkstene. Sy vingers.

„Tannie weet, Richie het sulke mooi hande vir my,” sê Lucienne en lag met blink, wit tande.

Ek draai stadig om en gaan bestel nog koppies tee. Ek rook vyf. Loer. En loer weer. Ek moet hom gaan groet, herinneringe by hom wakker maak; my liewe goeie vriend!

Na 'n halfuur staan ek weer op. My fyn varkleerskoene is vol fyn stof. Toe ek reg voor die toonbank is . . .

Ek kyk stip. Vir 'n oomblik. In sy oë. Maar sy onthou faal. Teleurgesteld koop ek iets, sjokolade of kougom, vir my vrou.

Toe val my leerbeursie uit. Vol tienrandnote, die oggend getrek. Die beursie, my oudste seun het dit nog gebring.

„Dé Pa, sommer iets kleins. In Oostenryk gekoop.”

Ek sien hoe Richie na dié geswelde beurs kyk. En ek sien sy kafee. En ek sien sy ougeel hemp — geel van baie was.

Vinnig loop ek uit, voordat sy stem my dalk wil terugroep — „Meneer, u beu . . .” Buite waai wind 'n traan van my wang weg.

die einde?

Dis kaal!

Die wind fluit oor die toneel van algehele verwoesting.

Ek stoot die ruimtetuig se deur stadig oop . . .

Kraak!

Die deur kort olie.

Olie? Olie! Daar is geen olie nie.

Daar is geen mense nie!

Die grond knars onder my voete. Dit is die gras wat so kraak. Wel, dit kan gras genoem gewees het voor hierdie chaos.

Duidelik kan die littekens van 'n geweldige ontploffing waargeneem word op die aangesig van die landskap.

Terwyl 'n onnatuurlike stilte oor die lugmagbasis hang, loop ek na die beheertoring. Kaptein Jim Connors en Peters is soos gewoonlik daar om my te groet.

Ek steek my hand uit . . .

Nee!!!

Hulle is dood. Albei dood. Dood. Dood.

Madame Curie se baanbrekerswerk het die volle omwenteling van die lewe ondergaan. Vanaf geboorte tot die dood. Vanaf die begin tot die einde.

My voetstappe se weerklanke verpletter die grafstelte. Grafstelte? Hoe morbied ironies. Die hele wêreld lyk seker soos een groot universele graf.

Die hospitaal is heel gepas geadverteer. Twee blokke vanaf die hospitaal begin ek die dooies teë-

kom. En die gebou self? Slegs 'n diep gat lewer die getuënis wat nodig is.

Dit sal nooit weer nodig wees om te kla oor die betonmoeras en die gedrag van die mense nie. Die hele wêreld vir myself . . .

Die hele wêreld?

Wat van hom oor is!!

Is daar nog riviere, vlaktes vol gras of slegs bruin en swart onvrugbare stoppels oor van wat was?

Drie dae later begin ek opbring.

B. Vorster, St. 10A1.

aan die aand van my lewe

86 jaar gelede . . . Dit was die jaar 1886. Saam met die sonopkoms het die wêreld my vir die eerste keer gesien. Vanaand hier op die stoep weet ek — dit is my sonsondergang.

„Ja, o jongeling, verbly jou in jou jeug en laat jou hart jou vrolik maak in die dae van jou jonkheid. En weer verdriet uit jou hart, want die jeug en die jonkheid is nietigheid.”

Met betraande oë het ek my moeder agterna-gekyk toe sy deur die skoolhek ry. In my hart was daar vrees maar — tegelyk ook vreugde. My skooltassie, omtrent twee keer so groot soos ek, het vandag net 'n potlood en 'n kosblikkie in. Vrydagmiddag is ek met vreugde in my hart weer huis toe vir die naweek. Met die reuk van gom en vetkryt nog aan my hande was ek reeds buite. Toe kon ek my nog verlustig in die plaasstelte en blou Vrystaatse lug met sy dreigende donderwolke.

Die dag van my matriekafskeid — die meisies se donkerblou springjurke steek treffend af by die spierwit sokkies en bottelblink skoene. Die seuns se haarstyl is vanoggend meteens netjies en man vir man het vir oulaas sy streepbaadjie aan.

Alleen later tussen die massa van universiteitstudente . . . My lig brand elke aand laat, voor my lê die boeke in stapels.

Byna gooi ek tou op, maar nog vyf jaar aan . . . en toe smaak ek die genot van sukses en oorwinning — die dag tydens die plegtighede oor gradedag.

En tog, hoe mooi en skoon hier in die skemerte van jou lewe — die wete dat God met Sy almagtige persoonlikheid altyd, altyd hier langs jou was.

Nadat ek hulle so een vir een deurgekyk het, het ek eendelik my lewensmaat ontmoet, Joanne. Maar twee jaar gelede het God haar geneem as sy eien-dom . . . Joanne . . . ek ken jou hare. Ek sien hulle: die een lewendige donker krul op die ander. Ek sien die een wat steeds moedswillig op jou wit voor-kop val, as jy vol bewegings is van blote lewenslus.

Ja, vir jou en vir my . . . en vir God het ek van vroeg more tot laataand gewerk. En ook daar het ek die strelende smaak van sukses geproe. Ja, selfs non stol my bloed . . . van trots van al die hoogtepunte in ons lewens.

My lewe voel vanaand soos 'n dik boek. Daar is

baie bladsye met helder strepe en figure, die waaraan ek met 'n glimlag kan terugdink. Helder kleure van my, een van jou en van ons twee seuns maar daar is ook 'n bladsye van beproewing. En dan hier en daar versteek die laagtepunte in my lewe. Maar met God se hulp het hulle minder en minder geword. So moes ook ek leer dat om te struikel op die weg ons leer om 'n volgende fout te verrig.

Maar vanaand weet ek dat more se blaaitjie miskien vir altyd sal wil bly . . . „Want die wagters van die huis bewes al, die malers het die werk al gestaak en die wat deur die vensters kyk het reeds verduister . . . ”

H. M. Visser, St. 10A1.

eensaamheid

Sat, totaal afgemat, byna op breekpunt wat my geestelike toestand betref, sit ek agter die stuurwiel van een van die passasiersbusse. Weens my oorspanne senuwees probeer ek my ore sluit vir die oorverdowende lawaai, die geskreue van remme en die gekke van skindertonge agter in die bus.

Ek sien uit na Saterdag. Dit is die dag wanneer my hunkerende verlange na eensaamheid 'n werklikheid word, wanneer ek my op die groen gras langs die spruit op een van die plase in die omgewing neervly. Die rustige stilte verklik my siel. In die bome is die rusgewende gesels van voëls hoorbaar. Langs my kabbel die water rustig oor die klippertjies op 'n eensame weg na die groot oseaan.

In die lug sweef groot, sneeuwit lugpaleise rond. Dit laat jou onwillekeurig terugdink aan die skepping, die wonder van die natuur, die enigste middel wat werklik troosting vir 'n vermoeide siel kan gee.

'n Eensame arend sweef stil-stil, gedra soos die wolke op die wind, kompleet asof hy moet waak oor die vredsamese stilte.

Die windjie suis sag deur die rietpluime en beklemtoon die stilte van die omgewing, hier waar daar nie 'n gejaag na wêreldse rykdomme is nie en waar die geklink van geld nie die rus versteur nie.

Dan kruip die skemer stadig oor die rante nader en die son se laaste strale loer verlangend oor die horison. Die volgende oomblik word ek bewus van die magtige simfonie van die veld. Duisende voëls en diertjies vorm die musikante en nêrens word 'n vals noot geuit nie.

Terwyl die nag geruisloos om die aarde vou, volg ek peinsend die voetpaadjie na die ou, verlate opstal. In die verte is die geluid van 'n jakkals hoorbaar en die klaende mondfluitjieklanke vind weerklank in die siel van 'n eensame mens.

In die vuurherd het ek uiteindelik 'n stomp aan die brand. Onder die hipnotiserende invloed van die lekkende vuurtonge gee ek my gedagtes vrye teuels. Ek herinner my nog hoe ek vroeër, doodgelukkig as kleinboer om die vuur gesit het met my getroue vriend, Snippie, my hond, langs my.

Ek onthou nog hoe ek soms buite gesit het, verkyker in die hand, en byna elke ster aan die hemeltrans geken het.

So bring ek ook die Sondag alleen in die skoonheid van die natuur deur. Ek kan dit net nie verstaan hoe sommige mense gelukkig tussen 'n klomp rumoeriges op straat kan leef nie. Ek is maar net nie van dieselfde hout as hulle gemaak nie. Vir my bring eensaamheid geluk.

Dan moet ek my maar weer op die weg van die ongeluk begeef, na die rasende stad waar ek weer tot Vrydag agter die stuur van die skommelende bus moet sit.

J. E. Potgieter, St. 10A1.

die jaar 2000

Baie mense beskou die jaar tweeduisend as 'n inleiding tot 'n „nuwe lewe.” Dit sal die eeu van die lugaangedrewe motor wees, dit wil sê, motors wat op verskillende hoogtes kan vlieg op 'n lugkussing — immers 'n radikale verandering ten opsigte van die bekende wielaangedrewe voertuie.

Ook, soos reeds in Japan en Frankryk, sal daar sneltreine wees wat vierhonderd kilometer per uur en meer ry — en dit nogal op één staaf.

Op die mediese gebied sal kanker genees kan word en die oorplanting (en miskien skepping) van liggaamsdele na 'n ander liggaam moontlik baie alledaags wees.

Reeds is ruimtereise vir ons nie meer so vreemd nie en die Amerikaners wat belowe het om 'n man op die Maan te hê voor die einde van die vorige dekade, het belowe om mense op Mars te hê voor die einde van die volgende dekade. Ook het hulle voorspel dat die eerste baba voor die begin van die volgende eeu op die Maan gebore sal word in 'n klein kolonie.

Wat behuising betref: slegs die rykes sal huise besit, maar die gewone man op straat sal nie in 'n „gewone” woonstel bly nie. Nee, dit sal 'n huisekompleks soortgelyk aan die bekende woonstelle wees, waar elkeen sy eie klimaat, tropies of koud, sal kan bepaal deur 'n klein skakelbord.

En die „onmoontlike” wens van elke leerling sal na aan verwesenliking wees. Hy sal nie meer „leer” soos teenswoordig die geval is nie, maar sy verstand sal slegs geprikkel word deur 'n elektroensofalograaf wat aan 'n goedgeprogrammeerde komper verbind is. So sal 'n leerling 'n skoolloopbaan se werk in moontlik 'n kwart van die tyd „leer”.

Maar is dit hoe die jaar tweeduisend gaan wees? Dit is immers slegs 'n bespiegeling! Daar is dinge wat hierdie drome kan verongeluk — dinge wat nie 'n ongeluk nie, maar 'n katastrofe gaan word as daar nie vinnig opgetree word nie.

Suid-Afrika se bevolking verdubbel elke nege en twintig jaar, dit wil sê, behuising, werkgeriewe en so meer moet dan verdubbel wat in makliker terme beskryf kan word as 'n „Johannesburg” wat elke jaar opgerig moet word.

Alreeds is Amerika die suksesvolste in die wêreld se powere poging om die sogenaamde „bevolkingsontploffing” te stuit.

In 'n onlangse eksperiment is voorsiening gemaak vir geriewe vir vierduisend muise, maar hulle het nooit meer as twee-duisend-tweehonderd geword nie en begin uitsterf tot die huidige 180 — almal van wie in verhouding tot die mens tagtig jaar oud is.

Volgens die wetenskaplikes is die laaste jaar wat 'n poging aangewend kan word om so 'n lot te keer, oor twaalf jaar — 1984.

Ook is die voedseltekort van die wêreld 'n aktuele vraagstuk, want teen 1980 sal die toestand van 'n algemene hongersnood onvermydelik word. Nou al sterf honderde duisende mense jaarliks weens wanvoeding of hongersnood.

En steeds styg die wêreld se bevolking teen 'n fenomenale tempo, die werkloosheid skiet die hoogte in en dan bou ons mooi droomkastele vir die volgende eeu!

Slegs mense met 'n hoë mate van geleerdheid slaag daarin om te lewe. Selfs die fisiese sterk mense word verteer deur die besoedelde lug wat in baie wêreldstede reeds 'n a'grylike werklikheid geword het.

En hierdie geleerde mense se kennis is ook beperk, want elke 7 jaar verdubbel die bestaande kennis van die mensdom, 'n kennis wat aangewend is om kernwapens te maak en 'n kennis wat wel vir 'n teenmiddel moet en sal sorg.

Maar steeds droom ons soos 'n moroon wat dokter wil word van 'n „nuwe lewe” in die jaar tweeduisend.

Gert Lamprecht, St. 10A1

bosveld-prag

Agter die rysige gestalte van die Blouberg wat soos 'n wagter oor die velde troon, loer 'n laaste sonstraaltjie nog verlangend na ons wêrelddeel. Dis Bosveld-schoonheid — alles so wonderlik, so na aan volmaak!

Net die spookagtige gemurmel van 'n stroompie wat rustig sy pad deur bosse en ruie bergwêreld soek, verbreek die stilte. Dis hier waar my verwarde en vermoeide siel genesing kan vind — waar alle sorg en kommer in die niet verdwyn.

Die sagte windgesuis deur die blare van die knopiesdoring en hardekoel bring 'n geheimsinnige bekoring teweeg. Hierdie aandwindjie met sy koel, strelende vingers is die lewende asem van die veld wat ook my longe binnestroom en die krag in my bloed laat bruis. Dis lewe hierdie!

Duisende sterretjies begin reeds liefderyk vir my knipoog, terwyl die nag stadig sy swart kleed oor my begin toevou. Terwyl 'n paar massiewe kremetartbome teen die blomende horison afgeteken staan, weerklank die eensame gehuil van 'n jakkals deur die dun aandlug, en hierdie hartseer vind weerklank in die diepste van my innerlike. 'n Tortelduifie begin half onseker en hartseer te koer. Miskien voel hy net so alleen soos ek . . .

Die sekelmaan hang nou geheimsinnig tussen die flankerende sterretjies daarbo en die swart boomtakke staan soos verstyfde spookvingers in die dowwe maanlig. 'n Snaakse, onredelike heimwee oorval my vanaand — 'n swaar kruipende verdriet wat soos 'n blinde voel-voel in die donker rondsoek.

Maar tog — dit is hier in die verlate Bosveld waar die natuur so duidelik tot 'n mens spreek, waar ek wil bly. Die vrye uurtjies is so seldsaam, so raar, maar juis daarom so vol lewe, dartelende vreugde.

Bosveld-prag — wat 'n wonderlike bekoring!

Willie van Heerden, St. 9A1.

gedagtes as die skemer daal

Rooi. Die kleur van die vlieswolkies in die strale van die son is rooi. Hulle is so dun, so weerloos soos 'n spinnerak. Maar iets versper my uitsig, dis vier ystertradies. Hoekom is ek hier! Ek weet nie.

Ek is hier van daardie aand af, die aand toe ek met Buksie in die park gaan stap het. Dit was koud daardie aand en ek het 'n snaakse gevoel in my gehad. Toe het ek haar gesien, sy was so mooi, so weerloos, Ek het agter 'n bossie gaan lê en lank na haar gekyk. Toe kry ek weer daardie gevoel. Sy het gegil toe sy my sien, maar ek het haar gegryp en gesê sy moet stilbly. Sy het my gekrap, dit was seer.

Die lang blonde hare was bloedbevlek en sy het tussen die nat muwwe blare gelê. Sy was nie meer vir my mooi nie, haar gesig was dan weg. Buksie het saggies begin tjank, ek het gehuil toe ek hom verwurg het.

Toe ek by die huis kom het Mamma my gevra wat gebeur het. Sy het gehuil toe ek haar vertel. Hoekom?

Die oom in die blou klere het my kom haal. Hulle het gesê ek gaan vakansie hou. Ek hou van vakansie.

Maar nou is ek hier in hierdie snaakse sagte kamertjie. Tot die mure en die deur het ook mat. Die wolkies is nie meer rooi nie, dit is donker. Donker.

Frans Coetzee, St. 8A2.

so onthou ek vir tant san

Ek loop al met die geselsende ou stroompie af. Ai, waarom kan ek nie soos hierdie stroompie wees nie. As ek sonder gevoel was sou die aanslae van die lewe geen indruk op my gemaak het nie. Maar hoe sal ek nou lyk as ek in 'n stroompie moet verander.? My gelaat helder op soos 'n glimlag sy pad oopbaan deur die trane.

Dit is vir my net of Tant San se silhoeët altyd in my onderbewussyn bly. Ja die lewe vra geen genade nie en gee ook geen genade nie. Gister het ek nog om die klipharde graniet van haar graf vasgekyk. Toe die ou swaar kis statig in die graf afsak was dit vir my

die ewebeeld van haar lewe. Haar statige houding was kenmerkend van haar karakter.

Sy het vir my 'n moeder geword in die sewe jaar wat sy by ons gebly het. Hoe sal ek dan die eerste Kersfees vergeet wat ons saam gevier het. Sy het ons almal moederlik byeengeroep en ons toe almal omhels. Ek onthou nog sy het na amandels en lekkerruikseep geruik. Van toe af was dit die hartlikste reuk op aarde vir my.

En nou het alles skielik verbrokkel en verkrummel. Daardie paleis wat ek gebou het is nou stukkend. Ek wil so opstandig word en net aanhoudend vra "waarom?" Maar dan onthou ek dat een van Tant San se spreekwoorde was „Berus jou in jou lot."

Nou dat ek daaraan dink wel 'n warm gloed van skaamte in my gesig op. Ja, ek is ondankbaar, want ek het 'n lewende ouerpaar en 'n broer.

Ek vee my trane af en kyk vir die laaste maal na die graf, draai om en hardloop huiswaarts. Ek het my nou in my lot berus. Ek weet so sou U dit wou gehad het.

S. Hugo, St. 6A1.

gedagtes as die skemer daal

Terwyl ek hier op ons plaas se stoep sit en kyk hoe die aarde die son insluk, voer my gedagtes my ver — na rustigheid, na vrede. Die kiewiet op die vlakte, wat skreeuend, skertsend, so heil soek.

Ek dink aan my kinderdae, toe alles nog so eenvoudig was. Skielik word ek uit my drome geruk deur die skreeu van 'n wildegans. Dan weer stilte. Die voëls kom tot rus in die gladde water. Water wat die simbool van reinheid is.

Ek dink aan my Skepper. My Skepper wat al hierdie wondere van die natuur geskep het. 'n Gevoel van diepe dankbaarheid wel in my op. Stadig sluk die aarde die son in, en die wolke wat goudgeel word, voorsien die landskap van 'n geweldige kontras.

Ek dink aan die goud van die wolke. Geld. Hoe-kom is die mens se drang na geld so groot?

Stadig begin die aandwindjie lang veë deur die goudgeel koring te vee. Koring, die oes. Ons lewensmiddel. Weereens dank ek my Skepper in die stilte van die skemer. Daar steek nog net 'n puntjie van die son uit. Die geheimsinnige sekelmaan word al hoe helderder. Daar ver skreeu 'n jakkals. 'n Jakkals wat sy bestaan moet maak deur te moor, te roof en te plunder. Waarom moord? Waarom onenigheid?

Die son is weg. Die briesie word sterker. Die diere slaap al. Sterre verskyn. Stilte.

F. Enslin, St. 8A2.

rugby

Vir die eerste keer in 3 seisoene het die eerste-span 'n wedstryd verloor.

Vir rekord doeleindes:

	Gesp.	Gew.	Gel.	Verl.	Punte	
					vir	teen
1970 ..	14	14	—	—	237	14
1971 ..	17	15	2	—	273	28
1972 ..	16	15	—	1	416	34
Totaal	47	44	2	1	926	76

Die nederlaag het 'n heilsame uitwerking op die span gehad, want die spelers het nie meer geweet hoe dit voel om te verloor nie. Hierdie span het werklik van krag tot krag gegaan en teen die einde van die seisoen baie goeie rugby gespeel. Die span het 81 drieë gedruk, wat 'n puik prestasie is en ook beantwoord aan die hoofdoel van rugby nl. om drieë te druk.

Agt van ons seuns het vir die O.V.S. primêre skoolspan gespeel t.w. O. v. d. Merwe (vleuel), W. de Wet (senter), H. Human (senter), J. Jonck (losskakel), W. du Plessis (haker), H. Olivier (flank), M. van Tonder (slot), W. Arndt (Agsteman en Kapt.) en T. Vermeulen (skrumskakel).

Die eerste span het die O.V.S. Primêre liga met Wilgehof Primêr gedeel, terwyl die tweede span al 12 sy wedstryde gewen het.

Geluk aan al die spelers vir die aangename rugby-seisoen en mag julle nog groot hoogtes bereik.

S. Strydom.

cricket

Cricket at the Primary School is well attended and the sides in the league have all fared very well. A number of our boys are in the running for a place in the O.F.S. Primary Schools side. The first team also travelled to Johannesburg where they played against Auckland Park.

During the fourth term two Johannesburg schools, Auckland Park and Louw Geldenhuys will visit us.

A word of thanks to the teachers for the long hours spent in the sun, as well as Mr. Colin Bland for his coaching. This season 1972—'73 Mr. Mike Buss will coach at Grey. We sincerely hope that he will enjoy the time at Grey.

S. Strydom.

swimming 1972

The 1971—'72 swimming season was a rather mediocre one as far as Grey College Primary was concerned. We entered an under 8, 10, 12 and 14 team in the O.F.S. Schools Gala, but only managed to come away with honours in the under 12 section. This was because of such swimmers as W. Arndt who swam well.

In the under 8 section G. du Toit brought in points. The under 10 section did not have much success although they ended third in their section. The under 14's with A. van Jaarsveld at the helm had a certain amount of success although they had to compete in a section with high school boys.

With the formation of a club now at Grey we hope to improve our swimming.

A special word of thanks to Mrs. S. Dempsey and Mrs. C. Nelson for their help during the season.

R. A. Böhmke.

tennisette

Groot prestasies is die afgelope jaar in tennisette behaal, en sedert die begin van hierdie jaar, het die belangstelling geweldig toegeneem. Daar is reeds vier groepe elk bestaande uit 15 entoesiastiese spelers,

J.B.M. Hertzog en Jim Fouché moes weereens die onderspit delf in al die liga-wedstryde.

In die Bloemfonteinse-Kampioenskappe het Jean van Rensburg die enkelspeltitel sowel as die dubbelspeltitel saam met Joubert Strydom ingepalm. Verder is die gemengde dubbelspel ook gewen deur J. van Rensburg en sy maat. Grey-kollege is trots op hierdie spelers sowel as op die ander wat ook mooi vertoon het.

Ten slotte sê ons aan al die spelers en onderwyseresse wat vanjaar 'n bydrae tot Grey se tennisette gelewer het, baie dankie. Ons hoop om volgende jaar nog beter te presteer.

P. Malan.

tennisverslag

Gedurende die Bloemfonteinkampioenskappe het W. Smit die driekuns behaal. Hy het die o/12 enkels, en saam met J. Symington en sy meisiemaat onderskeidelik die dubbels en gemeng gewen. M. Marais en J. Richter het ook die o/14 dubbels gewen terwyl J. Jonck en M. van Tonder in die semi-finaal uitgeskakel is.

Ook in die O.V.S.-Juniorkampioenskappe het die tennisspelers hulle slag gewys. Smit en Symington is in die finaal uitgeskakel en is ons trots dat M. Marais en sy maat en Van Tonder en Jonck die enigste primêre skool-seuns is wat die o/14 semi-finaal bereik het.

Toere:

Met 'n erg verswakte span speel ons gelykop teen Louw Geldenhuys van Johannesburg. Ons Septembertoer na Durban was baie opvoedkundig en leerzaam. Die eerstespan het teen Northlands Primary met 43—27 gespeel; die tweedespan het teen Durban North met 41—29 gespeel en verloor.

Die hoogtepunt van die jaar was die pragtige spanpoging gedurende ligawedstryde. Die eerstespan het die liga onoorwonne afgesluit, terwyl die tweedespan net teen ons eerstespan verloor het. *Uitslae was soos volg: (spelle):*

Grey — Eerstespan 357; Opponente 39.

Grey — Tweedespan 279; Opponente 111.

Ons opregte dank aan alle ouers, seuns en onnies wat meegehelp het tot 'n baie geslaagde tennisjaar.

D. H. Viljoen.

atletiek

Die atlete het hierdie jaar werklik ywerig en gereeld geoefen. Ongelukkig kon hulle voor die Tussenskoolse Byeenkoms net aan een byeenkoms deelneem en het dus nie genoeg mededingende oefening gekry nie. Tien atlete is ingeskryf vir die Tussenskoolse Byeenkoms. Hulle is T. Vermeulen, M. Marais, W. Klopper, O. van der Merwe, S. Jacobs, J. Redelinghuys, J. Swart, N. van Zyl, H. Hugo, en R. Botha. Vier van die naellopers het in die finaal van hulle onderskeie naellope gehardloop. J. Redelinghuys het 'n derde plek behaal.

Ons sien almal uit na die 1973-seisoen en atlete wat hulle dan goed van hulle taak behoort te kwyf, is J. Redelinghuys en G. Smillie.

C. Bester,
W. Lombard.

under 11 soccer

The soccer season started off with about sixty boys taking part. Because of this large number of boys and only two teams entered in the respective leagues, a league of our own was started, with 4 teams participating. This, most definitely, improved the general standard of play and interest was kept alive.

The under 11 A-side finished third in the league, while the B-side went through the season unbeaten.

After replaying twice, the A-team went out to Brebner in the knock-out. The B-team showed tremendous fighting spirit in going down to C.B.C.'s A-team, by two late goals.

The following boys were selected to represent the S.F.S. under 10-side against N.F.S.: R. Julius, P. Fraser, D. de Villiers, N. Piper and A. Aronson.

Finally, a special word of thanks to Mr. G. Gerber for his appreciated assistance.

W. Lombard,
L. Mould.

under 13 soccer

This year primary school boys played in the Under 11 and Under 13 Leagues instead of Under 10 and Under 12.

Grey Under 13A, very ably captained by Robert Lunt, had a successful season and became the first Under 13A League Champions. The team was unbeaten in the first 8 league games. Only the first 2 games were drawn. After they had already clinched the league title, Grey lost the last league game 2—1 against St. Andrew's.

In the K.O. competition, Grey swept through the qualifying rounds with victories of 9—1 and 7—1 against Brebner B and C.B.C. A respectively. In the final, however, Brebner beat Grey 2—1.

Two friendlies were played against Johannesburg schools and Grey was beaten 4—1 and 3—1 by St. Stithians and Yeoville respectively. In the game against Yeoville Grey played excellent soccer.

Grey B did equally well by winning 5 games, drawing 1 and losing 3. They finished with 11 points from 9 games — the same as Brebner and St. Andrew's. Victories of 6—0 and 5—1 in the last two league games against these 2 schools gave Grey a superior goal average and the top position on the log.

Several Grey boys represented S.F.S. this year. Dan Bryer, Robert Lunt and Colin van Rensburg played in the National Under 13 Tournament. In a game against Northern Free State, Dan Bryer, Robert Buck, Kevin Feather and Lloyd Griessel played in the S.F.S. Under 12 side.

J. C. B. Claassens

under 11 cricket

Since the beginning of the 1971/1972 season, both Grey A and Grey B have played in the Under 11 A League. In the last game in 1971, Grey B played a great game and beat St. Andrew's on their own field. This year the B Team once again proved that they can hold their own in the A League. In games against C.B.C. A and Brebner A, Grey B was narrowly defeated.

under 11 cricket

Grey A did exceptionally well and won all their matches quite easily. It was thus no surprise when no less than 7 Grey boys were selected to play for Southern Free State. They were Robert Blom, Gavin Griessel, Johan Schmidt, Joubert Strydom, Corrie van Zyl, Ewert Venter and Peter Waddacor.

Grey C, playing in the B League, did equally well and won most of their games against B teams from the other schools.

At the end of the first term the beginners played a very exciting game. With only 3 balls left in the final over of the game, the last std. 1 wicket fell and a std. 2 side won the game by just 1 run!

J. C. B. Claassen.
L. Mould.
N. van Rensburg.

onder 10 rugby

Waar rugby as wintersport by Grey-kollege baie aandag geniet, was dit dan ook vanjaar verblydend om te sien hoe baie seuns onder die ouderdom van 10 jaar daaraan deelgeneem het.

Ons het geesdriftig begin en so geëindig. Dit was 'n baie aangename groepie seuns en 'n goeie gees het tussen die spelers geheers.

Hierdie seuns is steeds bewus gemaak dat eerlike, gereelde en harde oefening die basis vorm vir die speel van aantreklike rugby en dat die doeltreffendste rugby gespeel kan word deur met die bal te hardloop en flink aangeë te beoefen. Onbeplande skopwerk is voortdurend ontmoedig. Wie sal Wimpie, Buks, Wootten, Leon, Stefan en nog baie ander se naellope en drieë vergeet?

Mag die geringe bydrae van hierdie seuns lei tot die bou van 'n gedugte skoolspan in die volgende jare.

S. J. Muller.
H. Badenhorst.

onder 11 rugby

Dit was voorwaar aangenaam om hierdie jaar afriqter te wees van sowat 106 lewenslustige spelers. Ons dank ook aan die spelers wat min wedstryde gespeel het en nogtans gereeld kom oefen het. Die vrugte van die gereelde oefening is ook gepluk as 'n mens daarop let dat die A1 -span 106 drieë gedruk het terwyl slegs 1 teen hulle gedruk is. Die spelers

wat hier die meeste drieë gedruk het is: S. Regenstein (25), F. Greyling (24) en J. Redelinghuys (23).

Die A 2-span het ook in die eerste liga gespeel en uitstekend gevaar deur 6 wedstryde te wen en 4 te verloor. Die B 1-span het ook hul liga gewen terwyl die B 2-span ook al hul wedstryde gewen het.

Die volledige uitslae is, in volgorde wedstryde gespeel, gewen, verloor, gelyk, punte vir en punte teen:

A 1	..	14	13	0	1	467	7
A 2	..	11	7	4	0	101	66
B 1	..	3	2	0	1	63	4
B 2	..	3	3	0	0	60	4

N. van Rensburg.

scout and cub report

Scouters. Corkie Lock and D. Worth both left us but Charles Wright, David Blair and Gavin Brown joined our ranks of assistant Scouters.

Roll. Our numbers have dropped to 63.

Achievements: D. Blair has earned the Chief Scout's Award while D. Green, M. Eloff, A. Nelson and C. Sampson have their First Class Badges. Fourteen others have their Second Class and 12 their Trekker Badges. Of the numerous (62) Proficiency badges passed there are 14 Frogman's Badges earned through the coaching and help of Mr. B. W. Estment and the Bloemfontein Sub Aqua Club.

Outings: The Seniors camped out for weekends on Thaba 'Nchu Mountain and at Bishop's Glen, while the Juniors camped out for two weekends at De Wet Park, Thaba 'Nchu.

D. Green attended the Chief Scouts Bush Camp in the Kruger National Park in July where he had the honour of being a Patrol Leader. Seven Scouts from Grey College went on the Zululand Hike. During that time they covered 172 miles and helped extinguish a veld fire. The Grey Scout/Voortrekker-Gala was again a great success.

Other Events: The Junior Scouts (u/14) won their section while the Seniors were runners-up in theirs in the District First Aid (and Sports) Competitions. The same happened in the District Soccer Competition.

The Scout Hut has been extended and a Pioneering Gate and fence erected in front of it. Thanks to the Group Committee and Scouters.

Cubs: At the end of 1971, we lost the valuable services of Mrs. Wright, Mrs. Muller and that of Mrs. Britz during this year due to transfer. But we have acquired the services of Miss Webb and Mrs. Greeff as A.C.M.'s and Miss Pat Bailes as C.M.

We ended off last year with a roll of 60 cubs but the numbers have fluctuated through transfer of parents, as well as interest in winter sport, mainly soccer and rugby and at the moment our numbers are 38, with the possibility of another 10 Sub. B pupils joining during the 4th term.

The progress of the boys was very good as seen by the numbers of badges earned, among them four Leaping Wolf Badges. Many of the cubs have "Gone Up" to Scouts and are doing very well there.

The Cubs have participated in all District events and won the Sports Day, First Aid Competitions and were runners-up in the Soccer, having lost in the finals to Brebner.

The ladies in charge (Cub Masters) arrange outings every term for the boys, and parents assist where help is required. The last outing of the year is a camp at De Wet Park for the weekend starting 10 November.

Roll of Scouters:

Scout Master: Ronnie Nelson.

Asst. G.S.M.: R. Bohmke.

A.S.M': C. Wright, D. Blair and G. Brown.

Cub Master: Mrs. S. Koning; Miss P. Bailes.

A.C.M's: Miss H. Webb; Mrs. Greeff.

Group Committee 1971:

T. Roering: Chairman.

O. Hodgskin: Secretary.

K. Wright: Treasurer.

Other Members: Mr. & Mrs. R. Webber, Mr. & Mrs. Cousins, Mr. E. Eloff and Mrs. Martin.

T. J. R. Douglas,

Group Scout Master.

13th grey college scout hut

I am not sure when the Scout Movement began at Grey, but Mr. L. Goldes, a keen local supporter was a cub in 1922 with Sgt. Walker as Scout Master.

In 1929, Sgt. Walker and his Scouts decided on the erection of a Scout Hut. How Sarge Walker acquired his material is very interesting. They completed their hut in 1930 and, for them, it was quite adequate with a cellar for storage.

In 1959 when Mr. Bob Nuns revived Scouting in Bloemfontein, numbers grew and the Scout Master, Dassie Grant, found the hut too small and the roof far from leakproof. So in 1961 the Group Committee began planning a bigger hut. Mr. Scott, the Chairman, Mr. Mahaffey, the Secretary, and Mr. Ken Wright, the treasurer, and the members put their shoulders to the wheel and collected funds by various functions while the boys contributed with their Bob-a-job and paper collecting efforts.

A start on the hut was made during the December holidays of 1964 with Mr. du Preez as the new Chairman. Fathers, mothers and boys all gave a hand and it was ready for use by April. Actually they built a front section onto Sarge Walker's building and broke away the intervening wall. This effort cost them just under R1 000.

Mr. J. van Vuuren, the next Chairman of the Group Committee, commenced immediately in raising funds for the completion of the hut, and was just about to commence the building when we were informed of the new building plans for Grey itself,

after the completion of which we would receive accommodation in the present K.G. buildings.

The present Chairman, Mr. T. Roering, seeing the precarious condition of the original Sarge Walker building and hearing that the School plans were shelved, got stuck in so that, within two months of their decision to build, the extension was completed and opened at a social function on the 25th of August.

There is still much to be done but we are very thankful to the various Group Committees and parents for what we have received, and we now possess a Scout Hut, of which the Scouters and boys are very proud.

ouboet

Ek kry myself partykeer baie jammer, want sien, ek is die oudste. Arme ek!

Na my kom 'n boetie. Ons slaap saam. Partykeer is dit baie lekker, maar die meeste van die tyd baklei ons so, dat ek somer wil wegloop.

Dan het ek 'n suster. Sy kan nogal lekker sokker en wegkruipertjie speel. Maar dan gil en skree sy so, dat ek maar liever 'n boek vat en lees.

Vrede het ek nie, want ek het my net lekker gemaklik reggeskuif, dan klouter my kleinste sussie op my skoot en soebat: „Boetie, baai bief.” Nou hoe verduidelik 'n mens vir so 'n klein dingetjie dat my biblioteekboek nie prente het nie? Maar al pla hulle my so, is ek darem baie lief vir hulle.

Louis Holtzhausen, St. 3A1.

the blesbok

The early settlers as well as travellers in South Africa recorded herds of thousands of the animals on the plains, but their slaughter for food, to satisfy big game hunters or to make way for agriculture reduced their numbers to a precarious figure.

Blesbok are small antelopes standing over 4 feet at the shoulder and weighing over 150lb. They are very similar in size and colour to the closely-related bontebok antelope. The coat is soft, rufous brown on the back, becoming almost black and very glossy on the rump. Around the base of the tail there is a patch of white but this is not nearly so conspicuous as that of the bontebok. A white blaze runs from the horns, down between the eyes and spreading over the nozzle to the nostril. Between the eyes the blaze becomes constricted and may appear as two blazes. In Calves the blaze is black, becoming lighter as it grows older. By the age of one year the blaze is mottled and it is white by the mature.

The horns, which are carried by both sexes, are described as lyrate because of their lyre-like appearance. Viewed from the front, they bend away from each other straightening out vertically. At the same time they curve back, over the neck. The horns grow to lengths of 18 inches.

Class: Mammalia.

Order: Artiodactyla.

Family: Bovidae.

J. du Toit, Std. 3A

the man and the monkeys

In the olden days there was no transport and everybody had to walk from one town to another. One day a traveller selling caps, was on his way to a neigh-

bouring town. He carried a bag of caps over his shoulder and on his head he had a beautiful cap as an advertisement.

Hot and tired, he passed a forest. He thought that he would rest there but soon he fell asleep.

There were many monkeys in the trees. The monkeys were very inquisitive and they jumped down to come and investigate. Then they saw the bag with caps and everyone grabbed one and put it on its head. They jumped back into the trees and watched the man.

When he woke up he wanted to continue his journey. Then he saw the bag with caps was missing. He looked up into the trees and saw the monkeys with the caps. He begged them to return the caps but they did not understand him. He climbed into the trees to catch them but they jumped onto thin branches so that he could not reach them.

He stood on the ground and very crossly he threw his cap onto the ground. The stupid monkeys did the same.

He quickly gathered the caps and put it into the bag. Then he continued on his way to the next town.

M. van Tonder, Std. 5A1.

my pa se snor

Gisteraand so in die donker lê ek op my bed en dink somer aan alles en nog wat en skielik kom die vraag by my op. Hoe sal ek eendag as ek groot is lyk met 'n snor, want sien my pa het so 'n grote. My ma sê dit lyk soos 'n besem, maar my pa is nie 'n bietjie trots op sy snor nie.

Vandat ek kan onthou het my pa maar sy „besem”. Partykeer sit hy hom so met die voorvingers en stryk. Nou het ek maar net gewonder hoe sal ek lyk met so 'n besemsnor.

Heinrich Kuntzman, St. 3A2.

i am a banana

It is not so nice to be a banana because I grow on trees, and when I am ripe everybody wants to eat me, I wonder why? The people first put me in shops and want to sell me, I wonder why?

Shhhhh!! here comes someone, I think he wants to eat me, it looks as though he has stolen something, well I will see, and he has also eaten someone else, oh! shucks I will have to put something on the ground so that he can trip and fall. Oh dear here come the police and the crook has fallen, now the police can catch him for the thieving he has done!

K. Steele, Std. 3E1.

my hobby

My hobby is keeping goldfish. My tank measures thirty inches by twelve inches and it is twelve inches deep. I have seven fish, a Matted Veiltail, a plain Veiltail, a Calico Veiltail, a Comet, two Black Moors and a Shubunkin.

Feeding them every day is not all you have to do. The tank should be cleaned at least once a week. First I siphon it clean with a rubber tube then I clean the glass. This is done with a blade attached to the end of a stick. The time spent on cleaning the tank is little, but important.

I enjoy my hobby very much and some day I would like to breed fish. The female lays 1 000 to 5 000 eggs. Help! What do you do with all those fish?

D. van der Spuy, Std. 3E1.

saved by my dog

One day my father decided to take me hunting with him. We packed our lunch and guns and we also took Zoro, our hunting dog. We started on our way to a farm in the Hoopstad district. Soon we were deep in the bushes looking for guinea-fowl.

I never noticed that my father had moved on and I found myself all alone with Zoro. As I stood there trying to decide which way my father had gone, Zoro began to growl and his hair stood up on his back.

I looked to see what was troubling him and stared in horror as I saw a long, thick snake about to spit at me. Zoro seemed more angry than frightened and began circling the snake. Suddenly he attacked the snake biting it at the back of its head till it was dead. By the time my father had arrived the snake was already dead. I had been saved by my dog. When I got home I bought Zoro the biggest bone I could get.

N. Vrahimis, Std. 3E1.

maitland street

Maitland Street is a street well known for its shops and for being the main street of Bloemfontein. I think it's more "famous" for its Maitland Street "cowboys". These Maitland Street "cowboys" are a bunch of wild lunatics who race each other at every robot along the street.

They mainly drive third hand cars like Corsairs, Cortina's, G-T's, Anglias and Renaults. Most of them have just received their driving licenses and they think that they own the road. A lot of them try

to hot up their cars by adding little extras such as chrome-plated exhaust pipes, special hub-caps and fancy rear-view mirrors. Maitland Street is now full of pot-holes and has to be re-tarred.

J. Corfe, Std. 3E1.

the zululand hike

I belong to the 13th Grey College scout troop. A hike of 175 miles through Zululand was arranged for us. This took place during the July holidays. 36 Scouts from the O.F.S. went. The rest of the scouts went by car or train, but my father and I went by car. We met the scouts at Dundee. From there we went by truck to Ntutu in Zululand and at a place called the St. John's Memorial Hospital, we made base camp.

We slept there for two nights. Then we walked to C. Bunting's farm which was 25 miles from Ntutu with full kit. We slept at Bunting's farm for 5 days. We hiked to Rorkes Drift and to Mt. Isandlwana. When we were walking to Mt. Isandlwana most of the scouts fell into a river which we had to cross. One of the Sea scouts from Welkom lost his shoe whilst crossing the river and a young Zulu who was leading us got hold of it. At Rorkes Drift we saw a Museum and we found many buckles of belts and pieces of broken bottles. We heard of many an animal by the name of a Zutuwana. This creature has 4 small legs and has no teeth. On the end of its tail there is a sharp blade which could cut down young trees.

The day came when we had to return to Ntutu. The next day was a Saturday. So my father and I went back home. The rest of the scouts stayed till Tuesday. Saturday afternoon a fire broke out and many of the Zulus and all the scouts had to fight the fire. The scouts saved the Hospital because the hospital had a grass roof. And looking back I remember the days I had all the blisters, and my poor feet.

G. Nelson, Std. 4E.

my visit to greece

I have just returned from a forty-two day tour of Greece and I thought to tell you all about it for our school magazine

I stayed two weeks in Athens and of course had a chance to go up to the Acropolis. The Acropolis was built in 456 B.C. It is in ruins now, but it really gave me quite a thrill to think that a lot of our history started here. The Parthenon which is on top of the Acropolis was the most magnificent and graceful building which ancient civilization ever produced.

I also went up Mount Lycavitos from where most of Athens with its tall white blocks of flats can be seen in all directions. To go up I travelled in a railway also called funicular railway.

What I really enjoyed most was the Evzones or so called Royal Guards, which change every two hours. The Stadium which was built in the fourth century B.C. seats 70,000 people. It was built out of marble as it stands today. It was used for the Olympic Games in 1896.

I also went to some villages and from there went to some Monasteries.

Greece is also very religious so you will find many churches and Monasteries.

The best of all was the swims I had, the sea of Greece is always calm, it never has waves and I could swim a long way out to sea.

I hope one day to be able to return to Greece and stay longer and see more.

N. Spiropoulos, Std. 4E.

kaptein matthew webb

Bykans elke jaar probeer iemand om deur die Engelse Kanaal te swem. Party slaag en ander is minder suksesvol. Daar word gewoonlik 'n baie deeglike studie van die weer gemaak voordat 'n persoon die kanaal aandurf. Toe die eerste man gedurende 1875 daarin geslaag het om deur die kanaal te swem, was die weervoorspellings heeltemal onbetroubaar. Daar was nog geen offisiële weervoorspellings toe Kaptein Webb, wat 'n sterk swemmer was, die kanaal deur geswem het nie.

Teen die einde was die weer uiters swak, maar Webb het wel daarin geslaag om ten spyte van alles, die oorkant te haal. Agt jaar later het hy deur die Niagara Rapids probeer swem, maar het verdrink. Hy was 35 jaar oud toe hy oorlede is.

M. van Tonder, St. 5A1.

besoedeling

Dié woord is op elkeen se lippe. Hoe word ons in Bloemfontein geraak deur hierdie gevaarlike monster van die toekoms?

Lugbesoedeling word deur fabrieke, naturelle-woonbuurtes, gifgasse, motors, vragmotors en busse veroorsaak. Om te besef hoe erg die toestand alreeds in Bloemfontein is, kan jy net op 'n Julie-oggend die stad vanaf Spitskop beskou.

Waterbesoedeling: Op die huidige tydstip spring ons nog hierdie toestand vry. Maar as daar myne of

fabrieke langs ons vernaamste bronne van watervoorsiening ontstaan, dan sal ons ook met hierdie euwel te kampe hê.

Omgewingsbesoedeling: Hierdie woord dek myns insiens 'n baie wye veld. Hierdie soort besoedeling begin by die morsjorse wat plastieksakke, leë kartonhouers, bottels en blikke rondgooi. Afvalprodukte wat by groot werkplase nie vernietig of weggegooi word nie, ontsier die natuurskoon.

Dan kom ons by die belangrikste aspek van hierdie toestand wat elke lid van die samelewing raak. Dit is die voorkoming van hierdie toestand wat menslike en dierlike voortbestaan bedreig. Afgesien van die bekamping van hierdie saak deur die regering en munisipaliteite, moet ons elkeen sy deel bydra om ons stad en omgewing van hierdie gevaar te probeer vrywaar.

Hendrik Olivier, St. 5A1.

i see an unidentified flying object

The topic of conversation today is that of U.F.O.'s. They have been seen in some parts of South Africa. One has been seen near Barkly West. The inhabitants that saw it fired at it with rifles, which I think was not very wise. I do not believe in this although every night I look into the sky and hope to see one.

One particular night I was invited to my friend's party. It lasted to about nine o'clock in the evening. On my way home I saw a tiny light in the sky. It came closer and closer towards me. Then it landed. I dived for cover but unluckily for me I dived into a rose bush. Silently tiny white men came out of the "Flying Object". Each of them armed with pistols. They looked for people around them that might attack them. Slowly they walked past me. I grabbed one and suddenly I heard a sound. It was like this—"Beep beep b . . b . . beep boeep."

I was very astonished at this. After I left the creature the U.F.O. took off without their man. Then the creature vanished. I ran home and told my parents. They would not believe me until they saw the cuts on my legs and arms from the rose bush. I would not want to have an experience like that again.

K. Smit, Std. 5E1.

lost in the knysna forest

A few years back a group of friends and I decided to hike to Knysna for the holidays. After travelling for several weeks and at night camping out on the roadside we reached the Knysna forests. We made our camp in a particularly pretty spot and had a night's rest.

The next morning we all went exploring the forest. I pushed my way into a very dense part where no sunlight penetrated. Suddenly I saw a small deer and started chasing it. It then disappeared into a bush and I started back to the camp, and, then, to my dismay, I found that I was hopelessly lost. Luckily I had a survival kit in my pocket, I knew I was going to need it!

The first thing I did was to find a stout branch to protect myself with. I was feeling hungry so I had some emergency rations and tried to find my way back again. My compass was not functioning properly and I could not find my footprints coming from the camp. Once I grabbed a branch to steady myself and it came alive in my grasp! It was a large snake. I clubbed the creature to death, but not until it had sunk its teeth into my hand. Having a snake bite outfit I injected the serum and continued on my way.

Three days later I heard the sound of chopping, and half dead from hunger and thirst I staggered into a clearing where a gang of workmen were felling trees. I collapsed and they drove me to the town where I was taken to hospital. A week later I was reunited with my friends and we continued our holiday in Knysna.

M. Crankshaw

the munich massacre

The Olympic Games was officially opened in the Olympic city of Munich on the 5th September, 1972. It was the 20th modern Olympic Games. Teams from all over the world took part. Among these teams was an Israeli team.

Four days before the Games started Golda Meir warned the Germans to take security precautions over the team because she was afraid that terrorists might get hold of the team. But even if the Germans took precautions it did not help. The "Black September" terrorists Organisation captured the team.

Once they had captured them they shot two. The terrorists demanded the release of two hundred terrorists from Israeli jails. If this was not done, then at six o'clock that evening the Israelis would be shot. In the meantime they had the Israelis taken to the Munich airport by helicopter.

The helicopter landed safely at the airport, but just as the terrorists got out a gun battle broke out between themselves and German police. One German was killed and five of the eight terrorists were killed. The remaining three threw grenades at the helicopters and also shot at them. The Germans later captured the three terrorists.

All the nine remaining Jews were killed. Later the Germans found out that one of the terrorists had been working in Munich for the past year. The

"Black September" terrorists organisation said that they would kill more people if the three terrorists were not flown to one of the Arab States.

The day after they were killed, almost the whole world was in mourning for them. The Games were also stopped and continued the next evening. Synagogues around the world held memorial services for the eleven Jews who suffered a most terrible death.

Stephen Sacks, Std. 5E1.

aircraft

For a long time, people thought that the best way for men to fly must be by copying birds. But all the attempts to make bird wings failed.

Leonardo da Vinci was a great scientist as well as an artist. He made a sketch of a helicopter in about the year 1500, he made many more designs but the machines were never really built. In 1783 the Montgolfier hot-air balloon first successfully lifted animals and then man. The miracle of flight by man had been achieved. English Baronet Sir George Cayley was the father of aeronautics, he built a glider in 1849 which could carry a boy.

Lack of engines held back early powered flight. Ader's steam-engine "Eole" travelled about 150 feet through the air. The greatest of gliders was the German Otto Lilienthal. In 1895 he made a biplane glider. The Wright brothers designed and helped to build the engine for their first flyer. It was a four-cylinder engine developing 12 horsepower. It weighed 179 pounds without its fuel. The Wright brothers also had to build their own propellers. I can not tell you about all the experimenting with biplanes and gliders because there are too many happenings, so I will jump right from 1985 to 1914 during the First World War. When the First World War broke out, very few aircraft were robust enough for fighting in the air. One exception was the Bristol Scout (1914). By the end of the war, the French designed the Spad XIII in 1917, which had twin synchronised machine guns, this aircraft was a very good fighter. The German fighter of the war was the Fokker D VII, which had superb performance even at altitudes above 16 000 feet. I will have to again jump in dates from 1917—1959. In the year of 1959 the Americans made the Boeing B-52 Strato-fortress, it may be one of the last of the giant long-range bombers. The French Dassault Mirage III, its jet thrust is 13 670 pounds and its maximum speed is 1 460 m.p.h. at 14 000 feet. The Concorde is a French aircraft and it can carry 144 passengers, seated four abreast. The Concorde's four Olympus engines have the total thrust of 152 000 pounds. This aircraft will transport passengers from Paris to Johannesburg in 4 and a half hours.

So it will go on and on, man will start landing on Pluto soon. It is fantastic how man started with a

hot-air balloon and now man flies to the moon in
rocket propelled crafts. One can say man has con-
quered the sky.

My Daddy has some instring coins.
I like my Daddies coins.

Owen Sorour, Std. 1e.

die jaar 2000

As ons almal al doot is en die ander mense leef sa
dit so modern wees. Die ro bot maniekies sal mense
op hi ling ront dra.
Die ro bort maniekies sal vir die mense wys hoe om
te ry.

Johan Loubser, Sub. Ba2.

when i was ill

Last Monday I played a very tough soccer match
luckily we won. I was very disobedient. I did not
put on my jersey. That night I started coughing and
I had a high temperature. The next day my mother
said I had caught a cold. The doctor came and gave
me some dreadful medicine. I was not allowed to get
out of bed. The next day I was fighting fit so my mo-
mother said I could go to school.

P. Tonkin, Std. 2e.

my hond-jie

Ek het 'n hond-jie ge-hat. Hy was 'n baie soet
hond-jie.

As ek die kof-fers in 'n reguit ry pak gaan ek na die
ander kand en hou 'n stuk-kie kock dan spring hy
oor. Naderant het hy sere gekry en toe het hy dood
gegaan.

Elma Cronjé, Sub. Bal.

my naughty puppy

My puppy is dark brown in colour. His name is
Bimbo. Bimbo is a pup that is full of mischief. One
afternoon while father was sleeping Bimbo jumped
on the bed and started chewing his toes. But Bimbo
looked at my father's ear, took a bite and was gone.

The next day while chasing the cat, Bimbo knocked
the radio over. Smash! The radio broke. Poor Bimbo
got the hiding of his life.

R. Wootton, Std. 2e.

my katjie

My kat-jie is baie soet. As my Pappie die katjie se
sand in bring gaan die kat-jie da-de-lik op die sand
sit plaas dat hy dit by tekand doen. Ek het my kat-jie
lief. My kat-jie slaap by my. My kat-jie maak nooit
op ons mat-te vuil nie.

Magdalena Loubser, Sub. Bal.

Ek speel rakkie by die skool ons het filoor, die anir
span het giwen.

Philip Snyman, Sub. Aa2.

die lughawe

Op die Lughawe staan baie soorte vliegtuie.
Daar is harvards en dekoutas. My Pa is 'n loods.
Daar kom baie Boeings op die aan loopbaan land.
Daar staan ook brandweerwans op die aanloopbaan.
Die vlietuie raas baie. By die bejeertoring verkoop
hulle lekkers. Die vliegtuie moet in die wind ops tyg.

Daar is honderd liggies in die bejeertoring. Die
bejeertoring het glas deure. Die vliegtuie is baie
mooi. Die harvards is rooi.

Johan Conradie, Sub. Ba2.

Kyk hoe lyk my Hont my pa het fir my Die Hont
Gi koop by die niektis sy maats kom altyt dan slaan
ek. Hilli met 'n lat en dan Harkloop Hilli Weg.

Driesie Venter, Sub. Aa2.

Ons kat gaan kluinkies kry nou gaan my maa i
kraaminrigting maak nou is my susie baaij bly.

Marius Combrinck, Sub. A1 Afr.

ons het i hond gehat. Hy was baie stout Hy het
gaati gi grou Hy kan i jakils vang.

Anton du Plessis, Sub. A1 Afr.

'n nare ondervinding op skool

Een oggend, terwyl dit storietyd was, het ons klas 'n nare ondervinding gehad.

Ons juffrou was besig om vir ons 'n grillerige storie van 'n sluipmoordenaar te vertel.

Die sluipmoordenaar was in 'n vrou se woonstel. Net toe sy die deur oopmaak, gewaar sy dat alles nie pluis is nie. Meteens sien sy twee voete onder die gordyn uitsteek. Teen hierdie tyd was die klas al baie gespanne, en toe gebeur dit. Met 'n vreeslike lawaai het die hout-hondjie wat in ons klaskamervenster was, afgeval. Die gespanne klas het aan die gil en skreeu gegaan. Party het banke omgestamp en selfs juffrou se oë het stokstyf gestaan. Ander onderwysers het kom kyk wat die lawaai veroorsaak het, en lekker gelag.

Jaco de Wet, St. 1A.

grappie

Die driejarige Klasie het altyd rubarber in die tuin geplant want hulle was altyd lief vir rubarber-pasti. Een oggend kom Klasie uitasem die huis ingeeardloop en hy sê: „Mammie, kom kyk, die paaihgroei.”

F. Frikkie H.

winkel speel

Die seuntjie kom tuis van 'n partytjie af. Tot sy ma se ontsteltenis is sy hemp vol gate gesny.

„Waarom is jou hemp so vol gate, Frikkie?”

„Ma, ons het winkel gespeel en ek was die kaas.”

op die plaas

O, dit is so lekker by my nefie op die plaas! Ons ry altyd perd en soggens en saans melk ons die koeie. Partykeer slag ons 'n skaap om te braai. Dan hou ons braaivleis. Die ribbetjies smaak tog so lekker.

Johann Swart, St. 1a(1).
