2. they are bound by IHSAA rules and regulations with the exception that a student who changes schools without a corresponding change of residence on the part of his parents is eligible as to residence immediately, provided there is no undue influence involved in any way.

**JUNIOR MEMBERSHIPS**

Junior memberships were extended in 1964 "to any school accredited by the State Department of Education offering the ninth grade, but not eligible for full, preparatory or associate membership". Such shall extend the privilege of participating in single athletic games, contests, tourneys and meets with other junior members. Membership shall also permit teams from junior members composed of ninth grade students to compete against teams composed of ninth and/or tenth grade students from full, preparatory and associate members in single games, contests, tourneys and meets without special restrictions as to the number of teams entered, trial runs or geographical location within the state. Schools holding junior membership are not eligible to enter teams in state tourneys or meets. It must be clearly understood that such membership is a membership in the IHSAA that requires the principal to subscribe to all of the rules and regulations of the Association. Such members may share in the distribution of tickets to the state final championship basketball tourney and other state final championship meets on a limited bases as determined by the Board of Control (Executive Committee).

**PROVISIONAL MEMBERSHIPS**

With the intention of assisting new schools during their transition to IHSAA membership, the IHSAA Executive Committee established a provisional (or probationary) membership status in 2011. Once approved for provisional membership, a school could immediately compete with other member schools but had a four-year waiting period before being eligible for state tournament participation. In 2022, the waiting period was reduced to three years.
