On January 13th, 2025, Jackson City Council passed Ordinance NO. 70-24, an ordinance repealing and amending the City's codified ordinance section 945.06 Garbage Containers. With this amendment the following changes will be implemented within the City.

- Within the service area, the City reserves the right to require the transition to City provided portable containers by the householder, tenant or property owner.
- The City will provide one container of the City's choosing to hold the garbage.
- Additional container can be added for \$8 per month, by contacting the City's Utility Office.
- The City provided containers for garbage will be assigned to the householder, tenant or property owner in or upon premises, where garbage is created.
- Such container shall be kept water-tight. All garbage must be bagged, and fit into the container with the lid shut.
- The container shall be placed on ground level of the premises and at a place easily accessible for the refuse collector, with the front of the container facing forward to the street, within 3 feet of the curb, alley line or edge of road.
- All garbage created upon the householder's premises or property owner must be placed in said container by the householder.
- If containers become broken or otherwise fail to meet the requirements notice shall be given to the City by contacting the City's Utility Office.
- Missing or destroyed city provided containers must be reported to the Police Department. Missing or destroyed containers without a police report are subject to the resident or property owners being responsible for the replacement costs which will be added to the next billing cycle.
- Containers are not to be placed at the curb earlier than 4pm the day prior to pick-up.
- Containers must be removed from the curb by 8am the day following pick-up and stored appropriately.

Please direct any questions to the Garbage Department at 740.286.2923, please leave a message and your call will be returned. Or, call 740.286.2201 and request to speak to the Service Director.

Regards,
David Swackhammer
Service – Safety Director
