TURNING CHALLENGES INTO MOMENTUM & RESILIENCE

In a year defined by transition and uncertainty, RE+ 25 served as the industry’s gathering place to unite the community in resilience and progress. 37,000 attendees and more than 1,300 exhibitors gathered in Las Vegas, NV, from September 8-11 to exchange ideas, strengthen partnerships, and showcase that clean energy is an integral part the energy economy.

Resilience was prevalent throughout all aspects of RE+, from education sessions tackling the realities of the new administration, to the global perspective brought by our Spotlight Country, Denmark.

Signature events returned to RE+ 25, including the H2GP Sprint hosted by H2GP Foundation, live microgrid demonstration, U.S. Installer Awards, Agrivoltaics Showcase, the Executive Program, and the Global Markets Summit.

EDUCATION AT RE+ 25

RE+ covers a wide spectrum of clean energy education topics. This year's schedule boasted 360 full conference sessions, a RE+ Tech program, 8 show floor theaters, and more!

GENERAL SESSION: RE+ ON AIR

Host

Molly Wood
Founder and CEO
Molly Wood Media

Speakers

Ray Henger
CEO
Copia Power

Pedro Pizarro
President & CEO
Edison International

Welcome Remarks

Sheri Givens
President & CEO
Smart Electric Power
Alliance (SEPA)

Abigail Ross Hopper
President & CEO
Solar Energy Industries
Association (SEIA)

Darren Van't Hof
Principal
Oakland Capital
Solutions

Peter Muhoro
Chief Strategy, Technology, &
Innovation Officer Rappahannock
Electric Cooperative (REC)

SESSION HIGHLIGHTS

- **Deep Dive: Selling Your Story: Effective Communication for the Clean Energy Industries**
- **QuickTalk: Trade and Tariffs Update: Navigating Impacts for the Clean Energy Industry Under the New Administration**
- **Main Stage: Federal Policy Update: Tax Incentives, Trade, Tariffs, and Other Goings-On in Washington**
- **BESSt Foot Forward: Building up Battery Energy Storage Systems in the U.S.**
- **Financing Clean Energy Projects Amidst Supply Chain Uncertainty**
- **The VPP Journey: Transforming DERs into Reliable Load**
- **Beyond Lithium Batteries: Emerging Options for New Approaches to Storage**
- **What's Next for Agrivoltaics in the U.S.?**

RE+ SPEAKER SNAPSHOT

RE+ 25 featured 650 leaders from top industry organizations, including:

Brian George
Global Energy Market
Development and Policy,
US Federal Lead, Google

Andrea Saucedo
Lead, Home Energy
Solutions, American
Honda Motor Co, Inc.

Paul Lau
CEO & GM,
SMUD

Anna Strehlau
Chief Architect Energy
Management, Carrier

Commissioner Andrew McAllister
Commissioner and Chair,
California Energy Commission

Constance Thompson
President
WRIS

Danish Saleem
Senior Engineer, Cyber
Security & Resilience, National
Renewable Energy Laboratory

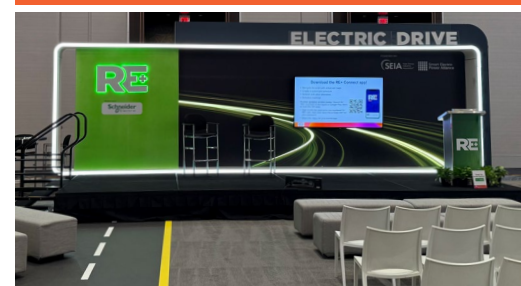

Elizabeth Wolfe
Senior Consultant
LPO, DOE

SHOW FLOOR THEATERS

Open to all, attendees experienced **210+** in-depth sessions throughout these exciting education theaters right in the Expo Hall:

- **GRID EDGE**
- **INDUSTRY TRENDS**
- **INNOVATION STAGE**
- **INSTALLATIONS & OPERATIONS**
- **MANUFACTURING & LOGISTICS**
- **STORAGE CENTRAL**
- **GLOBAL MARKETS**
- **ELECTRIC DRIVE**

RE+ TECH

RE+ Tech brings together innovators and researchers from the solar, storage, and smart energy fields to share the latest discoveries and breakthroughs that are advancing clean energy technology.

2025 POST SHOW REPORT

SEPTEMBER 8-11, 2025 | LAS VEGAS, NV

RE+ 25 HIGHLIGHTS

'Power of the Game' Block Party at Allegiant Stadium

The clean energy industry's favorite annual block party was hosted at Allegiant Stadium, with networking, food, drinks, and games under the stadium lights.

The Roman Connection Welcome Reception

RE+ 25 kicked off with an elegant evening on the pool deck of Caesars Palace, where the grandeur of ancient Rome set the stage for a week of connection. Attendees enjoyed curated refreshments and engaging conversation in a setting where timeless tradition meets modern networking.

Affinity Groups

RE+ collaborated with leading organizations across the clean energy sector to host programs and networking events designed to foster engagement, professional growth, and inclusion for Women, BIPOC, LGBTQIA+, and Veteran communities within the industry.

Agrivoltaics Showcase

RE+ partnered with American Solar Grazing Association (ASGA) for the second year to present the Agrivoltaics Showcase, complete with solar sheep, to demonstrate "solar grazing" – the art of raising sheep under solar panels to control vegetation.

Monday Educational Deep Dives

New to RE+, Monday's Education Deep Dives at Caesars Palace offered focused, in-depth sessions on sales, business development, communications, workforce development, and cybersecurity, giving attendees the knowledge and connections to tackle industry challenges.

H2GP Foundation Grand Prix Sprints

The Horizon Hydrogen Grand Prix (H2GP), hosted by the H2GP Foundation, returned for its third year for hydrogen racing! The largest hydrogen competition in the world hosted students from Las Vegas middle schools to take part in an 'endurance race' which tests student-built hydrogen-powered cars. This year, RE+ attendees were invited to try their hand at racing as well.

Spotlight Country

Denmark took center stage as RE+ 25's Spotlight Country, showcasing its leadership in the global clean energy transition. Danish companies and associations across offshore wind, hydrogen, energy efficiency, district heating, and smart grid technologies were on full display, highlighting opportunities for international collaboration.

PowerUp Live

RE+ 25's premier podcast stage, PowerUp Live, returned for another successful year of insightful interviews and conversations. In partnership with SunCast Media, hosts connected with clean energy leaders and innovators to explore the latest trends, challenges, and opportunities shaping the industry.
