Mobility Advisory Council

Your Voice Matters in Accessible Transit

SacRT's Mobility Advisory Council (MAC) is committed to strengthening the connection between community needs and public transit solutions. Our goal is to support an inclusive, accessible, and sustainable transportation network that serves every member of our community.

Who We Are

The MAC is a volunteer advisory group of up to 17 members. Nine members represent organizations or agencies that serve or advocate for persons with disabilities and seniors, and eight at-large members represent individuals with disabilities and seniors directly. This structure ensures balanced representation across a wide range of disabilities and geographic areas.

Established in 2005, the MAC provides guidance on accessibility improvements, helps facilitate communication between SacRT and key stakeholders, and advocates for the public transportation needs of seniors and persons with disabilities.

Join the MAC

SacRT's MAC is currently recruiting new members from both organizational and at-large categories. If you are passionate about accessible public transportation and want to make a difference, we encourage you to learn more or apply.

The MAC meets every third Thursday of the month at 2:30 p.m. in the SacRT Auditorium at 1102 Q Street, Suite 4600, Sacramento or via Zoom.
