# HARMONY COORDINATION

## ADD-ON

Available only with the Sangeet Choreography Bundle

Take all the work of coordinating a Sangeet off your plate. Vikas does the work, you have fun in the audience!

+ \$1,500

### ! Why this matters:

Most American wedding planners — even excellent ones — *don't handle Sangeet coordination!* They'll manage vendors, but not a live show with hundreds of performers. That responsibility falls on the couple and their families, which is why so many Sangeets run late, feel chaotic, and go far longer than planned.

Vikas has produced hundreds of large-scale shows nationwide. If you want 300 guests on stage in under an hour — without doing it all yourself — this package is for you.

### Includes:

- 🎁 **Sangeet Choreography Bundle:** Edited music, detailed tutorials, and live practices for all your groups.
- 📖 **Run of Show:** A minute-by-minute breakdown written in the language your DJ, planner, venue management, and vendors understand.
- 🎤 **Emcee Training:** You choose the emcees; Vikas handles the planning, coordination, and scripting to set the tone and keep the night moving.
- 👯 **Dancer and Vendor Coordination:** Hundreds of dancers means hundreds of questions — barefoot or shoes, stage or floor, who cues the music? Vikas manages every group so you can enjoy your celebration.
- 🏠 **Venue Configuration Consultation:** From ensuring enough dance space to negotiating barefoot policies, Vikas handles the logistical details that make the show run smoothly.

🧠 Think of it as: *"Take every Sangeet coordination task off our plate — run the night so we can simply enjoy it."*
