Aero 3

WHEEL & BRAKE SERVICES

OVERVIEW

Aero 3, a VSE Aviation company, is a global market leader delivering **aircraft wheel, brake, and component solutions through wheel and brake MRO services, OEM-aligned distribution**, and proprietary engineered solutions. With operations across nine MRO facilities, Aero 3 supports more than 750 customers worldwide with reliable, customer-focused results. **Through its family of companies AeroRepair, Skywheels, and Aircrafters**, Aero 3 provides certified MRO expertise and the operational scale required to enhance aircraft performance and reliability around the globe.

A UNIFIED AVIATION POWERHOUSE

Aircrafters is a **leading exchange and distribution provider** specializing in commercial aircraft wheels and brakes, offering a large global inventory, rotable exchange pools, and turnkey distribution capabilities.

Aircrafters partners closely with OEMs to deliver trusted, certified solutions backed by deep airline experience and ASA-100 quality standards.

AeroRepair provides cost-effective, **high quality MRO services with rapid turn times, supporting wheels and brakes, batteries, landing gear, and actuation.** Through long-term programs and dedicated repair support, AeroRepair helps operators reduce total cost of ownership while ensuring consistent performance and reliability.

OEM APPROVED DISTRIBUTION CENTER

Collins Aerospace

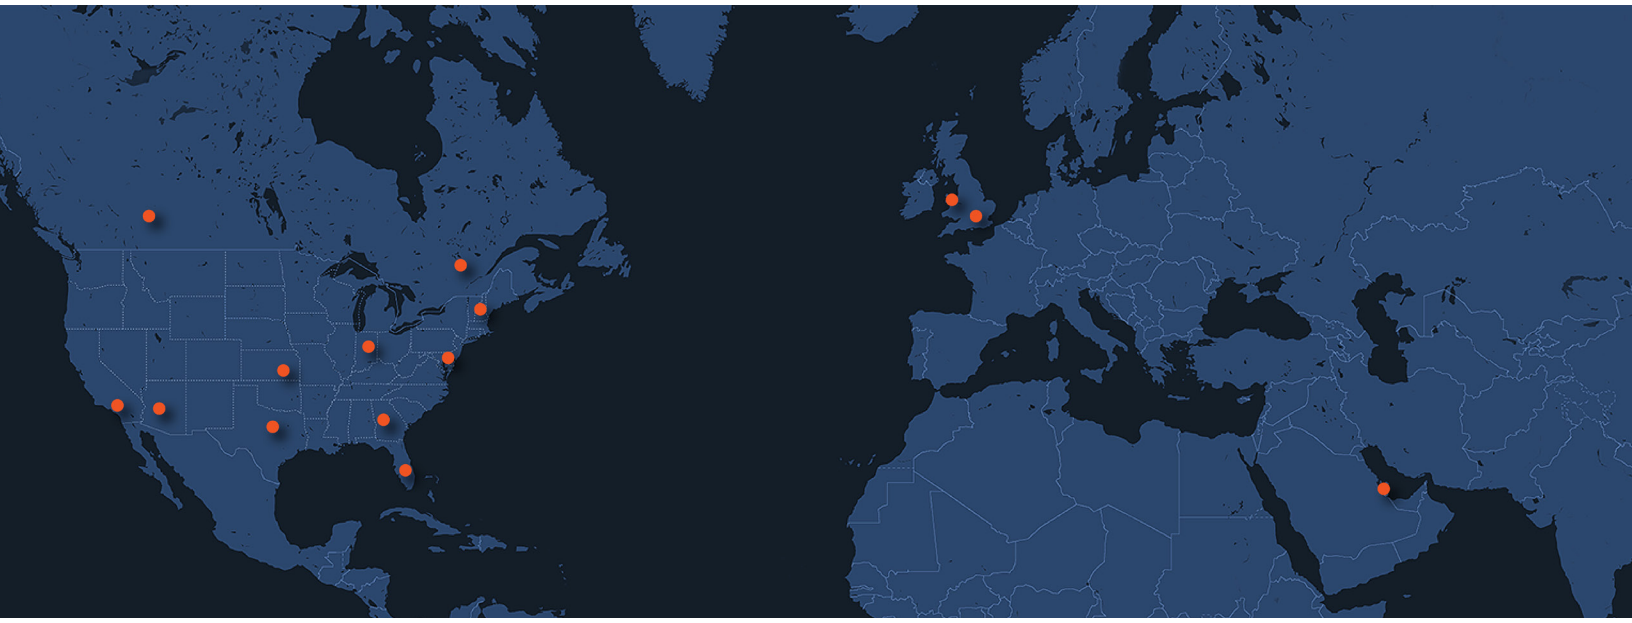

Skywheels is a **UK-based wheel and brake MRO facility** approved by the CAA, EASA, and FAA, delivering efficient repair and overhaul services supported by secure 24-hour storage. As part of the Aero 3 platform, Skywheels **extends global MRO coverage into the UK and European markets**, providing reliable support for operators worldwide.
