Main features of LoF by Firelogue

Networking page:

- Dissemination Booster/EU Platforms - **Link the Community with EU Dissemination Tools**
- Events - The calendar
- News - **Give the opportunity to promote event, project results etc**
- *Sci-Face* - ***Link experts and scientists of the WFRM Community***

Knowledge page:

- WFRM (existing) Platforms - **Promote other relevant EU Platforms**
- Library - **Create a knowledge repository**
- Case Studies - **Provide info for WFRM-related case studies**
- TechMall
- WFRM Measures - **Inform the community for new publications, articles, Standard Operating Procedures and available technologies**

Firelogue's Innovation Actions: FIRE-RES SILVANUS TREEADS

Firelogue's Precursor Project: fireurisk

In collaboration with: European Commission

Union Civil Protection Knowledge Network

Funded by European Union

Grant agreement ID: 101036534

TechMall

Knowledge – Solutions – Technologies – Services

Contributors: FIRE-RES – SILVANUS – TREADS – FirEUrisk

- A repository covering three phases of fire management: Prevention & Preparedness, Detection & Response, and Restoration & Adaptation.
- A one-stop location for users to explore and compare technology products, keeping them updated with the newest advancements.
- Offering detailed information on fire-related technologies so users can understand the available market options better and their potential benefits.

To add a project on the form's list, the project's coordinator have to send a request at info@firelogue.eu

Thematic Working Groups

Environment

Landscape resilience; Sectoral policies influencing landscape modulation

Civil Protection

Definition of CP planning activities; European best practices;
Requirements and needs for CP Knowledge Network (DG ECHO)

Infrastructure

Infrastructure as a driver of wildfires
Impact of wildfires on existing infrastructures

Injustice in governmental communication; Low adoption of measures due to lack of effective communication; Vulnerability to wildfires within minority groups

Societal

Equitable wildfire insurance and risk transfer (e.g. who pays?); Insurance and risk transfer incentives and requirements for wildfire risk reduction

Insurance
