

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

Digitized by Google

RE-RECORDING MARKS AND BRANDS.

[*Revised Statutes of Utah, 1898.*]

43. **Owners of live stock to re-record marks and brands within one year.** All owners of live stock within the state shall within one year from the eleventh day of March, eighteen hundred and ninety-seven, send in to the recorder of marks and brands for re-recording all recorded marks and brands used by them.

44. **Id. Recorded free of charge.** The recorder of marks and brands shall for the said period of one year receive for record, free of charge, all marks and brands heretofore recorded in his office and shall re-record the same.

45. **Id. Record to be compiled, printed and distributed.** The recorder of marks and brands shall after re-recording said marks and brands, collate, compile, and index in a record of suitable size all such marks and brands and shall furnish the county clerks of the various counties in the state with sufficient copies of said records for the use of such clerks and the constables in said counties.

46. **Recording after the year.** After the expiration of the one year, as provided in section forty-four, the recorder of marks and brands shall proceed to record further marks and brands submitted for record, as provided by law.

47. **Old marks and brands not re-recorded annulled.** All marks and brands heretofore recorded not re-recorded, as provided in the four next preceding sections, are hereby declared obsolete and their record null and void.

EXPLANATORY.

The number following the brand corresponds with a number on the cut shown at the top of each page and indicates the position the brand is to occupy on the animal.
