INVENTORY OF OPEN DUMPS

The Resource Conservation and Recovery Act (RCRA or the Act) provides for publication of an inventory of open dumps. The Act defines "open dumps" as facilities which do not comply with EPA's "Criteria for Classification of Solid Waste Disposal Facilities and Practices" (40 CFR 257).

EPA has provided funds to State solid waste management agencies to evaluate disposal facilities against the Criteria. Through such evaluations the States have been able to identify facilities which do not comply with the Criteria and are, therefore, "open dumps". The facility evaluations leading to publication of the inventory were conducted by State agencies as part of their effort to develop and implement State solid waste management plans in accordance with the Act.

STRUCTURE OF SUBTITLE D PLANNING PROGRAM

Subtitle D of the Resource Conservation and Recovery Act (RCRA or the Act) established a voluntary program through which participating States received Federal financial support to develop and implement solid waste management plans. EPA's role in the program has included publishing guidelines for States to follow in developing their plans, providing funds for the States, and approving those State plans which meet the requirements of the Act.

On July 31, 1979, EPA published "Guidelines for Development and Implementation of State Solid Waste Management Plans" (40 CFR 256, 44 FR 45066-45086). The Guidelines are based on Section 4003 of the Act, which lists the minimum requirements with which State plans must comply. Section 4007 of the Act provides for EPA approval of State plans meeting the requirements.

Role of the Inventory

One requirement listed in the Act and addressed in the Guidelines is that "the plan shall provide for the closing or upgrading of all existing open dumps within the State ...". To aid the States in satisfying this requirement, EPA has funded State efforts to identify open dumps so that they can plan to provide for their closure or upgrading. In furtherance of this planning effort, the Act requires that EPA publish an inventory of open dumps. Publication of the inventory will serve to inform the Congress and the public of those facilities which the States have found to be open dumps.

Classification Criteria

For purposes of State planning and the inventory, the Act defines the term "open dump" to mean "... any facility or site where solid waste is disposed of which is not a sanitary landfill which meets the criteria promulgated under Section 4004 and which is not a facility for disposal of hazardous waste." Thus, any facility which fails to comply with any one element of the Criteria is an open dump.

OPEN DUMPING

In addition to establishing a mechanism whereby States, with EPA assistance, provide control over facilities which are found to be open dumps, RCRA prohibits the practice of open dumping of solid waste as a matter of Federal law.

In EPA's view, the Federal prohibition may be enforced in Federal District Court through the citizen suit provisions in Section 7002 of RCRA. The Act does not give EPA authority to take legal action against parties that may violate the open dumping prohibition. Whether specific acts of specific individuals constitute the prohibited practice is a matter for the Federal courts to determine in the context of particular cases after de novo review of the facts in each case. In reviewing a case de novo, the court is not bound by the State's determination that a facility is an open dump. Rather, the court will make its own finding of fact and rule accordingly.

In EPA's view, the open dumping prohibition is a provision of Federal law which stands on its own, separate from the State planning program. The inventory of open dumps is a publication of State findings from State planning efforts to satisfy the requirement of Section 4003 of the Act. The inclusion of a facility in the list of open dumps is not an administrative determination by EPA that any particular parties are engaging in the prohibited act of open dumping.

A determination for purposes of the open dump inventory need not precede an open dumping suit. However, before the results of the inventory may be used to support a legal determination that open dumping has occurred, the court would have to determine that the classification was a correct application of the criteria and that the defendant was responsible for actions violating the criteria. The court would be obliged to review the sufficiency of the State's classification of a facility and not simply defer to the State's decision.

DESCRIPTION OF INVENTORY

The first installment of the inventory was published on May 29, 1981 (46 FR 29064-29149). It reflected the initial efforts of the States in evaluating a portion of the total universe of facilities and represented a fraction of the total number of open dumps likely to exist. The second publication of the inventory, published on April 29, 1982 by EPA, reflected subsequent efforts of the States in evaluating facilities during fiscal year 1981. Those facilities found to be open dumps were added to the initial list, and facilities found no longer to be open dumps were deleted.

The third publication of the inventory reflected additions and deletions to the list which were provided by the States during FY 1982. Subtitle D funds were not available to the States during FY 82. States, however, were permitted to use Subtitle D funds carried over from FY 81. Only 18 States submitted inventory additions and deletions for that edition of the inventory.

This fourth publication of the inventory reflects additions and deletions to the list which were provided by the States during FY 1983. Subtitle D funds were not available to the States during FY 1983, nor were any carryover funds remaining. A few States, however, continued to evaluate a limited number of facilities, and to provide for closure or upgrading of facilities previously listed. Only seven States submitted additions and deletions for this edition of the inventory: Washington, Georgia, Arkansas, Idaho, Louisiana, California and Pennsylvania.

Actions on Facilities

Because the inventory lists facilities which the States have found to pose a reasonable probability of adverse effects on health or the environment, participating States will be planning for the closure or upgrading of these facilities pursuant to State authority. Specific actions may vary, including issuance of a State administrative order or the gathering of additional data. In some cases, States already have placed listed open dumps on compliance schedules for closure or upgrading prior to publication of this list.

All such actions are to be taken under State law and through State regulatory and administrative procedures. Interested parties may wish to contact the State solid waste management agencies

(Appendix II) concerning the current status of any of these open dumps and the responsibilities the agencies have under State law.

State Approaches

EPA's Planning Guidelines require the plans of participating States to provide for an orderly time-phasing of the evaluation of disposal facilities to determine which facilities are open dumps. Thus, there is considerable flexibility for the States to set priorities for evaluating facilities. The establishment of these priorities is part of the State plans subject to the public participation provisions of 40 CFR 256.60.

The States have taken differing approaches in ranking facilities for evaluation and in conducting evaluations. For example, where States already had extensive data on hand, they could more easily rank their facilities for evaluation or make noncompliance determinations. Otherwise, resources had to be expended in locating facilities and gathering information, and fewer determinations would be likely to be made over the year.

For this fourth installment of the inventory, five of the seven participating States provided the Agency with new descriptions of actions and approaches they have taken in evaluating facilities. These descriptions are included in Appendix III. Further information may be obtained from the State agency personnel listed in Appendix II.

Personnel from the Environmental Protection Agency's Region VIII office conducted evaluations at a number of facilities located on Indian Lands. In addition to the facilities located within Region VIII (and included in the preceding tabulation), they determined the following facilities located on Indian Lands in the State of New Mexico to be open dumps:

NM	SAN JUAN	NOT APPLICABLE	BECLABITO TRADING POST DISPOSAL SITE
100 E OF BELCABITO T.P.			21W 30N 1 06 09 11
NM	SAN JUAN	NOT APPLICABLE	CUDEI COMMUNITY LANDFILL
5 MI N OF HWY 504 - 5 MI W OF SHIPROCK			18W 30N 5 06
NM	SAN JUAN	NOT APPLICABLE	HOGBACK DISPOSAL SITE
1/4 MI N OF HWY 550 - 8 MI E OF SHIPROCK			16W 29N 5 06 07 09 11
NM	SAN JUAN	NOT APPLICABLE	HOGBACK UNDESIGNATED DISPOSAL SITE
1.25 MI N OF HWY 550 - 6 MI E OF SHIPROCK			17W 30N 36 06 09 11
NM	SAN JUAN	NOT APPLICABLE	SHIPROCK DISPOSAL SITE
3 MI N OF SHIPROCK OFF HWY 666			18W 30N 12 06 07 09 11

APPENDIX I

EPA REGIONAL OFFICE CONTACTS FOR OPEN DUMP INVENTORY

REGION I

Conrad Desrosiers
Waste Management Branch
USEPA
John F. Kennedy Building
Boston, MA 02203
(617) 223-5630

REGION II

Garrett Smith
Hazardous Waste Program
Support Section
USEPA
26 Federal Plaza
New York, NY 10278
(212) 264-3407

REGION III

John Armstead (3HW31)
State Program Section
USEPA
6th and Walnut Streets
Philadelphia, PA 19106
(215) 597-7259

REGION IV

Jim Scarbrough
Residuals Management Branch
USEPA
345 Courtland Street, N.E.
Atlanta, GA 30365
(404) 881-3016

REGION V

Karl J. Klepitsch
Waste Management Branch
USEPA
230 South Dearborn Street
13th Floor
Chicago, IL 60604
(312) 886-7435

REGION VI

Pat Hull
State Programs Section
USEPA
1201 Elm Street
First International Building
Dallas, TX 75270
(214) 767-2645

REGION VII

Chet McLaughlin
Hazardous Waste Management
Section
USEPA
324 East 11th Street
Kansas City, MO 64106
(816) 374-6534

REGION VIII

Charles Brinkman
Solid Waste Section
USEPA
1860 Lincoln Street
Denver, CO 80295
(303) 327-2221

REGION IX

Charles Flipppo
State Programs Section (T-2-1)
USEPA
215 Fremont Street
San Francisco, CA 94105
(415) 974-8245

REGION X

Tobias A. Hegdahl
Solid Waste Program
USEPA
1200 6th Avenue
Seattle, WA 98101
(206) 442-2808

APPENDIX II

APPENDIX III

STATE ACTIONS AND APPROACHES TO THE INVENTORY

Paragraphs describing State actions and approaches to the inventory were provided to the Environmental Protection Agency by five of the seven States that submitted inventory forms during Fiscal Year 1983. States which participated during Fiscal Years 1980 through 1982 provided descriptions of their approaches to the inventory which appeared in the three previous editions. They can be found in the following documents:

1. Solid Waste Disposal; Inventory of Open Dumps
Federal Register; May 29, 1981
Volume 46, Pages 29064-29149
2. Inventory of Open Dumps; April, 1982
Available from:
Office of Solid Waste and Emergency Response
U.S. Environmental Protection Agency
401 "M" Street, S.W.
Washington, D.C. 20460
3. Inventory of Open Dumps; May, 1983.
Available from:
Office of Solid Waste and Emergency Response
U.S. Environmental Protection Agency
401 "M" Street, S.W.
Washington, D.C. 20460

For additional information about individual States, contact the State Agencies listed in Appendix II.

The following summaries are based on information provided to EPA by the States:

California

The California Waste Management Board developed an extensive program for the conduct of the open dump inventory based on data gathering and record searches, and conducting field inspections. Operators/owners are notified before field visits are made, and within 21 days of the field visit, the owner/operator is informed of any deficiencies. Ninety days is then granted the operator/owner to correct the deficiencies. A reinspection is then made at the end of 90 days. If the facility remains in non-compliance, the facility's name is referred to the Board, in open session, for inclusion on the list of open dumps which is forwarded to EPA. In order to be removed from the list, corrections must be made and the Board must be so notified. A reinspection is then performed at the facility to verify compliance with all criteria and the facility's name is referred to the Board, in open session, for removal from the list of open dumps.

Georgia

Open dump inventory activities included follow-up inspections of the twelve (12) sites listed on the open dump inventory. One site previously listed as an open dump was removed from the list.

Idaho

The Idaho Department of Health and Welfare, in cooperation with the seven district health departments, is developing a survey and computerized data base to better track landfill life, progress and status, including the open dump inventory criteria and critical enforcement dates and criteria.

The Department will also be proposing new land disposal regulations which would, if established, make it highly unlikely that any new site would fail the open dump inventory criteria.

Pennsylvania

For Fiscal Year 83, Pennsylvania has submitted forty (40) sites for removal from the open dump list. This was done as part of Pennsylvania's ongoing program to ensure that all listed open dumps are upgraded or closed. During Fiscal Year 1983 no new site evaluations were conducted and none are anticipated for Fiscal Year 1984.

Washington

Seven facilities have been deleted and two have been updated on our open dump inventory list in 1983. The Washing Department of Ecology continues to evaluate facilities according to their impact on public health, safety and the environment.
